(Gate).

We were all very sorry to lose Mr. H. I. Colquhoun, Mr. W. S. Hanson and Mr. D. M. 1. Paterson at the end of the Advent Term; Mr. Colquhoun to Hilton, and Mr. Hanson and Mr. Paterson to England via Southern Rhodesia. We wish them every success in the future.

We welcome Mr. D. J. Marais, Mr. K, Abrahams and Mr, R. G. Chapman to St. Johnâ\200\231s and hope they enjoy their stays here. Mr. Marais teaches Afrikaans, Mr. Abrahamgs Latin and History, and Mr. Chapman Chemistry.

On Friday, 10th March, the School attended an afternoon performance at the Johannesburg Planetarium, and apart from the resultant stiff necks, the visit was generally enjoyed.

We were lucky to have a visit from Mr. P. J. Carter and Yonty Solomon, two very promising young South African musicians, on Thursday, 6th April. The fact that their recital took place during an extended break probably added to its considerable success.

During the Advent Term 1960, Cadets was considerably enlivened by several strenuous doses on the newly completed Assault Course. In addition there were lectures on camouflage, field-craft and so on, which rendered Tuesday afternoon quite popular.

During the unfortunate absence owing to illness of Mme. Y. Teague at the beginning of the Lent Term, we were very kindly helped out by Mme. G. Mallows, to whom we are

## THE JOHARNNIAN

very grateful. Mr. F. du Toit and Mr. Cuckow are once again generously helping us out. Mr. du Toit in Afrikaans, and Mr. Cuckow in English.

Mr. Huggett took a well-earned long leave during the Lent Term, and Mr. Iverson is similarly absent this term.

On Monday, 29th March, the School attended an evening performance of "Behold the Man" at the Monte Carlo cinema.

Prof. N. Gourlay of Wits. University is taking two or three senior forms for mathematics, to try to gain some insight into the high percentage of first-year failures at the University.

Towards the end of last term we were visited by a party of Inspectors.

On the eve of Republic Day a special Mass was sung to mark the changed status of South Africa, and on Republic Day

itself there was no school.

## THE CHAPEL

HE Bishop of Pretoria, the Right Reverend Edward George

Knapp-Fisher, confirmed the following in the Chapel on 19th October, 1960:

W. V. Alexander, J. P. Andrew, R. J. H. Baillie, M. S. Bam, P. D. Barnes, A. S. Barrow, L. R. Bastable, B. A. Benson, D. F. Berry, C. J. P. Biden, J. E. Bird, B. P. Cairns, P. E. Comber, D. E. de Beer, H. J. de Graeff, R. C. de Kock, R. R. Dicke, J. L. S. Edwards, T. E. Everett, P. U. Fischer, G. G. French, K. J. Garratt, C. G. Garthwaite, W. S. Garvey, M. L. Goldsworthy, A. W. Gordon, S. C. Gosteli, M. R. Hague, D. M. Hamilton, B. B. Henderson, A. T. Jackson, J. C. Jobling, C. Joiner, M. A. Kay, J. P. C. Laband, R. C. Lurie, N. H. McClure, K. I. McGillivray, M. G. McGown, N. G. Middleton, P. N. A. Morelli, R. J. R. Muller, W. M. Munro, R. G. Murray, P. Nagel, M. E. Nellist, G. J. K. Nettleton, D. N. Parks, R. A. Phillips, P. C. Pringle, M. R. Richardson, J. C. Runciman, R. T. Schaerer, R. H. Southall, P. G. Symons, P. N. Tayler, G. D. Telford, R. J. Thomas, J. P. A. Walters, J. J. Wapenaar, D. S. Wilder, D. H. M. Wilkingon, G. C. Wyborn.

The Right Reverend A. H. Cullen confirmed the following at St. Francis Church, Parkview, on 7th November, 1960: M. S. Anderson, D. J. C. W. Breakspear, R. J. Koch, A. G. Thurman.

During the Advent Term Fr. J. Graham, C.R., Fr. J. Tibbs and Fr. A. Hoey, C.R., preached to the College during Solemn Evensong. Fr. I. Macintosh (O.J.) was the only visiting preacher at Solemn Evensong during the Lent Term. To these we are very grateful indeed for sparing this time to address us.

Fr. P. A. Stubbs, C.R., kindly consented to speak to the College at Morning Prayers on Tuesdays in Lent. He also

preached to the College on Good Friday.

A High Mass was celebrated in the Chapel on Easter

Sunday.

### CAROL SERVICES

(Contributed by a visitor)

OT since the end of the sixteenth century have Church music enthusiasts been so privileged, for we are living in the midst of a new renaissance of the art. Standards of taste and performance are soaring, and not only is the tradition of the sixteenth century rediscovered, but contemporary composers of merit are devoting themselves to writing new music for the Church and to giving their full support to the new movement,

Men of the stature of Vaughan Williams, Herbert Howells, John Ireland, Martin Shaw and Charles Wood have given us fine contemporary anthems, while in all the cathedrals and major churches Byrd, Morley, Tallis and Gibbons are accorded the place that is their due. Little wonder that Anglican Church music leads the world.

But all this would be impossible without the basic training given in taste and technique by good boysâ\200\231 schools. Here St. Johnâ\200\231s plays an important part in preparing boys to appreciate, and to aim at achieving, the highest standards of church music, in keeping with the high heritage to which they are heirs. What is more, the general public is beginning to appreciate that contemporary church music is very much alive, and that it has something definite to contribute to the age in which we live. By interesting parents, first through the annual carol services and then through the Chapel worship during the year St. Johnâ\200\231s is playing a major part in creating a church music-loving community.

December, 1960, saw St. Johnâ\200\231s Chapel well filled with an appreciative congregation, who clearly enjoyed the Carol Service to the full. May the Choir of St. Johnâ\200\231s go on from strength to strength. We expect great things of you.

### THE LIBRARY

HE Assistant Librarians for 1961 are A. H. Pettifor, H. A.

Bird, B. J. Dickson, W. I. M. Evans, A. C. Gordon-Brown, H.

G. Hardy, P. B. Hayse-Gregson, F. N. T. Matthews, A. P. Nel, M. C. Payne, G. D. Raffan, M. H. Sayers, A. M. L. Watt,

The volumes of the Garard Bequest, mentioned in our last issue, have been catalogued. This acquisition has given us a total of some 130 new titles, nearly half of them fiction of superior quality. About the same number of volumes has been stored away as spare copies of books we already had in the Library. Many of these are standard works or otherwise in great demand, and will be very useful when replacements are needed. Each of the House Libraries has also benefited to the extent of some twenty volumes.

