Lusaka, Zambia

My dear Brother O.K.,

Greetings. I have just received my Dec. '86 and Jan. '87 copies of the SECHABA.

Therefore the 75th Anniversary Programme of Action (which is a masterpiece) can only be implemented from now up to Dec. '87.

ANC is my life. I live, yet I do not live. Apartheid has destroyed my manhood. I am at liberty here yet I am not. How can I, when I am mentally locked up with

berg, my teenage brothers and sisters, South African, Umkhonto We Sizwe and the subjugated people of the world*

History singles out Africans as the greatest warriors that ever existed on the surface of the earth. Our feats in defending our manhood are living testimonies of our heroic past. My dear brother O.R., we must now begin to reorganize and if possible commit class suicide in order to survive. We do not have to depend so much on outside help. We are men. We are Africans, hated and despised but who are determined to exist.

We must develop a suicide squad; train our brothers, sisters and daughters to mix up with them; poison them and destabilize them. African nature is not brutal. We are the most hospitable race but if brutality will give us back our land, our hope and humanity, our integrity, our survival, we must then become not only brutal but wreckless to our enemies.

ANC must go back home. Azania-our hope, must triumph, Ipi Tombi like others in exile must return and together we shall embrace liberty. I am not a Nigerian; it is

an accident that I belong to a pcxrti^ned continent. 1 am an African and t
herefore feel
the African pain.

Dear brother O.R., our problem is US. Power and Authority belong to us.
Get up
and out and let's fight for it.

Bravo to all compatriots who are dead or living'.

AMANDLA MAATLA while the strug-le continues!

Govan Mbeki, Ahmed Kathrada, Dennis Gol-
