

The General Manager,

London North Telephone Area  
Telephone House  
Crouch End Hill  
N.S,

Dear Sir,

re: Telephone 883-3209

I wish to renew my application for the installation of a slot-machine in place of the above telephone.

For that purpose I be agreeable to the present telephone system being removed!

I am making arrangements for settlement of the outstanding telephone account. In the meantime, I confirm my husband's telephonic conversation with a member of your staff, when he requested that among the details of the operator-controlled calls, you include particulars as to the places to which calls (i.e. international calls) are made, or telegrams sent.

Yours truly,

A. Tambo