### SPEECH DAY

SPEECH DAY was held on the afternoon of Friday, 9th Decem-

ber, 1960. Our guest speaker was Dr. E. G. Malherbe, Principal and Vice-Chancellor of the University of Natal. Fr. N. Jarvis-Palmer, in the absence of the Bishop, opened the proceedings with a prayer. The Chairman of the Council, Mr. H. Entwistle, then asked the company to rise for a minute in tribute to the memory of the Hon. Mr. Justice Ramsbottom, long a member of the Council. In his address Mr. Entwistle reviewed the natural slowing of the Appeal, and the latest building developments, mentioning the re-equipment of the Manual Training Shop, the proposed turfing of the â\200\234Aâ\200\235 cricket field and the recently unveiled portrait of the Rev. S. H. Clarke by Neville Lewis. He went on to express concern at the uncertainty about future South African Educational Policy, and commented on the special position of the Church Schools and on the role played by the South African Church Schoolsâ\200\231 Association.

The Headmaster began by commenting on the high standard maintained during the year, both academically and on the games field. He mentioned the inauguration of the â\200\234Starâ\200\235 scholarships and lamented the general corruption and commercialization of sport, saying that it should be regarded as part of oneâ\200\231s education. He went on to refer to Cadets and the high standard maintained in the I.C.S. Competition, before discussing the proposed establishment of Clayton House. He said that we were at the dawn of a new epoch. and that as a Church School with no political ties, â\200\234our practice must be founded on beliefâ\200\235.

Dr. Malherbe then presented the prizes.

Dr. Malherbe opened his speech by congratulating the prize winners, adding that it was an ordeal for him to speak. He said that as only 7 per cent of South Africaâ\200\231s school children attend private schools, they have a very important role to play in this, our pioneer country. He believed that there should be a marginal area which should be filled by the private schools. The fact that the Government controls the state schools means a disadvantageous uniformity and rigidity. A sausage-machine system will not work, because education is spiritual and organic, not mechanic. The private school is in an ideal position to combat this, since it has less chance of becoming static. Its functions are threefold: first, it must carry on culture, secondly it must provide for growth beyond that of the state type. He said that there are two basic kinds of leader, the priest, who conserves, and the prophet, who deviates. The private schools must be the prophet. It was to be regretted that in a dynamic society like South Africa there was such lack of faith and consequent strengthening of the â\200\234herd instinctâ\200\235. He lamented the present educational system, and he urged the pursuit of

## THE JOHANNIAN

excellence, which he believed to be essential for success in any field. He blamed the present high rate of first-year failures at the universities on our effeminate civilization, which does not teach concentration, effort or the value of time. Many students were incapable of reading intelligently; apathy and aimlessness were the general causes of failure. The private school's third function was to teach a good moral code. He said that film stars were not good models, and that too much weight was placed on academic distinction. The private schools must breed individuality and leadership. They must also develop an understanding of the people as a whole and both language groups should be represented in the schools. The private schools must turn out citizens who have learnt to live together, for national unity would never be achieved so long as youth was kept in two distinct groups at school. We should do things together and so develop leaders with a mutual understanding.

After the Chairman had thanked Dr. Malherbe, tea was served in the Darragh Hall.

### SCHOOL SOCIETIES

#### Debating Society

President: Mr. A. D. S. Rose.  
Secretary: A. H. Pettifor.  
Committee: P. Jooste, M. H. Sayers.

WO meetings were held during the Advent Term. At the

first A. H. Pettifor, seconded by G. R. W. Babb, opposed the motion that "Man would be idle if he could", expounded by E. A. Goodyer, seconded by D. C. J. Paget. In a preliminary vote most of the floor agreed that they would be idle if they could. However, after some wrangling over the definition of "idle", and after defeating an attempt to correct the motion to Dr. Johnson's original quotation, the opposition won a convincing victory by 23 votes to 12.

At the second meeting on 30th October, members of the Old Johannian Toastmasters' Club were our guests. Mr. Rose and Mr. C. Kinghorn presided and Mr. W. Lane was the topic master. Extempore speeches of a praiseworthy standard came from A. R. Carr, J. C. L. Gilliland and K. C. Gilson. There were six prepared speeches, as follows: Mr. S. Gordon-Brown described his experiences in "Round Europe in a P.O.W. Camp". E. A. Goodyer gave a graphic account of "The first ascent of the Matterhorn". Mr. M. Dietrich described his idea of the "Compleat traveller". A. C. Gordon-Brown described "Modern Antarctic expeditions". Mr. J. J. Brossy produced many interesting facts about "The Royal Forests of Britain"; and lastly P. R. Wood, in perhaps the best speech of the evening, turned "Hannibal" into a master psychologist, who psycho-analysed his enemies. The toast-master was Mr. J. Hutton, and all enjoyed an evening of very fine debating.

The first meeting of 1961 was rendered slightly more interesting owing to the absence of one of the main speakers. A. P. Nel, in the absence of his proposer, opened for the proposition, giving several examples of how the "Ballot is stronger than the bullet". G. D. D. Raffan, opening for the opposition, quoted other examples to set the proposition at naught. Mr. Rose here took the floor, allegedly on the side of the proposition, but by mistake on that of the opposition, and after A. C. Gordon-Brown had had his say, Mr. Rose realized his mistake, and a heated debate ensued. After several comments from the floor, the motion was carried by 15 votes to 4.

The meeting of 5th March was a hot debate with a gratifyingly large attendance. Several original motions were considered, and despite a natural tendency to evade the issue, some amusing opinions were heard on subjects ranging from "Bird-watching" to "Bus services".

### Photographic Society

President: Rev. N. Jarvis Palmer.

Chairman: J. Thatcher.

Secretary: R. Thatcher.

Treasurer: D. P. Gnodde.

Committee: J. E. Andrews, B. P. Greaves.

BLACK and white competition was judged by Dr. A. D.

Bensusan during the only meeting of the Advent Term. Although there were no outstanding prints, Dr. Bensusan was pleased to find more original prints. The quality was generally of a higher standard than in recent competitions. Dr. Bensusan then showed us a few of his own salon prints and explained their technical and compositional qualities.

An informal meeting was held on 18th February. Coloured slides taken by members on the recent Overseas Tour were projected. On 26th February, Mr. L. C. Bate lectured to the Society on Photography in general.

On 12th March Mr. Flinn gave us an amusing and interesting talk on the photography used in advertising. During the final meeting of the Lent Term, Dr. Bensusan again kindly judged the Black and White Competition. There ' were a few outstanding prints this time, and besides submitting both modern and conventional prints, members produced photographs of good print quality.

### Scz'enlz]fc Society

President: Mr. D. H. Matthews.

Chairman: A. H. Pettifor.

Secretary: P. Jooste.

