Dear Brother,

We have received a report from Comrade Lionel Ngakane in which he states, amongst other things, that he "had a conversation with a representative of the U.A. R\* studios and it is possible that they could take Ngcati (Mckay) on for further experience and undertake all expenses. Nyati seems very enthusiastic about thisÂ« Could you give me your reaction to this"o

Please give us your guidance on thisÂ®

Dear Ruth,

Please find enclosed a copy of a report from the Youth Section on discussions they had with the delegation from the World Federation of Democratic Youth recently.

The report speaks for itself.

However, we would like to draw the special attention of the National Working Committee to the section of the report dealing with a projected Youth conference to be held in Malagasy in June. This should provide us an important platform as attention would be particularly focussed on Apartheid. This occasion should also help us consolidate our relations with the progressive forces on the island.

We propose that early attention should be given to the preparations for that conference and decisions on such questions as names of our delegation made and communicated to Comrade Joe Hhlanhla so that air tickets can be obtained timeously.
