Re: Wu

1932.

The ANC places great importance to the deliberations of the World Health Assembly

which take place in Geneva annually.

Under United Nations protocol only one participant from the ANC is sponsored for the meeting.

In view of the many forums that take place during the assembly often with some overlap, in the past three years the ANC has been sending two representatives to the WHA. This year we have been able to raise only the per diem requirements of the second participant.

As you have offered invaluable assistance for our health sector in the past, we

request you to sponsor the return air travel of our second participant.

We take this opportunity to renew the assurances of our highest consideration.

Yours sincerely

Ralph Mgijima (Dr)

Secretary for Health)