Committee: L. P. Fatti, A. P. Nel, R. M. Fulton.

DURI'NG the Advent Term of 1960, two outings were arranged. On October 28th, 25 members of the Society, accompanied by Mr. Matthews, visited the Baragwanath Hospital, and on 4th November 40 members visited the Modderfontein processing plants. On 13th November R. B. Jones addressed the Society on â\200\234Rubber and its Uses.â\200\235

The first meeting of the Lent Term was conducted by Dr. Heydenryck and Mr. Terry, representatives from Philips (S.A.) Ltd. Two films were shown dealing respectively with optical microscopy and telecommunications.

On the 17th and 24th February respectively two parties of 15 boys each visited the Swan Printing Press.

The final meeting of the Lent Term was held on 19th March, when Mr. Matthews addressed the Society on â\200\234Planetary Motionâ\200\235.

## THE JOHANNIAN

### Music Socity

President: Mr. J. M. East.

Secretary: A. H. Pettifor.

Committee: R.J. Whitburn, C. J. C. Hewitt, M. C. Payne,  
R. M. Stewart.

AT the first meeting of the Advent Term, Mr. P. Cohen gave  
an informative and interesting lecture on the relatively  
unknown composer C. P. E. Bach. He illustrated his talk with  
various pieces which he played himself.

The novel idea of a masters' concert was tried at the next  
meeting on 23rd November, and it turned out to be a very  
popular innovation. Mr. East and Mr. Rose played pieces on  
piano and oboe respectively, and Mr. Carter and Mr. Rose sang  
for us. The meeting was concluded with a very popular render-  
ing of 'Oh Dear, What Can the Matter Be?' sung and illus-  
trated by Messrs. Huggett and Carter, with Mr. Matthews as  
a somewhat reluctant guest artist.

At the final meeting of the year, G. R. W. Babb gave a most  
informative talk on 'Military Music', which he illustrated with  
various recordings. The St. John's College Music Group then  
gave a performance of several popular tunes, which was very  
well received. At the conclusion, the outgoing secretary, P. R.  
Wood, stressed the need for creative music in the School, cul-  
minating eventually, he hoped, in an orchestra.

Mr. I. Melman, the celebrated pianist, was our visitor at  
the first meeting of the Lent Term. He gave us some magnifi-  
cent renderings of a variety of works, including Beethoven,  
Brahms and Chopin, which were very well received. :

A musical evening presented by the Committee was given  
on 11th February. A. H. Pettifor presented Dukas' 'Sorcerer's  
Apprentice', C. J. C. Hewitt excerpts from 'Figaro' and 'Do-  
n Giovanni', R. J. Whitburn two waltzes by Strauss, M. C. Payne  
the first movement of Beethoven's 5th Symphony, and R. N.  
Stewart concluded with Ravel's 'Bolero'.

Rhythm was the topic of the meeting held on 11th March.  
Facets of rhythm covered were the Universe and Painting by  
Pettifor, Poetry by M. H. Sayers, Military Music by G. R. W.  
Babb, Waltzes by Mr. Rose, Spanish and Scottish Dancing by  
A. C. Gordon-Brown, Rock 'n Roll by the Mills ensemble,  
Nursery Rhymes sung by Messrs. Paterson, Ouzman, Ball,  
Sulter, Frerichs and Macfarlane. We then heard various record-  
ings, including cricket and tennis commentaries, College roll-call,  
heart beats and snoring. This innovation was an attempt to get  
as many people as possible to take part in presenting an evening,  
and was a great success.

Committee: J. P. Timperley, C. J. Jennings, P. C. Loots.

During the Christmas holidays several trips were made to various parts of South Africa. J. P. A. Weehuizen and R. C. Tarlton went on an expedition to the North-eastern Transvaal, C. J. L. Nettleton went to the Magaliesberg, and P. J. Rennie hitch-hiked round South Africa. At the beginning of the First Term a meeting was held to encourage members to undertake trips during the Easter holidays. As a result trips to the Drakensberg, Magaliesberg and Zululand have been made. On March 4th, a meeting was held in which members were divided into four teams. The teams then competed in a number of outdoor activities. On April 1st a colour film on the 1953 Conquest of Everest was shown. Several new items of kit have been bought so that the Club will now be able to sponsor more trips each holiday.

Radio Society

President: Mr. H. D. B. Forbes.

Chairman: P. J. Huggett.

Secretary and Treasurer: N. J. Woolley.

Committee: J. P. W. Fulton.

THE Society's membership has not increased lately owing to our lack of accommodation.

In the First Term Mr. Ballard-Tremeer gave us a very interesting talk on Frequency Modulation (V.H.F.).

We have repaired many radios belonging to members of the School, but are hampered by lack of equipment.

### Play-Reading Society

President: Mr. W. F. Andrewes.  
Senior Section Secretary: G. C. Rice.  
Committee: : M. H. Sayers, D. H. Dayvies,

R. H. L. Mills, N. B. Thompson.  
Junior Section Secretary: K. I. McGillivray.  
Junior Section Committee: B. P. Cairns, C. C. F. Reck.

In the Advent Term two of Terence Rattigan's plays were read,

Flare Path and The Winslow Boy. We are grateful to

Mrs. Rose for reading the part of the Countess so effectively in Flare Path; the evening was much enjoyed by everyone.

Three plays were read in the Lent Term, Rope an entertaining thriller, The Happiest Days of Your Life always a favourite, and Escape (John Galsworthy). We were very pleased to welcome Mrs. Yates and Mrs. Crowther-Smith as readers in The Happiest Days, and are grateful to those masters who allowed us the use of Gate House for the occasion. In this play G. C. Rice as the headmaster read particularly well.

Hscape, with its many parts, allowed a number of readers plenty of scope; although some of the regular readers were away the standard was high, particularly that of Thompson and Jooste, and others who read well were Pike, R. Jobling, MacRobert, Westgate and Davies; for this play we were glad to have Mr. Lawson back to take part.

In the Junior Section one three-act play was read in the Advent Term, The Barretts of Wimpole Street. This Section is very keen and receptive this year and was able to appreciate a play that is normally read by Seniors. Androcles and the Lion was read in the first two meetings of the Lent Term, and Richard Hughes's remarkable one-act play A Man Born to Be Hanged (the forerunner of Waiting for Godot) and The Caretaker was read at the third. It was nine years since the Society's Seniors last read this play; but, in spite of its difficulty, this Junior Group enjoyed and appreciated it.

In order to acquire some funds with which to buy new plays the joint Committees decided to introduce an annual (or termly) subscription. As an additional attraction, the President hopes to arrange an annual visit to a play at a Johannesburg theatre.

### CRICKET

ADVENT TERM 1960

Captain: C B. Dawson.

