MONTHLY HOUSING REPORT ;

TDgepxte

The housing situation is daily deteriorating. A large number of Cde's joining our working force in the complex, some older members of our community further contribute to this long standing problem. A large number of the Somafo school children stay with their parents instead of boarding. This unhealthy atmosphere is apparently encouraged by many most parents in our community. To make matters worse decisions are being taken by senior officials behind the housing officer's back. How then do we expect the housing officer to be efficient? People are sneaked into houses without the housing officer. To solve this aggravating situation within our community and to ensure smooth running of housing allocation, correct procedure has to follow from the top:

The slow construction of new Tabora Area also owes to this. However little progress has to an extent been done. Sometime ago during the housing committee meeting, the regional Commissioner was entrusted with the task of forming complex commissariat, on the basis of residential areas 6F which he did.

But up to now, the housing officer has never been introduced to the newly formed complex area commissariat i.e. a formal meeting with them;

UNITS .

Cde Ndumiso is still not yet housed and presently squatting at the housing off-inast house; Jerry swapped around with Makhosazane who was formerly staying in Unit 2; One of our volunteers Julia has left after her long service and her room is presently occupied by EGde 1223 the teacher. Our office is still not clear about Cde Mafria's room. The school authorities still have to clarify the question of his room.

TABCRA.

The question of Gilbert and his partner is still a problem in our dept. They are now occupying two separate rooms yet we have a serious shortage of houses and apparently this is condoned by the

the Administration. Cde Meshack has been sneaked in Tabora (General's room) still on this matter the people never had any courtesy to inform the housing officer, who is always subject to questioning and blames from the community.

Gladstone and his family have finally settled in Tabora (Evelyn house) The housing officer arranged for the children's accommodation in the boarding section. Jacob, the acting Principal is now in Double 7 up 18. Felicity is occupying two rooms with her children and she is showing signs of reluctance to free at least

one single room.

This is one of the unhealthy atmosphere encouraged by parents which I earlier on indicated

DOUBLE UP.

Rose Chiliza is also occupying two rooms of which she has to free one for us. Cde Biag who also has been serving for some time in the electrical dept, is due to leave in a week's time and his room will be occupied by the Cuban Doctors:
