

ANC Mohamed Tikly

Dear friend,

During the project negotiations between ISF and ANC held in Dakawa 22 / 10 / 1990 it was agreed that an evaluation of the Vuiyisile Mini Furniture factory project should take place in the earliest possible opportunity in 1991.

Isf has supported the factory five years starting from 1986. In order to plan our future support to the factory if its needed we need to have the evaluation report on our use before August 1991. If possible we would like to know the terms of reference for the evaluation in May to facilitate recruiting the experts for our participation in the evaluation.

If its suitable for ANC we suggest that the evaluation could take place in late June early July this year.

Best regards,

Helsinki 28 of March

The items missing from the Taksvärkki container have been found in KIEL they will be shipped from Hamburg on 1.4.1991 and are supposed to arrive in DAR 26.4.1991. If some new papers are needed, like new certification of the donation or new bill of ladings, we try to send them through the Finnish Embassy.

Best regars, Helena