Vice-Captain: M. P. Joubert.

Secretary: A. R. M. Pike.

FTER a sound start to the yearâ\200\231s cricket, the 1st XI results

were most disappointing. Murrayâ\200\231s departure was, of course, a considerable loss to the team: by far the soundest and most experienced batsman, he had also, after a match or two as captain, learnt how to hold a side together and to get the best out of the bowlers.

It had long been realised that our cricketers, compared with those of most other schools, were given too little match experience, and four games were arranged in Natal in September to help to remedy this. It was perhaps unfortunate that this experiment had to begin with a weakened team, and that the first game was against Hilton, one of the strongest school sides in the country. Rain prevented a likely victory against Glenwood; and being put in to bat on a â\200\230â\200\234â\200\230glue-potâ\200\235 wicket was a novel but somewhat demoralising experience at Maritzburg College. Against Durban High School our batsmen threw their wickets away inexcusably after a good opening stand by Walker and Brownrigg.

In the school matches during term there were several occasions when the team lost its grip after being in a strong position, notably against Pretoria, who were 24 for 6 after a fine spell of bowling by Pike, but who were allowed to recover and win the match,

After Murray, George was the yearâ\200\231s most successful batsman: his 92 against King Edwardâ\200\231s was an attractive and confident innings. Pike proved to be a great-hearted bowler who worked hard for and well deserved his 33 wickets. The best fielders were Joubert and Tait.

This was an average side in skill, certainly good enough to win half its finished matches; but loyalty, unselfishness, a fighting spirit and sheer â\200\234gutsâ\200\235 are necessary ingredients of a good team, and those qualities were sometimes lacking. Dawson did his very best, but his task was harder than he deserved.

The 2nd XI beat Parktown again, but they were handicapped by inadequate batting, only Mitchell and Barrow having any success this term.

The 3rd XI, too, were weak in batting, but Wise, Huggett and Wasdell played some useful innings, and Drummond bowled well. The batting of the 4th XI (in the League this term) was also below standard, but Matthews and D. White bowled them to victory against Jeppe.

The best sides this year were the Under 14 A and B, and this gives encouragement for the future; there are some useful cricketers in the 1st XI who returned for 1961, but not many other seniors of promise.

## THE JOHANNIAN

### LENT TERM 1961

Captain: A. R. M. Pike.

Vice-Captain: J. B. Walker.

Secretary: R. W. George.

The 1st XI started the season well with a convincing win against St. Stithian's; the St. Stithian's attack, though not hostile, was accurate, and our openers are to be congratulated on scoring 219, George 125 and Walker 74, both undefeated. George was able to attack from the start; Walker, out of touch at first, patiently played himself into form.

The Potchefstroom match had an exciting finish, with Pike achieving a hat-trick and giving the side a chance to take the last wicket with one over left. Against Jeppe a solid start of 93 for 1 at tea faded to 146 all out through careless batting. Not many more runs would have been needed, for Jeppe's strength this year is in their bowling; in the event, they won by two wickets, five minutes from time.

After a poor start against a hostile Hilton attack, Walters and Tait did well to help us to a total of 176, but this did not prove enough against a powerful side, and Hilton won comfortably. Excellent batting by Pike and Lloyd gave us a sound score against King Edward's, and accurate bowling by Haig and Pike brought about a deserving victory.

The Michaelhouse match was most enjoyable and produced some sparkling cricket. Lloyd's innings was probably the best feature, and the good catch that dismissed him saved the day for Michaelhouse. The Parktown match was thrown away by our later batsmen, who refused to use their feet to the slow bowlers. Rain washed out the match against Isaacs' XI, and prevented play against Pretoria.

Good progress was made by most of our players; Drummond gained in confidence, and kept his head well when attacked; Haig and Pike could normally be relied on to bowl accurately, and each had great moments; Williamson looked dangerous when he bowled a length; Tait's wicket-keeping showed much promise; Lloyd should get wickets when we have runs to play with.

The fielding, though never brilliant, became competent, and Walters and George each achieved a memorable catch. The batting, handicapped in most matches by a long and hesitant tail, showed powerful possibilities. Pike's captaincy was enthusiastic, generous and tenacious, and he achieved a fine team spirit. If the second half of the batting would show more confidence and determination, this team should do well later in the year.

## THE JOHANNIAN

The 2nd XI, on paper, were a rather better side than last year's, with plenty of bowling and not negligible batting. Bennett had good figures in four matches, and there was a variety of spin to choose from. The failure to win matches was due to a lack of confidence and tenacity in the batting, only Huggett having much success and that mainly against slow bowling, which he plays well. Haig and Gear should be sufficiently established by the fourth term to make good scores and help the side to the success it is capable of. The 3rd XI, after winning their first three matches, felt the loss of Gear, Haig and Cotterell, who were promoted, but they are still an adequately equipped side who should have fair results to come. In a low-scoring match the 4th XI beat Jeppe, but were outplayed in subsequent matches.

The Under 14A had a fine win against a King Edward's side that was considered to be quite strong, and beat Jeppe. Against Potchefstroom the bowling, and against Parktown the batting, failed them; but this looks a promising team. The Under 13A, an enthusiastic team, beat Potchefstroom and Jeppe, and the Under 14B, a side of some ability, should continue to hold their own. The Planets had the best of a match against Parktown.

Many thanks to the parents and friends who unfailingly help us with transport and provide us with such excellent teas.

Finally, we give a warm welcome to Mr. Bruce Mitchell, whose coaching in the Preparatory School and College will, we hope for many years to come, be of the greatest benefit to our cricket.

### HOUSE MATCHES

Although they lacked spin bowling, Nash seemed the strongest side this year; and so it turned out. The Day-boys could score only 158 against them, and Nash had little difficulty in making the runs.

Against Hill, Nash made a large score quickly, but could take only seven wickets in the time available. It was therefore possible for Hill to share the shield with Nagsh if they succeeded in beating the Day-boys. The Day-boys batted first and, in making 200, were indebted to a last-wicket partnership of 25 by Bennett and Dane which used much valuable time. Hill, who previously earned much praise for their fielding, came within 15 of making the runs, thanks to some exciting hitting by Stanton in the last quarter of an hour (6 446 46441 14).

In the juniors, Nash offered little resistance, although de Graeff and Cotterell bowled well for them. Hill and the Day-boys were evenly matched, and it was largely owing to Haig (77) and Thomas (6 for 15) that Hill won the Cup.

### Senior Results

Day-boys 158 (Walker 77, Pike 7 for 50, Williamson 2 for 42). Nash 159 for 4 (Lannon 57, Williamson 47 not out, Pike 33, Macleod 2 for 67). Nash won by 6 wickets.

