Dear Sir

**Re: Workshop on Metropolitan and Local Government Issues in
Zimbabwe and South Africa (~~4-8 October, 1988~~)** 28 - NOV
to 1st Dec.

I wish to invite you to participate in the above Workshop in Harare. Please find attached background details and Programme for the Workshop under the Department of Rural and Urban Planning.

In addition to participants from the University, Ministry of Local Government, Rural and Urban Development and the Zimbabwe Institute of Development Studies (ZIDS), approximately twenty five participants from South Africa will attend. They will include officials from the Urban Foundation and a regional selection of independent researchers, and urban community development workers. Your participation is therefore considered important both for the Workshop and the ANC.

The University accordingly wishes to cover the costs of participation for ten members i.e. return air-fares (Lusaka-Harare) and accommodation. However, should it be possible for you to cover transport costs of five additional persons, the University would be able to meet local accommodation expenses.

I hope it would be possible for you to accept this invitation. Please telex your response as soon as possible (Telex 4-152 UNIV ZW).

Yours sincerely

J. Joseph

Dear Dr Sutcliffe

Workshop: Metropolitan and Local Government Issues in Zimbabwe and South Africa 1 - 4 September 1988 28 Nov. - 1 Dec.

Our preliminary discussions on the proposal to hold a workshop in Harare refers.

On behalf of the University of Zimbabwe I would like to formally invite you to act as the South African Co-ordinator of this workshop. I will be the overall co-ordinator of the workshop.

The workshop is to be held 1 - 4 September 1988 at the University of Zimbabwe. Enclosed please find a preliminary programme. As mentioned previously the proposed workshop aims to:

- bring together independent planning researchers and organisations from South Africa and policy-makers, planners and researchers from Zimbabwe with a view to compare and exchange experiences.
- provide a forum around a number of key questions on the nature of local government, planning and policies within each country.
- derive conclusions/insights based on both countries experiences in dealing with the above issues and to suggest possible ways in which collective efforts may be undertaken towards democratic planning practices in both countries.

I thought it might be useful to clarify what would be expected from you.

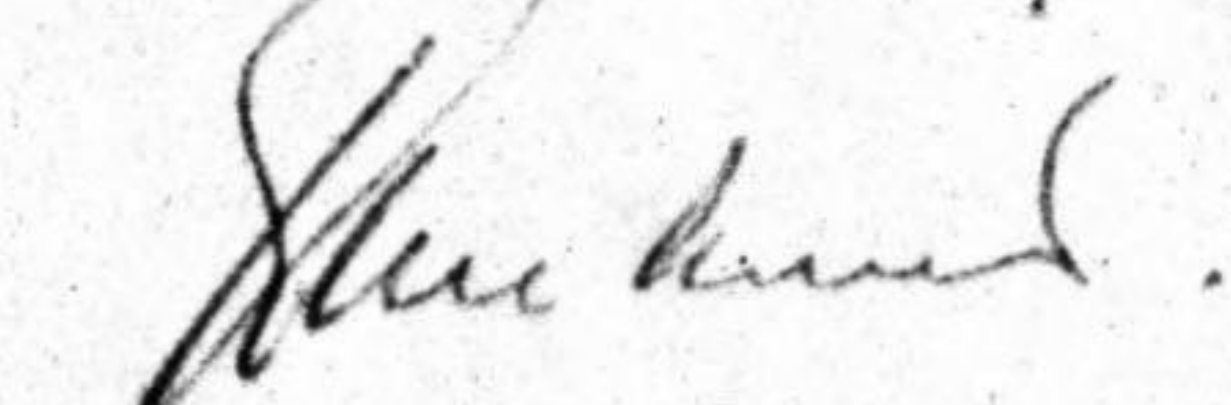

1. I'd like you to get together a group of South African researchers, academics and policy-makers who have been working in the field of metropolitan and local government issues and who could contribute to a discussion on the implications of their work to the development of an appropriate policy within our two countries. Out of this group could you arrange papers which would cover the areas outlined in the preliminary programme.

2. As I have access to limited funds here, could you please arrange for at least the travel costs of these delegates to be paid. You did mention the possibility of the Urban Foundation providing these expenses. Could you please follow this up?
3. Given the present political realities we believe the workshop, should not be publicised. We regard it as a forum for exchange of ideas between South African researchers and planners in Zimbabwe and South Africa.
4. With respect to visas, would you mind sending me a list of possible delegates (together with relevant details) as soon as possible. We would need to 'clear' everyone with my government before we can arrange visas.

Clearly these are the more immediate tasks: others will probably emerge as we get nearer to the workshop.

I hope you will accept this invitation and I look forward to hearing from you.

Yours sincerely

DR K H WEKWETE

WORKSHOP TITLE: Metropolitan and Local Government Issues in Zimbabwe and South Africa

ORGANISER: University of Zimbabwe

PROPOSED DATE: 4 - 8 October

TOTAL NO. 50 - 60

Introduction

The proposed workshop is an attempt to exchange information and experience on local government and planning in Zimbabwe and South Africa. The main purpose of the Workshop would be to share experience about problems and prospects associated with planning a transitional context. A post-independent Zimbabwe has had to face a variety of development issues in order to accommodate the various demands placed on it. Not least of these issues has been the re-organisation of the colonial bureaucracy and reoriented planning to address the urgent new national and regional priorities facing Zimbabwe: the amalgamation of rural and district councils as part of the re-organisation of local government, redressing regional income imbalances, desegregating the cities and the one city concept are only some of these issues. The question of local government and metropolitan management have loomed large on the State's agenda.

IN SOUTH AFRICA on the other hand, similar issues are being addressed. While the State's agenda is clearly to reform apartheid, there are independent progressive groups and individuals who have aligned themselves with the oppressed. They have moreover begun to identify ways in which alternative democratic planning forms may begin to operate, albeit on a relatively small scale. Only in a post-liberation context would the full power of such planning forms be realised.

At the same time, within South Africa other groups purport to be developing alternative programmes to Apartheid planning. One such group is the Urban Foundation (and the private sector council on urbanisation) which have begun a variety of large scale programmes which have as their aims the development of a range of policy proposals for a medium-term 'reformist' period. Clearly, the research undertaken by the contract staff of the Foundation including prominent University Staff, comprises the most comprehensive undertaking of its kind to date within South Africa.

Aims

The proposed workshop aims to:

- bring together independent planning researchers and organisations from South Africa and policy-makers, planners and researchers from Zimbabwe with a view to compare and exchange experiences.
- provide a forum around a number of key questions on the nature of local government, planning and policies within each country.
- Derive conclusions/insights based on both countries experience in dealing with the above issues and to suggest possible ways in which collective efforts may be undertaken towards democratic planning practices in both countries.
- Formulate programme and project activity based on workshops.

Participation

It is proposed that approximately fifty people participate with twenty-five from each country and ten from the African National Congress of South Africa. The participants from South Africa would be drawn from all regions of the country and would include researchers, activists who are involved in local government and community issues as well as private practitioners. Zimbabwean participants would include researchers and planners in both local government as well as policy-makers in central government.
