Pretoria tries to limit damage as Vlok admits R370,000 gifts to rivals

Need to claim moral

high ground faces
wounded de Klerk

From Gavin BLLL v JOHANNESBURG

AFTER three decades of ruthless political skulduggery, it is not surprising that a few skeletons should tumble from the cupboard of South Africa's ruling National party. That fresh meat has been found clinging to some is the revelation which has undermined both President de Klerk's reformist government and the transition to multiracial democracy.

One of Mr de Klerk's first actions after wresting power from P.W. Botha two years ago was to curtail the influence of a shadowy security establishment which had effectively governed the country under his predecessor. To universal acclaim, he restored the authority of civilian rule and pledged a new era of open government.

It is now clear that the "dirty tricks" brigade, with senior ministerial approval, has been pursuing its covert activities with vigour. We have always had a good relationship with Inkatha, and it was easy to pay money into a bank account, "Adrian Vlok, the minister of law and order, told the nation this week.

The scandal is being compared with a similar one in 1978 which brought down the government of John Vorster and hounded Connie Mulder, the information minister, out

present furore, however, are
more far-reaching. In the late

The consequences are that
Mr de Klerk has jost the moral

They must now take the same path as Dr Mulder and resign." Most damning is that the deladle is perceived to have cost lives. An Inkatha rally in Durban on March 25 last year, for which the government contributed more than R30,000, was followed by a week of strife in which 160 people were killed and more than 20,000 people, mostly ANC supporters, were made homeless.

When the covert funding was exposed last week, Mr Viok initially denied knowledge of the fighting and said that Inkatha leaders had called for peace at the rally, "No violence followed, at least not as far as I know," he said. On Sunday night, he conceded that "a few hundred incidents of violence" had occurred in Natal during March. Such clumsy attempts to gloss over the consequences of government actions are deemed to require Mr Viok's dismissal,

The restrained response of Nelson Mandela, the ANC president, indicates that moves towards constitutional negotiations will continue, but it is assumed that the government will have to pay a price for its subterfuge, Business Day, a financial newspaper, said: "President de Klerk, having lost the high ground which he held for so long, has no option but to rid himself of incompetent ministers who have made his house the secure place for the securocrats . . . if he is to fight back, he must begin by restoring government's integrity,"

can save us

Â\$ HE GOVERNMENT suddeniy finds -
il ' I litself facing a profound crisis of

eredibility, but this should not be a
source of pleasure â\200\224 even to iis

- opponents. The stark reality is that if Pres-
+ident de Klerk cannot rescue his adminis-
'trationâ\200\231s tainied image, there is little
"chance of trust being re-established be-

tween this countryâ\200\231s key pntative negotia-
tors, and therefore little chance of real ne-
gotiations getting under way in the fore-

- seeable fubure

At the same time, the prospects of inter-

" pational reacceptance of, and reinvesiment
'in, South Africa fade frighteningly quickly.
' US Assistant Secretary of State for African

Affairs Herman Cohen, who lasi week
stuck his neck out very far in endorsing the

- Governmentâ\200\231s integrity and even-handed-
. ness, must be horrified by the performance

of his informants in Pretoria
A big erack has appeared in our window

. of opporfunity: we are all of us paying for
the Governmentâ\200\231s sins.

Only FW

The uncontested proof that State funds were channelled via the SA Police to In-

- katha and its labour adjunct, Uwusa, is
- deeply damaging and, as a corollary,

: strengthens the ANC's case in demanding.

- an interim government to ensure neutrali-
- ty during transition. Even worse, though,
- " are the allegations of SADF involvement in
- . heinous train massacres. If that charge
- ' sticks, there would be no hyperbole in-

: involved in saying: that Mr de Klerk might .

: never regain his former stature.

All who support a negotiated settlement

! as the only desirable solution to our prob-

" . lems should now look to Mr de Klerk to

' take decisive and immediate action. The

[P

ANC has been remarkably measured in its response to the revelations and it does not

want, according to its leaders, to threaten

either the anti-violence initiatives or the

. negotiating process. But there is no ques-

tion of its getting on with real bargaining

. until the current crisis is resolved to its

" satisfaction. it is :

- Mr de Klerk faces some very tough _ :.

choices. He must surely roll, but he has some latitude in how he goes about the ex-

' ercise. The summary sacking of Minister Vlok (with General Malan and even Pik

P L P

' Botha not far behind?) would probably do

. if, but this is most unlikely. He could shift

+ Mr Vlok to another portfolio, and that -

- might help. But at the very least, he should

institute an urgent and unequivocal commission of inquiry into all the allegations and more will certainly be forthcoming

< and he should bind himself to acting upon its recommendations. Chief Justice . i Corbett, or someone like him, would be 2

- good choice for dealing with a matter of

. this magnitude.