Nash 260 for 6 dec. (Pike 75, Lannon 68, Williamson 45, Walters 33 not out, Grierson 22 not out, Haig 4 for 64). Hill 135 for 7 (Tait 41, Wasdell 30, Wise 26, Walters 3 for 40, Williamson 3 for 41). Match drawn.

Day-boys 200 (Lloyd 60, Walker 25, Haig 3 for 73, Tarlton 3 for 50, Stanton 2 for 34). Hill 185 (Haig 48, Stanton 44, Tait 37, Andrews 24, Drummond 5 for 106, Bennett 2 for 23). Day-boys won by 15 runs.

### Junior Results

Day-boys 99 (Wilkinson 58, Cotterell 3 for 27, de Graeff 3 for 32). Nash 37 (Martin 4 for 17, Wilkinson 2 for 0, Hague 2 for 12). Day-boys won by 62 runs.

Hill 98 (Thomas 32, Cotterell 6 for 36, de Graeff 4 for 45). Nash 22 (Strauss 6 for 14, Thomas 3 for 6). Hill won by 66 runs.

Hill 130 for 9 dec. (Haig 77 not out, Martin 3 for 46, Hague 2 for 25, Wilkinson 2 for 29). Day-boys 73 (Gear 28, Trollip 20, Thomas 6 for 15, Strauss 3 for 17). Hill won by 57 runs.

### ATHLETICS

Athletic Meeting vs. Krugersdorp High School (Away)  
Wednesday, 15th March

Result: St. John's 96 points, Krugersdorp 39 points.

The programme of this meeting was the same as for the last six years and included no field events. The Open was split into Under 17 and Under 19 groups.

Although St. John's had an easy victory, the general quality of Athletics was only average, and did not come up to the high standard of the past. Our Under 13, Under 15 and Open groups did well, winning 15 out of their 17 events. St. John's also won five out of the seven relay races (all 4 x 110 yards).

Because of Cricket House matches, we did not compete with our full team.

Athletic Meeting vs. Jeppe High School (Home)  
Wednesday, 22nd March

This delightful meeting was rained off at the interval. At this stage, when only 13 of the 21 events had taken place, St. John's led by 116 points to Jeppe's 87. The programme included no relays, and the point scoring was 6, 4, 3, 2, 1 for the first five places out of a field of six competitors.

We did especially well in the Hurdles. In the thirteen events which were decided, St. John's obtained ten first places. The general standard of the competition was good. Records were set up by J. P. Andrew (220 yards, Under 13: 27.1 secs.) and Drummond (110 yards Hurdles, Under 16: 14.8 secs.).

Quadrilateral Athletic Meeting between Jeppe, Parktown,  
Potchefstroom and St. John's at Jeppe

Wednesday, 29th March

Result: St. John's 90, Jeppe 82, Potchefstroom 49,  
Parktown 45 points.

This was again a very enjoyable and friendly meeting. The result was in doubt until the last event. St. John's, although perhaps not as strong as last year, did well to win five out of the six relays and to gain three first places in the nine individual events. Wise, Holtung and Drummond were excellent, but all the others did their best. We had a team of thirty.

Our thanks are due to the Principal and Staff of Jeppe who organised everything so efficiently.

### THE CHAMPIONSHIP ATHLETIC MEETING

Friday, April 7th and Saturday, April 8th, 1961

In spite of rain during the previous day and night, which

caused a damp track, the high standard of our Athletics was maintained and in some cases even surpassed. Six records were broken and one equalled.

At present only two school records of the "good old days" still stand: the 100 Yards Open (E. Davidson, 1927; G. Bird, 1930, 10.2 secs.) and the High Jump Open (L. Roberts, 1920; O. Wynne, 1937, 5ft. 10ins.). Of the period 1943-1954 there are 17 records still standing; from 1956 to the present 32 records still stand, out of the 51 events on the programme,

The Geoffrey Cherrington Cup, given annually to the most deserving Senior Athlete was awarded to O. Holtung, who competed in the 880 and Mile. In November last year he broke the Mile record "unofficially" on the B field. He again broke the record, "officially" competing to select a Mile team for the Quadrilateral meeting. Holtung finally broke his own record on Sports Day and also the record held by Lawrence since 1936 by 6.8 secs., running excellently in the good time of 4 min. 34.2 secs.

In the Open group, P. J. Rennie and Wise are also athletes far above the average.

The Gettliffe Floating Trophy, awarded annually to the most deserving Junior Athlete, went to P. I. Drummond. At present he is one of the best hurdlers in the School, and his efforts in the jumps were crowned by first places.

In an age group which is not strong athletically, Drummond, D. M. Rennie and Wasdell were outstanding.

Nash Seniors must be congratulated on winning the Senior House trophy; their efforts in the Tabloid must also be recorded as the best ever. Out of a total of 35 boys competing in the Open Tabloid, no fewer than 19 passed in all their events.

In spite of threatening weather a large and enthusiastic crowd attended the sports. Tea was served in the Pelican Quadrangle by the Ladies' Entertainment Committee (Chair: Mrs. Hewett) and a collection was held for the African Feeding Scheme, which amounted to R68.55.

The Cricket and Athletic trophies were kindly presented by Mrs. F. Holtung at the prize-giving afterwards.

### SWIMMING

ADVENT TERM 1960

Captain: E. A. Goodyer.

Swimming colours were awarded to E. Q. Davies, P. L. Fatti, E. A. Goodyer, T. F. H. Legge, M. J. Redfern.

### INTER-SCHOOL GALAS

vs. Athlone (Away), Friday, 21st October

Result: Athlone 96% points, St. Johnâ\200\231s 803 points.

A fairly high standard was reached by both schools. Although St. Johnâ\200\231s obtained most second and third places, Athlone came first in fourteen of the twenty-one events.

vs. Jeppe (Away), Friday, 28th October

Result: St. Johnâ\200\231s 1093 points, Jeppe 663 points.

This gala was the first between the two schools for some years. St. Johnâ\200\231s swam well to gain this satisfying result, being far fitter than against Athlone.

vs. K.E.S. (Home), Friday, 4th October

Result: K.E.S. 112 points, St. Johnâ\200\231s 64 points.

We swam against the K.E.S. â\200\234Aâ\200\235 team, and excellent swimming was seen, especially by the K.E.S. swimmers who set up fifteen bath records. L. P. Fatti (St. Johnâ\200\231s) broke the Under 16 50 metres Butterfly record (33.3 secs.) and the Under 16 50 metres Backstroke record (36.4 secs.).

### 43rd ANNUAL INTER-HOUSE SWIMMING SPORTS

Saturday, 19th November, 1960

A good standard of swimming was reached although the Gala was somewhat spoilt by rain, as it was in 1959. Times were generally good, and nineteen new records were established in the 42 events.

