Apart frm sharring with the uer community this greatest of experiences , I would alspl like the community to look at the possibilities of revitalising 'uor cultural life here, which then means the election, on a latter date, of a Zonal Cultural Committee, an Entertainment Committee and the strngthe lstrengthening of our Sports Committee.

t feel it is of utmost importance that all the structures must be full participants in this venture if we are to transform the ideas put forth at the obeve mentioned conference a reality.And this is also in preperation for the formation of a Regional Cultural Committee.

' Dispite numerous attempts to alert these workers, of their 'lrregular attendance at work, the comrades continuouslyetunded a deaf ear. They, never with pride can boast of the conttie bution they made in the construction.

When at work, these comrades will,

This is to inform you that for the past ten days we have been attempting to recover construction property that was in the above mentioned comrade's possession. The items are ; a pair of Belgian made brown security boots and a pair of overalls. However, we have failed to retrieve these items.

My approaches to the comrade concerning the issue were always rebuffed in a repugnant manner.

It is at this juncture that I request your office to see to it that the above items are duly returned. If the comrade intends returning to the construction, as he says, my stand still remains the same, i.e. that the property be returned immediately. If ever he returns to the construction then he will be re-issued with a uniform.

Jackie,

Please, if it is possible, we would be very happy to get watches for our students, so as to make them be in time in the morning without excuses.

There are 8 students and then the supervisor Jackson.

We are starting design classes on Monday alt. Tuesday coming week, and we hope by then to have two more male students. Lux promised to talk to you about that.

That means 6 students are designing, mainly under my supervision, and when the table is ready Jackson has two with whom he is practising and teaching printing, by producing the designs from Sweden.

What's holding us up is the lack of materials from my two boxes not yet arrived and the "pipe-joints" (adjustments) for the leveling of the table.

Would it be possible for me to go to Morogoro tomorrow morning and back in the afternoon?

Dear Cde. Jackie,

RE: CANDIDATES FOR THE TEXTILE WORKSHOP.

Vusi Khumalo, Never Khalima and T.N.T.

This is meant to formalise the discussion you had with Cde. Jackson and Malin on the above topic. Two of the comrades were interviewed when Comrade E. Masekela was here, on the basis of the interest they had shown in either textile printing or art in general.

Cde. Vusi Khumalo, who has had some experience in art and who had worked in a commercial textile printing factory in South Africa, was discouraged by the non-existence of an organised art workshop on his arrival in the region but had always been of assistance whenever art work was needed for our political occasions.

Cde. Nener Khalima says he had approached you about joining the textile w/shop but you advised him against. The third was sent to me by the Scholarship Committee since he wants to study Fine Arts at degree level. We felt the workshop would provide him with the opportunity to collect some experience and a portfolio as this will surely be demanded for a fine arts training. In fact, Fine Arts falls within the broader scope of this training.

We would also like to reiterate that the comrades came to the w/shop on their own free will and that nobody has been coaxed to join the course.

Dear Cde. Co-ordinator,

REETEXTILE TRAINEES FOR SWEDEN.

The Department of Arts And Culture has identified the following trainees to undertake STAGE 3 of the Textile Printing course which will be held in Sweden over a period of six months starting from October.They have proved to be the best in the group which is currently undergoing training.

amongst them id a. Tanzanian national who is married to a comrade,a fact I had felt would be a problem, but on discussion with the department we were unanimous that if she had consistently worked at our day care for more than three years and is proving to be one of the most serious and ovative amongst the trainees, then she becomes a natural candidate deserving of all accorded to our comrades. .

The trainees are; Odes Thuli Khumalo

Mariana Piney.

Never Khalima.

We further request your assistance in making it possible for them to acquire travelling documents which shall be needed before October.

Thanking you in advance!

Dear Cde. Jackie,

RE: PROVISION FOR TRAINEES.

Please assist the three comrades with permits and provision for two days since they will be leaving for Dar today to attend to traveling documents and applications. A

You are aware that the three; Never Khalima

Thuli Khumalo

Mariana Piney

are going to Sweden in October to undergo training in STAGE 3 of the textile printing project. Since their applications are already late, we felt that they go personally to our office in Dar so as to best facilitate the process.

Thanking you in advance!
