Attention : Frene Ginwala

Dear Frene Fax number: 330 7234

The Land and Agricultural Policy Centre is establishing a national land reform research programme which aims to provide an information base to serve the needs of a new government in developing its land reform policy.

This research takes forward the policy work done over the last few years, including the World Bank's rural restructuring programme. It is intended to concentrate on issues that that require further research, and particularly aims to ensure that communities are thoroughly consulted in the process of land policy formulation. In order to do this the programme is seeking to establish research teams at national level that will be able to undertake this work for their particular region.

We would like to invite you or a representative from your organisation to attend a meeting
g

. where this programme will be discussed

The meeting will take place on 28th. February 1994 from 9.30am to 3.30pm at the University of Pretoria. Department of Agriculture. We will forward details of the venue once it has been confirmed. In addition, an outline of the proposed programme will also be
e

sent to you before the meeting.

The LAPC has attempted to invite all organisations and key individuals whom we know to be interested in land policy issues. Should you be in contact with people who would be interested to attend this meeting, please do not hesitate to pass this invitation on.

Hoping you can attend.

Yours incerely
