re: printing and publishing special edition of SOMAFECO-Dakawa Progress Report.

Comrade Tony Seedat,

The official opening of SOMAFECO is planned to take place in August this year. To coincide with the opening we are planning to publish a special edition of the SOMAFECO-Dakawa Progress Report.

This is to cover progress from the inception of both projects to date. It will contain up-to-date information on all sections of these projects and the plans for the future.

As the edition will be distributed at the time of the opening it needs to be of a high standard, not only in contents i.e. text, data, photos, graphics, but also in printing quality.

We request that you identify and commission printers and publishers for the special edition.

The project specifications which follow are our guidelines for the special edition. Your negotiations with a printer may involve minor changes to facilitate sponsorship. We are prepared for this but please keep us informed of all progress and proposed changes. This information has a direct influence on our rough layout and planning here in Mazimbu.

Another important factor to consider is the time left before August. Your negotiations will certainly set specific deadlines for layout, editing, final layout, printing, binding, etc. Please keep us informed so that we are ready with the material at the right time. We envisage completion of printing at the end of June.

We also need to send the rough layout and photos with personell from Mazimbu who will coordinate the final editing, layout and printing.