" Mr de Klerk has to reassure his own people as well as the international community. It-is his most urgent task, and he must succeed in it. Because Iif he fails, we as a people will have failed to grasp a historie opportunity for redemption.

WASEINGTON -~ The Bush
administration has been em-
barrassed by disclosures that

the South African Govern-
- ment has secretly funded Inkatha, although its first official response was limited to a terse statement today calling on the Government to take action against those responsible. f

What has caused the embarrassment is the fact that

the disclosure has come so soon after President Bush's lifting of sanctions and after

public assurances from the

White House and the State Department that they were convinced the South African Government was committed to negotiations in good faith.

The Inkatha funding disclosure has been enlivened with allegations of complicity in massacres and other acts of violence by members of the security forces.

Mr Botha admitted at the weekend that he had authorised the passing on of

R250 000 of State money to

CAPE TOWN â\200\224- Both overt and

covert assistance had been sup- .

plied on request to & wide spec-

in South Africa in an attempt to
combat sanctions effectively,
Law and Order Minister

Adriaan Viok said yesterday.

Mass gatherings by an organ-

have made a significant contri- -

bution to the fight against sanc-
tions, he said. -

However, he had never dis-
cussed financial support for In-
katha with Chief Buthelezi.

The funds Inkatha had re-

ceived had not come from the
Special Account of the South
African Police, but from funds
earmarked by the Government
for combating sanctions.

The financial support to In-
katha for gatherings in Novem-
ber 1989 and March 1990 had re-

Row casts
a cloud
over Games

By Edward Owen

MADRID -~ The scandal con-
cerning Inkatha's finances yes-
terday clouded Nelson Mande-

" la's official visit to Spain and
threatens to keep South Africa
out of the Olympics.

. The decision by Mr Viok to
resign will be 2 welcome one,
but not enough, Mr Mandela
said in Madrid before flying to
Barcelona to meet Internation-
al Olympic Committee officials
at the site of the 1992 Games.

The Spanish government
made it clear yesterday after
meetings with Mr Mandela that
it will recommend to the Euro-
pean Community that no sanc-
tions be lifted until South Africa
has a democratic system.

During talks with Prime Min-
ister Felipe Gonzalez and For-
eign Minister Francisco Fer-
nandez Qrdonez, Mr Mandela
stressed that the total eradica-
tion of apartheid still hangs in
the balance, especially after the
Inkatha finance scandal.

Mr Mandela told Mr Qrdonez
that if one man's voice was
not permitted at the next elec-
tions, gains by conservative ele-
ments could endanger the pro-

cess of change, o

Mr Ordonez said that as well
as financially supporting the
ANC office in Madrid, the Span-
ish government has so far given
600 million pesetas (about
R15,8 million) in aid of the ANC
for health and education pro-
grammes.

In Barcelona, Mr Mandela
met representatives of the IOC,
headed by vice-president Judge
Eeba Mbaye of Senegal

The meeting was crucial for South Africa since the IOC is due to send out its official invitations to participating countries tomorrow, July 25, exactly a year before the Games open in Barcelona

Mr Mandelz, especially in the wake of the Inkatha scandal, opposes South African participation. et

7g}ovt must give way to

interim govt â\200\224

Citizen Reporter

THE only way to save the negotiations Process would be for the government to declare its preparedness immediately to give way to an interim government, a spokesman for the Congress of South African Trade Unions (COSATU) said yesterday. :

â\200\234Tr 15 not enough that Ministers Viok, Malan and Botha resign because the entire government is deeply implicated in this scandalâ\200\235 the spokesman said.

He was referring to revelations that the government had secretly funded two Inkatha Freedom Party rallies, something

" which both Mr Viok and Mr Botha had admitted.

- He said the only way in

which to save the negotiations process would be for an interim government to be formed which was broadly acceptable to the

people of South Africa and which could preside over the transition process.

