Dear Dr Bakari

RE: SUMMARY DISMISSAL OF STUDENT EDWARD MATHE

We have received a copy of a letter from the Principal of the Health Assistants' School in Iringa. On our part, we endorse the decision. As we have said before, the ANC has policies of no compromise on those who misbehave and thus tarnishing the name of our Organisation.

Together with the Principal of Iringa, we have tried to caution Edward and in fact gave him a second chance following some other acts of indiscipline. Once more he has acted contrary to these advices.

Our Movement, the ANC, and in this instance, our department, is devising methods to ensure that we have less and less of indisciplined students taking up the sponsorship. Of course you will always get those who will escape this selection procedure and our continuous assessment should help to rectify any mistake and guide our students accordingly.

We thank you for your patience. Please convey our thanks and apologies to the Principal of the Iringa Health Assistants' School.

Your faithfully
