Dear Comrade.

We are in the process of preparing a slide-tape presentation on the Morogoro School Project-SOMAFCO.

In this presentation we anticipate using material previously put out by D & A, such as slides from the SOWETO set, and from the SECHABA. What we do not have are slides showing the school from the earliest stages to its present state.

Could you please send us representative photos of the development of the school. We will make slides from them. If it is possible and not too much trouble, please mail them to us as soon as possible.

Do we acknowledge D&A or Eli or ANC for the photos? How is the film on the Freedom Charter coming along? We look forward to seeing it.

Thank you for your help.

Amandla'

Yours in the struggle,

Don Mooljee.
