Dearest friends

We congratulate you on the anniversary of your 122nd anniversary. We also thank you sincerely for the award you conferred onto us in 1988. The people of South Africa are waging a long battle for freedom, but ours is not a lonely battle. We count the Student's Union at the University of Helsinki as one body of friends of the ANC.

Our struggle continues and our fight for self government in a non racial, united and democratic South Africa is strengthened by the support you give to us.

We wish you strength for your future and encourage you to persevere along the path of bringing alive the struggles of our people to the youth in Finland.

Yours in the struggle

Nelson Mandela  
Deputy President
