W

233m EVE, FLORENCE, GMIE

minutes were read but as they were not typed, they were not easy to follow.

They were passed as a correct record.

It was stated in the minutes that a letter was sent to Australia clarifying the situation on Helen Joseph.

2. Ray wrote saying that she was not in a position to write an article on Women's Organisations at home as promised as she was rather busy.

Blanche had asked what we expected her to write on, on the March 8th issue in reply she was sent 4 previous copies to study and prepare an article. She sent a copy she delivered on March 8th and this was published in the 'bw'. h

As the LAPU article was misplaced, it was decided that we would leave it for the next issue. Julius' article was also misplaced and it was suggested that we ask him to send us the copy sent to him. At the end this copy was made from an old one and was published.

It was regretted that the Editor forgot to see the SWIPO Organisation on the matter which was supposed to be published on their activities.

It was agreed by the house that instead of issuing March 8th issue, we should publish women messages of solidarity with a short introduction to these activities.

It was said in the meeting that our Editor Eve Hall will be leaving at the beginning of July so we should try to edit our work as much as possible.

H

The editorial sent should not be used on account of the fact that March 8th issue was changed to Just a report on activities of the day. : it

The next issue of VOW was to be out about 131; July and it should be mainly on A.A.W.C. with additional articles dedicated to the Children's Day.

The meeting closed at about 5.30.p.m.
