Vt

The harassment of our armed members by governments in Swaziland and Botswana proves the addiction to capitalism by our previous allies. They are too cowardly to risk the loss of capital and list resources from the Pretoria Regime. To please "their masters' voice", they spurn the revolutionary cause of the ANC.

Whites should take note that they are still paying lip service to the Oppressive regime despite some liberal factions who claim that they support our ideals. They must take note of what is happening in Zimbabwe. The hatred of erstwhile freedom fighters cannot be eradicated in one day. However, they are useful in many ways.

We are no longer ashamed to hail the role of the Communist Party in our cause. They were responsible for the sound ideological base of our movement. Their unfailing support and enthusiasm enabled us to formulate our Freedom Charter and to establish our joint military wing Umkhonto we Sizwe. Who played a major role in our formation? J. B. Marks, Moses Kotane, Govan Mbeki and others.

â\200\234â\200\235

In this year of Unity, 1983, the ANC

is to intensify the armed struggle on

all fronts. No longer can the ANC's military wing Umkhonto is to sit safely guard civilians against our armed struggle. Military action against the enemy will inevitably take the lives of innocent civilians. 'Even these sacrifices will not be in vain.

1

We will also act against the collaborators with the enemy, inside South Africa and in the Frontline States where even brave fighters have been harassed.

We salute our gallant cadres of MK and pay tribute to their glorious achievements. We express our leadership of the successes must not be of military successes look at the dedicated 'churches and other humanitarian organisations; Let us rededicate ourselves to the struggle against racism and Capitalism.
