release of Nelson Mandele

This year all the progressive peoples throughout the world will be celebrating the 70th birth anniversary of the great son of the South African people, Nelson Mandela. This ,ie also the 26th year of his imprisonment by the apartheid regime. The people of South Africa has been waging a long heroic and relentless struggle for the total liberetlun of South Africa. the destruction of apartheid. the establishment of a free, non-racial and democratic South Africa and the attainment of independence for Namibia. under the banners of ANC and SNAPO. For people everywhere to when such categories as human dignity. the right of the nation to Helf determination and the right of the people to choose their own destinies are dear. Nelson Mandela symbolises the fight for freedom. liberty and equality. We have firm conviction that the cause for which Neleuu Manuela has been making supreme sacrifices throughout his life will triumph 300". Everyday the patriotic forces are advancing in political. dplomatic and military spheres. A wave of militant solidarity spearheaded by the frontline states aurround the fight of S.A. peoples.

As the ruclut apartheid regime and its imperialist patrons and znununt collaborators face an increasing defiance of their hated policies, as they become more and more conscious of the fact that the days of apartheid are numbered, they are becoming increasingly desperate. Repression has become more severe and thousands of patriots are being murdered and put into apartheid jails. As because Nelson Mandela stands for everything that is epitomized in anti-apartheid struggle, the venom of the apartheid wrath is specially applied to hlm. The tacit BuppurL uf lmpერიუllum embeldenu the apartheid regime to inshore the world wide solidarity campaign to free Nelson Mandela from the dungeons of the regime. Religious. Cultural, Political lenders have Joined their voice with mlllllonu of cummuu mun who demand the immediate and unconditional release of Nelson Mandela. We have flrm eonvlctlon that the valiant atruggle waged by the South African nnd Namibian peoples, supported by the militant international solidarity movement, will result in the near future. in the total liberation of Suuth Africa, the destruction of apartheid. the establishment of a free, non-racial and democratic South Africa and the attainment of independency uf Namibia. We call upon the white minority regime to come to terms thh

reality and initiate a policy of dialogue with the patriots. The Freedom Charter adopted at the congress of people of South Africa on 26th June, 1955 dreams of a nation that would belong to all who live in it, black and white, and declares that no government can justly claim authority unless it is based on the will of all the people. The starting point of any rupture with the hated apartheid policy would be the release of Nelson Mandela.

i If

We know the cause for which Nelson Mandela is fighting and has made tremendous sacrifices is just. Even now, when we celebrate the 70th birth anniversary of this great son of Africa and he passes the 26th year of imprisonment, we know apartheid could not and will not be able to break Mandela. There is only one practical option left for apartheid if it wants to avoid further bloodshed and that is to free Mandela unconditionally which should open the way for the release of other patriots.

We express our support to the cause of the South African people and our admiration for Nelson Mandela who have symbolized that cause with such conviction, courage and dignity Echoing the demand of people all over the world we demand "Free Nelson Mandela ! Now !"