Much enthusiasm was shown in the Water Polo (Captain: E. Q. Davies). Nash beat Hill in a thrilling match, which often reached a remarkably high standard.

The Joerg Gosteli Memorial Trophy, annually awarded to the most deserving swimmer, was won by L. P. Fatti, who swam well in the Under 16 events.

The swimming cups were kindly presented by Mrs. A. W. Goodyer in the Amphitheatre afterwards.

We would like to thank the Ladiesâ\200\231 Entertainment Committee (Chair: Mrs. L. C. Bate) for all the pleasant teas which they have provided at our swimming galas.

### LENT TERM 1961

Captain: L. P. Fatti.  
INTER-SCHOOL GALAS

vs. Hilton and Jeppe (Home), Saturday, 11th February  
Results: Seniors: Hilton 653, St. John's 283, Jeppe 23 points.  
Juniors: St. John's 44, Jeppe 21 points.

Hilton College visited us with a group of Senior swimmers who all swam well and deservedly won this gala. St. John's also competed against Jeppe in the Juniors. The following records were broken: 25 metres Butterfly, Under 13 (Watkins), 18.7 secs; 25 metres Backstroke, Under 13 (Van Dongen), 18.7 secs; 50 metres Breaststroke, Under 14 (Dickson), 40.3 secs.

vs. Athlone (Home), Friday, 17th February  
Result: Athlone 94, St. John's 85% points.

This gala was again very pleasant and exciting, and some excellent races were swum. Van Dongen broke his own record in the 25 metres Backstroke (Under 13) with a good time of 18.0 secs.

vs. Parktown (Home), Friday, 24th February  
Result: Parktown 94, St. John's 86 points.

For the first time we swam against the 200/234A 200/235 team of Parktown and did really well, as the result shows. For St. John's the following put up good performances: Fatti, L. P.; Jennings; Matthews, M.; Babb, J. H.; Scheibe; Dickson; Van Dongen and Tarlton, R. C., who all won their events.

The match against K.E.S. on 3rd March was unfortunately rained off after the first few events.

### TENNIS

Captain: J. B. Walker.

DURING the Advent Term last year we managed to play six most enjoyable matches. Our first match was against RS who produced a strong side. The most successful couple was Thomas and Joubert, who won two sets 7-6 and 9-6 but lost the third 4-6. Our other two couples did not play as well as they should have; Grout and Gilson losing 1-6, 2-6 and 9-11 and Walker and Jeffrey losing 0-6, 4-6 and 3-6.

The following week we played against Parktown. Our all-round standard was higher, but we still lost by 38 games to 79. Thomas and Joubert won 11-6 and 7-6 but lost 2-6. Grout and Gilson lost 1-6, 6-6, 5-6. Walker and Jeffrey also lost all three sets.

## THE JOHANNIAN

Our next match was against Jeppe who, like K.E.S., produced a strong side. We were beaten by 59 games; Thomag and Joubert losing 4â\200\2247, 1â\200\22410, 2â\200\2249; Grout and Gilson losing 2â\200\2249, 2â\200\2249, 3â\200\2248 and Walters and George losing 0â\200\22411, 3â\200\2248, 3â\200\2248.

In our match against the Staff only two couples played. Thomas and Barrow played well, winning 12â\200\2243 and 7â\200\2248, but Walker and Gilson not so well, losing 5â\200\22410 and 2â\200\22413. The Staff won by 34 games to 26.

Our last match of the year was against Highlands North, but unfortunately the last three sets after tea were washed out completely by rain, and we had to stop in the middle of the second sets.

Last term we were not very active on the courts, and did not manage to have many practices. We did, however, manage to play one match against the Staff. Mr. MacPhail and Mr. Andrewes played consistent tennis, as usual, although they did not hit the ball very hard. Walker and George beat Mr. Chamberlain and Mr. Martin-Doyle 8â\200\2245, but lost 5â\200\2248 to Mr. MacPhail and Mr. Andrewes and 6â\200\224â\200\2247 to Mr. Rose and Mr. Lester. Pike and White beat Mr. Chamberlain and Mr. Martin-Doyle 7â\200\2246 and lost the other two sets 6â\200\2247. Scheibe and Walters lost all three sets. The Staff won by 17 games. Considering our lack of practice, this was a satisfactory result.

## SQUASH

Captain: J. P. Timperley.

Dâ\200\230URING the Advent Term of last year, only one match was played. This was against a Jesters team and was arranged by Dr. Garwood.

## RESULTS

Barrow lost to Hurry (1-â\200\2243)

Jones lost to M. Jarvis (1â\200\2243)

Timperley beat Halamandres (3â\200\2242)

Davies lost to Mennie (0-â\200\2243)

Gosteli lost to Dr. Garwood (2â\200\2243)

In the Lent Term of 1961, we played our first match against

a Wanderers â\200\234Bâ\200\235 side. Davies had a convincing victory over Sinclair (3â\200\2241) and was the only member of the team to win. The other results were: Timperley lost 0â\200\2243, Gosteli 1â\200\2243, Tarlton 1-â\200\2243 and Pike 0â\200\2243 respectively. The main cause of our defeat was the superior positional play of our opponents.

With seven College boys in the South African Junior Squash Championships, we hope to gain the experience that our enthusiastic players need so badly.

Our thanks to Dr. Garwood for the very helpful coaching he has given to many of the boys.

NIGHT

A dry mouth cracks over a wordy book:

The parched air hangs round a crumbling brain:  
O for a soothing breeze, a cooling calm!

The liberal peals soar o'er the moonlit stone .  
The voluptuous fount tumbles round my lips

And the flaccid lobes ooze water in.

A floral fragrance fills the heavy balm,

Verbena's perfume inspires my aching blood,  
Cooling it to the velleity

Of a paradise. Rustling Lethe blows

Gently, gently. My mind wonders . . . the world . . .  
Why is she not a heavy grey-black darkness,  
Hanging over verdant green, and silver streams  
Splashed with jet? The mystery of Night.  
Night . . . a magic word . . . its scraping music  
Behind the stillness, the stillness of a perfect night.  
O this defective world where human-swarms cry.  
Machines grind, and dry, dry brick and mortar  
Spread like a disease . . . even now, cries

Of empty mirth contaminate the night . . .  
When will she see her golden days again?

Were they only for Apollo and the gods?

But I Believe . . . the Life Hereafter:  
Then will night shine translucent in blackness.

### EPISODE

Most kaffirs are the same to me. Just crazy, half-baked savages, who would cut your throat for half-a-crown. But one I saw in the city the other day struck me as being madder than the rest.

