Dear Mr 'ranbo

The future of the AM: lies within South Africa.

I think that you and 11015011 have a substantial role to play in formulating a constitution which works for the majority of people in this country.

Basically what you and Nelson have fought to attain for blacks has been totally valid.

You and your entire ARC must return to South Africa and I think that August '89 is a good time to make your move.

The top elected black and white political leaders!! BSA must occur the 230 country sooner rather than later.

To attain this ideal scene you have to return to the country. The Am must not split and it must form an alignment with Inkatha. (81192159.)

Violence is out.

Reason is in.

In initial meetings and negotiations with P.J. Botha or his successor you must get Presidents Kaunda and Mugabe to accompany you.

It is essential that they be present and that they actually play a part in creating RSA's new constitution.

These men are the gateway to Africa and the world for RSA so bring them along.

The Afrikaner has a very highly developed culture and group identity.

All that he fears is the partial or total destruction of his group identity and culture.

You must work out a way with the Afrikaner leaders to safeguard their cultural identity and way of life.

The ARC will have much more strength in South Africa. »
