Dear Booi,
INTERSOLID

I thank you on your letter earlier this month. I am sorry for being so late in my reply. It is due to the consultations I have had with FINNIDA. Finally I am in the position to give a positive answer "in principle" - as was the formulation of FINNIDA - to the proposed changes. In order to ensure development cooperation aid from FINNIDA I need further information on some questions.

In principle your proposal on the allocation is acceptable for us. When preparing a project budget for FINNIDA I anyhow need to know more . detailed way how these sums are composed of (fees, study materials, administration etc).

We would like to draw special attention to training of the fema'tle returnees and we would like to know on your more exact plans in this regard.

Since my own knowledge on your educational system is so limited I would appreciate clarification on the 3rd groupis training programs (N1-N4).

I agree your preposal that the Batlagae Trust is to adnunister the project.

You aim informed that FINNIDA is of the Opinion that the ANC is now a political party and it is that for impossible for FINNIDA to finance any x projects with it. Since this: is the very first project with the Batlagae Trust 1 would be pleased to receve some more information on the Trust such as the financial basis and charmels, connections and admittistran'on. Would you also clarify what would be our administaration fee in the project, if 0 W-

I remain waiting your reply in order to make the new project proposal with its budget to FINNIDA most urgently.

Yours sincerely
