Dear Mr. Tambo,

It is my hope that you shall derive something from that which is to follow, and there may be something of interest in it for you. I would like to ask a favor of you, if possible, I would like to obtain an autographed picture of yourself, with many thanks, god bless and best wishes. Oh by-the-way, I'm not asking that you should acknowledge, or even that you should agree with what is written here. I only wish to share with you that which I do in as much as you have shared that which you do with me, granted it's not a Keats or a Browning, and my only hope was a possible smile, or to provoke a thought, again many thanks.

#### PASSING OF INNOCENCE

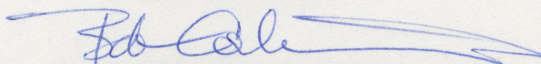

Alas we know what it's like,  
Death is the passing from the light,  
those innocent victim in their plight,  
now Death has turned in vengeful fright,  
upon the innocent now lost in flight.

Now taken from on high,  
innocent brethren in the sky,  
some have passed from lower plains,  
in the dirty streets of Soweto's slums,  
AT THE FLAMING RAGE OF BOTHA'S GUNS!

In the lands where Moses walked,  
and in the squares where Christ did talk,  
these that are the most holy lands,  
now they run red with the blood of man,  
and the children of Islam do pay with a heavy hand,  
in this cold and heartless land.

The blood of innocence is on their hands,  
these leaders who embrace the wars of man,  
they dine upon the souls of men,  
the sands are clotted red with blood,  
from whence is spawned the evil born of them,  
DEATH IS UPON THE EARTH OF MEN!

P.S.

Please forgive this typed written letter, but my personal handwriting is  
atrocious, as you can see by my signature, so it is my hope that you have found  
this to be easier to read, then if I had handwritten this letter to you, thank  
you for your kind understanding.
