| .po:tmasbâ\200\234"â\200\231" o REF: 1/11/ @8 /31Â©

â\200\23193 14:10 ESKOM POSTM-TDS

It is our submission that a merger between the Northern Cape and th
Western Trangvaal is an Econonically viable option.

We ncted that, with suech a merger, a balance will be created betwee,
the rursl and arban characier.of the two regions., This will be.
creating the .potential for functionality and economic viability,

It will be a creation of a more mancgcable unit at that level and
the emergence of a region with an increased industrial basw which
generate revenie for the north-western region which we prefere it
to be called Northern Cape, : SR Â¥oal

Thig option is the most wvigble. It woald,Â©nhance,the potentisl of
econonmie development in the region and. leasen .dependence on the cen
We are not urging here that the region will rely on its own tax baa

We in POSTMASBURG Wish to submit that the functionality of this re-
gion is only possible when the two regicns , Roxrthern Cape and
Western Transvall merge with Mafikeng as a regional centrs.

WE FEED 7C POINT OUT THE POLIOWING LINKAGES EETWEEN THT TV0. REZIONS

EINCATTION: Currently the two resiena are aedwinisbred Jointly Lhrow
: v the D.E.T Office in Potchefstroom. This shows that
Thers are good communication links between the two - -
reziong., This. /is an important factor. S

AGRICULTURE: (lMaize) There is clear economic cohefence through

this product between the two regicns. Thais proofs
that the two regions are functienally interdevendent
to each other. Therefore a merger would be 2 formal
way to create a strong and conerent region in terms
of adminstration and planning, â\200\230 o

NB: We are prepared to come and make an oral subnission to the com-
nission as a matter of Urgency. â\200\230 o
