Dear Ms. Gerlings,

Request for funds for 1993

Thank you for your fax of yesterday. I am faxing our funding proposal for 1993 to give you a general idea of the entire programme of activities we are engaged in this year.

As regards our request from the City of Rotterdam for 1993, we would like to request:-

1. continuation of support for the scholarsat

Phambili R30, 000-00

2. an additional allocation for 5 students at the

Kangwane Work Study Project R20,000-00

3. Yeoville Educational Polyclinic R 5,000-00

TOTAL R55,000-00

The Kangwane Work Study Project is based on the principle of education with production and provides education and skills training for a two year period, after which the students can either go into tertiary education or seek employment through the skills they have acquired. The Kangwane Project was conceived with the aim of addressing the problem of the marginalised youth, who due to Bantu Education could not receive a proper secondary education. We hope that the City of Rotterdam will consider supporting this worthy Project, as well as the Yeoville Educational Polyclinic, which provides invaluable counselling and remedial support to returnee and other deprived children. Please refer to the Proposal for more information on the Educational Polyclinic.

Our accounts for 1992 will be audited next week and we will send those to you together with our narrative report for 1992 next month.

With sincere thanks to the City of Rotterdam for its assistance and support.

Yours sincerely,

Mohammed Tik y