â\200\234The government has clearly disqualified itself from this role,â\200\235 he said.

Cosatu called for the formation of an urgent judicial commission of inquiry, broadly acceptable in its functioning and composition to investigate all aspects relating to government involvement

m violence and destabilisation -of ant-apartheid organisations.

â\200\234Furthermore we demand the public and verified disbanding of all special counter-insurgency units and death squads of the SAP and SADF.

â\200\234Those engaged in these criminal activities, right up to the level of Ministers, and if necessary the State President, should be prosecuted, the spokesman said.

Cosatu also appealed

Cosatu

urgently to the international community to step up pressure on the South African Government. The entire peace process and negotiations were now in jeopardy unless the government could be forced to abandon its present course.

At this fourth National Congress, starting on Thursday, Cosatu would determine whether it should continue to support negotiations with the government in the light of the government's continued double agenda of talking while undermin-

ing and terrorising Cosatu members, he said. The spokesman at-

tacked the Inkatha-affiliated trade union, the United Workers Union of South Africa (UWUSA) for disrupting the National Union of Metalworkers strike ballot last week and said Uwusa members had assaulted people found to be carrying ballot posters.

THE CITIZEN
[COMMENT
Move quickly

THE cyisis over Inkathagate deepens. .
. The African National Congress, seizing the opportunity which has been offered to it on the proverbial plate, is trying to drum up support abroad for the reimposition of sanctions.

At home it is not satisfied with the heads only of Minister of Law and Order, Mr Adriaan Vlok, and Defence Minister, Gen Magnus Malan, but wants a judicial inquiry and an interim government.

The Conservative Party wants the government to resign, and 4 general election to be called.

Chief Mangosuthu Buthelezi, the Inkatha Freedom Party leader, adopts an â\200\234I didnâ\200\231t knowâ\204¢ stance, though it is difficult to see how amounts like R250 000 or R1,5 million could go unnoticed.

What the government must surely know is that .
Inkathagate has damaged its credibility not just in South Africa but abroad.

One would have thought it would have learnt the lesson of Info not to use secret funds. '

It is thus disconcerting to know that in its anti-sanctions campaign, the Department of Foreign Affairs not only assisted Inkatha to the

tune of R250 000 from secret funds, but that it assisted the private sector, academics and several organisations in their efforts to fight sanctions, according to Minister Pik Botha.

Now that the lid has been lifted on the Inkatha and United Workersâ\200\235 Union of South Africa payments, we can expect the newspapers involved in the exposé to publish details of other payments (0 organisations besides Inkatha.

..."... _â\200\234_ 2

Somebody has stolen confidential -files, or gained access to them, and has fed the information to these papers.

It is clearly going to be 2 replay of Info_

However, much more is at stake this time.

State President De Klerk has achieved a great rapport with world leaders, who respect him as a man of honour and integrity. Â

Inkathagate, unless he can act decisively and convincingly, will tarnish that image.

We doubt that it is in the interests of the ANC that a President De Klerk is weakened by Inkathagate. -

The ANC needs him as much as the government needs ANC president Nelson Mandela, if the negotiation of a new South Africa is to proceed. i s m e e

The head of Mr Vlok is being demanded in the Inkathagate affair, but we cannot see how Mr Vlok could disburse all that money without the knowledge of other Ministers: the same thing applies to Mr Pik Botha.

The temptation to sacrifice this Minister or that Minister will not solve anything as Muldergate showed.

Nor will it satisfy those critics of the government who will read more sinister implications into the payments than merely helping to bolster the anti-sanctions campaign.

- They will want blood and they will want the
~~

blood of Mr De Klerk as well.

There are three reasons why urgent action must be taken to end the crisis: '

The first is that Mr De Klerk's credibility is more important than the money expended. He must convincingly demonstrate that he is not financially backing Chief Buthelezi, or arming Inkatha, or playing Inkatha off against the ANC. : 231

Secondly, it is necessary to clear up the scandal satisfactorily if the negotiation of a settlement is to get off the ground. -

Thirdly, world leaders must be shown that Mr De Klerk remains a man they can respect and with whom they can do business, otherwise all the great successes Mr De Klerk has had abroad will be destroyed. 4

The disclosure of all government findings of organisations, as well as a totally independent probe into allegations of SADF involvement in the train massacres, is absolutely essential.