It was during the lunch-hour outside the City Hall. The usual crowds were streaming past, but a fair number had broken off to listen to the soap-box orators on the City Hall steps. I joined them.

The centre of the attraction was a dark, smiling individual, obviously poor, yet cleaner and more honest-looking than the rest. A group of men stood clustered around him. They seemed to be followers of some kind and they were obviously disturbed. A policeman stood near by, eyeing them suspiciously.

I tapped on the shoulder of the man in front of me. He swung round, blinking curiously.

â\200\234Excuse me,â\200\235 I said, â\200\234but could you tell me what is going on here?â\200\235 The little man stared at me,

â\200\234Do you mean that chap over there? You never heard of him ?â\200\235â\200\235 He blinked again.

â\200\234No, I'm new to Johannesburg. Up here on business from the country.â\200\235

â\200\234Oh!â\200\235 He seemed satisfied. Then he sighed. â\200\234Just listen to him,â\200\235 he half whispered to me.

I took a few paces forward and stared at this smiling native who seemed to attract so much attention. He seemed to catch my eye almost at once, and he stared back at me, smiling all the while, until I suddenly felt ashamed and looked away.

â\200\234Damn!â\200\235 I said softly to myself, â\200\234Damn! I'd whip any kaffir on the farm who did that to me.â\200\235

I tried to catch what he was saying. He was gently exhorting the crowd to live their lives anew; his voice flowed on and on, rippling over the crowd and soothing it.

Then suddenly his tone changed. He became passionate and his voice assumed a fiery, harsh quality; it pierced and stung.

The reaction was immediate. People began to mutter and stir uneasily. Someone picked up something and flung it at him. He ignored it. The crowd was growing hostile. It had tasted truth, and it did not like the flavour.

I also felt an indescribable anger towards him surging up in me. Who did he think he was? Silly, self-righteous fool! Did he, a black, think he was better than I?

The little man sidled up to me and blinked once more.

â\200\234Funny,â\200\235 he said. â\200\234He hag such a nice coat for such a poor nigger.â\200\235 I turned and looked at the preacher once more. At his coat. Now the coat was without seam, woven from the top throughout. I shrugged my shoulders, and moved on.

### TEMPO

The day rolls on in waves of heat  
And thunders down along the street;  
And on the corners of the mind

It drums its dully savage beat.

A thousand puppets dance in tune,

A thousand sausages on string;

A thousand minds obey the call

And twitch and jerk, and writhe and swing.

The bare feet shuffle in the dust;  
The sweat runs, and the drums heat;  
A red splash in the black night.

The heat, drink; and the dust, meat.

And in far-away espresso bars

to the shuffling rhythm of guitars,  
The master-race gyrates and turns;  
And still the noon-sun fiercely burns.

M. J. ARNOLD.

### IN PRAISE OF APARTHEID

O foolish beasts that chafe 'neath our mild yoke!  
Your stubborn minds and weak, infertile brains

Were sown that we might tend, and glean with care

A crop of simple unsuspecting men.

Your blubber lips and pink albino gums

Betray an ape-like presence, alien to us.

Your dangling arms, arrayed with callousâ\200\231d hands,  
Could no more draw a sketch than we a plough.  
Your untuned ears with limply hanging lobes

Of flesh, can only hear the discords of your speech.  
Your naked bodies, blanket-clad and black,

Do sweat the heat of anguish and desire,

And soil our neighbour cleanliness with their smell.  
Your Simian heads with rolling eyes and coiry hair  
Are full of empty thoughts.

But do not grieve, for we are strong and with White hands  
Will shape you misbegotten creatures â\200\224 for our ends.

### THE COLD CITY

The Sexagenarian, crippled, befuddled,  
Shaking as the drip, drip of  
The morning frost pierces his  
Thin layer of clothing to cramp  
His limbs, and clamp  
His jaws more strongly  
On emaciated shoulders. Huddled  
On the bench he dreams, he muses  
Whether yesterday, today, tomorrow   â\200\224  
He neither cares, nor knows.  
For him only the agony: the living  
Through another icy wet Johannesburg day,  
Waiting . . . shivering . . . dying . . .  
Waiting for opening time,  
And the friend who shares  
His dole and misery in death . . .  
... A gold cuff-link asteroids  
Its glittering way down the gutter  
Dripping with wet.  
Too stiff to move and yet  
He picks it up and voids  
Into the blackness of past years   â\200\224  
His loves, weaknesses, achievements, fears.  
He blinks through bloodshot eyes  
At the tiny object,  
And remembers, recalls how he  
Once rich, prosperous, now reject  
Of society   â\200\224 a drunken, crippled sot.  
Had met his downfall.  
... The terrifying murderous thunder  
Of the earth hurling its wrath  
On those come to plunder.  
Its vast storehouse of gold . . .  
  
.. The pain-filled dust-choked hours  
Of waiting . . . waiting to die  
In those passages cluttered by the rockfalls.  
... Rescue, escape . . . amputation.  
All had followed together with years of waiting.  
... Waiting to die,  
To end the misery; dejection of this maimed,  
This broken being . . .  
... Now stiff, frozen, shivering . . .  
He gazes over the goods-yard  
At the smog-palled, liquid sun  
Oozing its way to announce  
The dawn of a new, a drearier,  
A lonelier, more desolate, more agonizing  
Day in the city, in his city,  
In the Cold City.

### THE HOUSE ON THE ROCK

The storms of fury beat upon the house;

But all the strength of hell could not prevail

Against that dwelling-place. What power can rouse  
The God of Grace to anger, and not fail ?

The Christian sets out not with strength alone;  
But on the rock of Christ he starts his course;  
For here, unsparing mercy is he shown,

And succourâ\200\231d oft with Godâ\200\231s mysterious force.

The mundane man will choose his site of sand,

To follow and enjoy his lavish ways;

His heavenly hope is lost and fails to stand,

But he is blinded from this by his laud and praise.

The truth and faith of Christ the first manâ\200\231s prize,  
But worldly pleasures are the foolâ\200\231s desire;

â\200\230The final count is when the Saint will rise,

The foolâ\200\231s life ends but at the funeral pyre.

W. J. COOPER.

### THE THIRD AGE OF MAN

The fires are burning on the opposite hill-top  
and the full moon, frequently obscured by the  
racing wrack, casts weird shadows,

and the wind blows shrilly.

He listens,

and reads,

and wonders,  
but seldom asks.

A king aglow with jewels

whose haughty sceptre

sends his minions scurrying;

whose state knows harmony, fulfilment.

Olympus watches,  
the feet are bruised and torn:  
Ambition,  
Passion  
Frustration,  
and Valhalla sighs.

