Dear harry,

Our visit 30 the US marked a aignificant step forward in our campaign to increase international involvement in the struggle againat apartheid and for a united, non~racial and demacratic South Africa. Among other things, it enabled us to further strengthen cur ties with antinapartheid forces and friends. It gave us occasion to reach out to several new and significant constituencies. We also cherished the opportunity to address ourselves to a aariety of concerns which seemed to stand between antl~aparthehd gentiment and naccenary action in the us.

On behalf of our delegation, and in my own personal capacity, I would like to thank you particularly for your great contribution to the roaring succesa 9f our visit, and especially its West Coast portion. He immensely appreciated year overall efforts to give us access to tha artistic community in Hcllywood and Beverly Hills. I can never forget the cool aloquence with which you introduced me at many important meetings. Thank you, Harry.

I would have liked to have written to you much earlier, but a succession of urgent events intervened, immediately after our visit, to make that impossible. I trust you will understand the reason for the delay.

Wishing yhu the best cf health and all success.

Yours very sincerely

Oliver'
R.
President,

Tambo
ARC.

P.S. Warmest regards to the Family
