Dear Odes,

re: JNKDm 2 .

We have not yet come accrual any substantial information relating to how  
the recent talks 31' fact us. We are mniturzlng the 9lmm u a nutter  
of course.

We, however. have heard that the Habour maths are owwlaining that  
since the talks they had with some of the members of our leadership in and  
during July/August 1988 and mntray to their expectations, we (a: mo)  
have nit taken tha measures we promised 1:: take in order to Me things easy  
for them. We urge you, with respect to We these mncarna an d anxieties in  
a serious light and to act before we lose contml of the direction of events.

Deer Odes,

re : Amhwer Irkogg.

The infomtionn contained in this letter is from our two reliable sources, and we use the word m; not as a matter of vague but in its met serious and proper meaning.

1. The agenda of the recent talks we are informed was as follows:-

1.1 the Liupopo railway line between Maputo end Zimebwe

1.2 the Cuban - Been water Blechddty Scheme.

1.3 the renovation of the Mepuh: Hebour

1.4 the opening of the Roeene Grade (Kontipeort) end Nenahedu made (both are presently plagued by the bandits).

1.5 MB end the mo

2. Briefly we are informed that whet wee agreed in respect of the items listed above are u felines:-

2.1 The enemy promised to finance and mum that the Cuban Been eletrieel Schene becomes fully operational

2.2 The enemy agreed 1:: we 11: possible for the Limpopo line to be Opere-tionel end eppermtly also not to attack it.

2.3 The enemy promised to renovate and bring into use the Maputo Harbour (1 which it hopes to use for unction-buetim).

2.4 The enemy agreed 1:: ensure that her bandits leave in peace both the Kemetipoorb-Mepute end Neneheche made.

2.5 The enemy agreed 1:: restrain the DNR apparently in the Southern pert of the country.

The eneny/Z....

2.6 The enemy dammed that :11 maubm and Immune of the PNC should leave Mozambique except the 1D in the office. In #113 regard. we unde- Itand the enemy is not for the time being in a hurry. they are understood to huva givun the local: time to us to it that we cam off. The enemy is said to have maid that presently its attention is on the Namibian question as wall as the internal October LA elections. 60 our friends have been given time to wirk about how to flush us out. Correct or incorrect. such 13 our information and we have an obligation to convey it to you as it 18.

3. We were infomad, by another source that our Friends (1.9. the locals) are complaining that they expected us to have implemented the measures agreed upon between mmelvas and manners of our leadmhip during the diswsainna held in and around July/August 1988 during the recent SADCC meeting here. They feel we are noving slow and are wondering whether it was worthwhile talking to us. WE a3 a Service Unit suspect that this impatience; whether founded or not. 1. an attemt by our Manda t3 renege Mm some of 11' not whatever undartddnga they might have made to us. The latter is merely our suspicion. It is clear in us that the enemy has yet again played its card vary shrewdly here. it dangle: the carrot, mrka time on the MC question, wait for our friends to swallow the carrot and mybe even to do the dirty uork for them, and then the next mve 18 any-body'a guess. It would be interesting to see how the locals go about responding to the denund that only 10 of our ueubers stuuld rennin. We are bald they are busy working out forwla t3 deal with us. In the promises, we remnant! that whatever undattdngs or promises we made to hem should come to pass. Maybe we might get them off the hook. maybe. Yours in the Struggle.
