Dear Sir/Madam,

. . . . . ) viuwae

The South African Extension Unit, a programme which has been providing adult  
1,3 aa'trma . .

education to South Africans in exile was established following meeting of  
Commonwealth Heads of States Wu. LL Mus D&M

As most South African exiles have now been repatriated, thought has to be given to  
the continuation of the programme in South Africa. It is known that about 700 South  
Africans who benefited from the programme while in exile are now in the country.

We would like to make it clear that the prospective trainees under the programme will  
not be ANC members only but will include PAC and AZAPO members as well as any  
other South Africans who were in exile and were not affiliated to any of the three  
political organisations

It seems to us desirable that these people continue with their adult education courses  
and that is basically why we wish a representative of your organisation could come to  
a meeting in Johannesburg with the Director of the South African Extension Unit, Mrs  
E. Ligate who is here from Dar Es Salaam to discuss the implications of such  
continuation.

—  
The People Shall Govern!

The following international organisations UNDP, Commonwealth Secretariat, UNEPTSA, European Commission have indicated their willingness to provide financial assistance to the re-location of the SAE U programme.

We would like to establish in principle your organisation's willingness to participate in such a programme as well as your capacity to handle an extra load of adult trainees. If you are willing to attend the meeting it would be easier in our view if you buy the ticket and make the bookings for your representative and the ANC will arrange to reimburse your organisation either when you get here on the 9th April or as soon as possible afterwards

We would be happy to get your response as soon as possible

Below is tentative agenda for the meeting:

- i ) Continuation of SAE U programme and funding
- ii) Capacity of each participating organisation as well as envisaged programme for next 2-3 years
- iii) How programme is to be implemented
- iv) Relationship between SAE U and Implementing Agencies
- v) Restructuring of SAEU programme to suit conditions in South Africa
- vi) Action Plan

VENUE OF MEETING . ' SACHED Basement ALLIED BUILDING cnr Bree/Rissik Street

We hope to hear from you soon

Best ' hes

OM4 .

indelwe Mabandla

Administrative Secretary

ANC Education Department.
