Dear Mr. H. J. DeKlerk:

Recently a publication from your embassy appeared upon our campus, distributed in the racks of our campus newspaper.

We wholeheartedly object to the appearance of this pro-apartheid propaganda, as we deplore the South African regime that spawns it. We support the struggle of Blacks to achieve democracy and freedom from educational, economic and political oppression.

It is our belief that Canada should break the diplomatic ties with South Africa which enables access to our campus. We will continue, therefore, to remove such materials from our campus, and will take more drastic measures if they become necessary. I trust they will not.

Very Sincerely,

*Zanna Joyce*