And for Heaven's sake, whatever happens now, let the government abandon its secret

funds and play open cards with the nation

Furthermore, R1,8 bil-

there is reason to believe
that the source has committed

As loyal patriotic South

If a newspaper in Britain

OW onÂ¢ suspects that South

Alrican President F W de Klerk

wants an apartheid-free South

Africa, though riven with bloody disputes among Blacke funded by the Whites. He implicitly acknowledged what has been confirmed by his Law and Order Minister Adriaan Viok that â\200\234police had secretly paid for two Inkatha rallies in 1988 and 1990", The simple equation is that the police work under Viok and Viok works under de Klerk, thus the government is undeniably responsible for fanning the fire of discord among the Blacks, resulting in the death of some 5,000 people.

The disclosure that a government agency paid at least 250,000 rands - about Â\$90,000 -- is as old as all other colonial era practices: It's simply the rejuvenation of the dirty divide-and-rule policy, Inkatha Freedom Party chief Mangosuthu Buthelezi's denial notwithstanding, the â\200\234cevastatingâ\200\235 underhand-dealing is probably going to change the whole situation thus far considered encouraging.

According to the Weekly Mail expose of the deal, the payments were made to counter the euphoria that resulted with the release of Nelson Mandela from a record 27-year imprisonment, Buthelezi may say whatever he likes, but he was worried for being thrown to the winds, while the de Klerk government feared the â\200\234radicalâ\200\235 the African National Congress claiming power if democracy was really the aim of de Klerk for South Africa. And both of them found an eager accomplice in the other, The result is another defeat for South Africa's freedom,

1Evidently the de Klerk government played its game shrewdly. The disclosure came at a time when the Pretoria regime has already won its greatest battle in the West. The powers that were always reluctant to impose effective sanctions against South Africa were already rushing to lift them. The US has already withdrawn them and many others are in line to do the same. Pretoria knows that the covenant with Buthelezi cannot be regarded in the West as another manifestation of apartheid; it will be rather taken as evidence of White and Black cooperation and therefore Pretoria

Pretoria coup

takes no threat of reimposition of sanctions.

What goes on in full accord with the past century's inhuman Western practice is that the de Klerk regime succeeded in having two major Black forces collided headlong so as to delay the transfer of power to South Africa's rightful owners. From the viewpoint of modern politics, the deal with Buthelezi is a civilised act so long as it helps project the South African Blacks as uncivilised and as beasts going after one another's throat. The ongoing blood feud between the Inkatha and ANC followers will thus be construed as "law and order problem" making the situation unsuitable for granting universal franchise.

Mandela has reacted sharply over the nasty deal, charging the government with criminal operations. he

-said it was doubtful for the ANC to

avoid a complete breakdown in relations" with the regime. Moreover, even if he decides to break talks with de Klerk and resumes armed struggle, freedom for South Africa is admittedly more distant now than it appeared during the past couple of years. This was the whole game and the de Klerk regime must be elated, for its mission is accomplished perfectly.

Nevertheless, the Buthelezi coup

clearly shows to all Africans that South African independence struggle could not have received this rebuff if tribalism collectively and personal ambitions individually were not allowed to have been masterly made use of by Pretoria. As a politician Buthelezi's

worries were certainly not unfounded.
Yet he neglected the fact that in a free
country where every individual citizen
enjoyed the right to vote, he could de-
feat Mandela and his ANC through the
democratic process. He agreed to He
rt the receiving end and this is noth-
ing short of an Inkatha defss!.
Mandela; too, has to amend his
posture and policies. Despite the inter-
national stature he has gained, he
could not place above tribal considera-
tions. He could "and should" endea-
voured to be a leader of all South Afri-
cans once it became clear to him and
others that tribalism was being used
as a weapon against his compatriots,

the Rivonia trial. Macozoma's attempt to dis-
credit this evidence is simply a rehash of
SACP propaganda at the time preceeding the
Rivonia trial when an unsuccessful SACP at-
tempt was made alleging that various docu-
ments were faked by the State, etc. ..
However â\200\224 in order to dispel such charges
by the ANC/SACP â\200\224 each accused (Mandela
being No. 1 accused) who went into the wit-
ness box was invited to point to any document
or exhibit submitted by the State which was
contended to be faked, fabricated or falsified,
which they were all unable to doâ\200\224and all ac-