### PREPARATORY SCHOOL HEADMASTER'S NOTES

The following have been appointed monitors for 1961:

SchoolRHoUSc DS C] TSNS Corichman SRS @  
Jackson, D. J. M, McMullan, W. G. S. Wilson.

New House: H. L. Andrew, P. M. du Preez, J. E. Gnodde,  
K. G. McGrath, G. Maxwell, I. B. Weedon.

Day-boys: C. J. Balderson, R. C. Kerr, T. M. C. Lewis, A. J. R.  
Morris, C. E. B. Rice, J. M. H. Smith, B. C. Suckling.

Y the time these notes appear I shall be enjoying my first  
sabbatical term in sixteen years of teaching, seven of them  
in my present post. During my long leave Mr. W. I. O. Paterson  
will be acting as Headmaster, and Mr. W. W, Macfarlane as  
Housemaster of New House.

At the end of the Lent Term we were extremely sorry to  
say goodbye to Miss G. S. Carruthers, who left on the occasion  
of her marriage after only a year with us. In her place we  
welcome Mrs. M. P. Green and wish her a happy and successful  
time at St. John's. We were also very sorry to lose Sister  
Camphuis at the end of 1960: while she was overseas during  
the Christmas holidays she decided that certain family obli-  
gations she met in England prevented her return to South  
Africa. In her place we were fortunate to secure, at very  
short notice, the services of Sister L. M. Edwards, who is  
spending a year's holiday in South Africa. We hope her  
time in the Prep. does not make it too little of a holiday, but,  
as the Lent Term was the most free from illness that I have  
known, there was a good start. We are also most grateful to  
Sister Kwant who, in spite of the calls of a baby a few weeks  
old, tided us over from the beginning of term until Sister  
Edwards could arrive.

A major event of the Lent Term was a visit by the  
Inspectors of Education. It is six years since we last had an  
inspection, and I should like to thank Mr. Hopkins and his team  
for the most cordial and helpful way in which they carried out  
their task. Their official report has not yet been received,  
but I am glad to say that their individual comments were very  
complimentary.

We have been fortunate to welcome on some Saturday  
nights as visiting speakers to the boarders Dr. D. A, Dodds,  
who visited us twice with his award-winning films on mountain-  
eering, the Sani Pass, and the life of the white ant; Mr. C. E.  
Mavrocordatos with a film on Ancient Greece; Mr. P. R.

As is our custom we supported the Easter Stamp Fund for Cripple Care during the Lent Term, and raised the sum of R17 in its support. The boysâ\200\231 voluntary Lenten offerings, amounting to R8.37, went to â\200\234Thabisongâ\200\235, the nursery school and family centre of St. Michaelâ\200\231s Mission to Alexandra Township, which is run largely by voluntary African and European staff. On one Wednesday afternoon a party of boys visited this centre and saw the work in progress: it was an impressive experience which revealed what the devotion and labour of a handful of people had accomplished.

The end of year celebrations continued their traditional form, though rain so interfered with the braaivleis that the sing-song was hurriedly transferred to Big School. This improvised change was most successful, and the party seemed the most successful we have ever had, with exemplary behaviour by the boys. We are most grateful to the Upper III's for giving a leaving present to the Prep. of R45.65; part of this has been spent on buying a good globe, which has been placed in the Library. The balance will probably also be spent there.

At the Boardersâ\200\231 Party we were glad to welcome as our chief guest Mr. S. Dodson, Headmaster of St. Peterâ\200\231s, Rivonia, but previously for thirty-five years on the staff of St. Johnâ\200\231s, from 1935 to 1949 as Headmaster of the Preparatory School. We were very happy to welcome him and Mrs. Dodson back to the Prep. and to our Christmas Party. Afterwards there was an entertainment by the boys, devised by Mr. East, and by the Staff; undoubtedly the highlight of the Staff entertainment was the singing by the resident staff, accompanied by Mr. East, of the mock-serious part songs â\200\230â\200\234Mary Had a Little Lambâ\200\235 and â\200\234Humpty-Dumptyâ\200\235 â\200\224 â\200\234a Handelian fragmentâ\200\235.

I must continue to express my thanks to Mrs. Trollip for her work with the â\200\230â\200\234â\200\230swop-shopâ\200\235, which continues to supply most useful sums for improving the amenities of the Prep.

THE JOHANNIAN

IT HAPPENED AT NIGHT

The night closes around us,

The silence clings about us . . .

The only sound, the quiet sound of trickling water.  
Jim next to me was asleep,

And his oar was slipping away.

He did not notice it.

The oar slipped into the silent waters,  
Never to be seen again.

The silence was strange,

It enveloped us in cold quiet.

Then suddenly,

Like a shot from a gun,

It happened:

Jim was asleep,

Naturally,

But in the cold waters he awoke,

And clung to me, like a sucking octopus.  
I struck out for the capsized boat:

On reaching it I unloaded my burden,  
And waited.

After the excitement, the silence was deadly.  
I shivered:

All I could do was wait.

### PREPARATORY SCHOOL CRICKET

#### 1960 SEASON

Captain: L. B. Robertson.

Vice-Captain: R. H. Dearlove.

Captain of 2nd XI: B. Q. Barrow.

Colours were awarded to L. B. Robertson, R. H. Dearlove and J. H. Hovelmeier.

HE end of the season was disappointing, as three fixtures were cancelled and one severely curtailed by rain, We did not play St. Peter's, The Ridge or The Fathers and had only half an afternoon's play against King Edward's Preparatory. This was a pity, as there had been a considerable improvement in the batting technique and the boys needed more match practice to build up their confidence. Although the batting improved it was still far from good. So often poor bowling was treated cautiously, resulting in batsmen getting themselves out, Hovelmeier and Dearlove are good bowlers but they must be supported by good fielding, which was not always the case. Hovelmeier's best performance was against Waterkloof House, when he took 6 wickets for 23 runs, all his victims being bowled. The 2nd XI showed a very positive approach to the game and as a result did well.

The Under Eleven matches were enjoyed by all and gave these boys valuable match experience. Once more we are indebted to all those parents and friends who helped us in so many ways,

### LENT TERM 1961

Captain: R. C. Kerr.

Vice-Captain: T. H. Hovelmeier.

Captain of 2nd XI: R.D. H. Jackson.

Colours were awarded to T. H, Hovelmeier (confirmed)  
el 1, Â©, IKEHE,

HE 1st XI played some good cricket in the First Term of this year. There were a number of glaring faults, but the general standard was satisfactory. There are a few boys who are natural hitters but often lose their wickets by trying to play â\200\230â\200\234correctâ\200\235 strokes to poor bowling. These boys would benefit if they relaxed more, as their game would then develop around their good points. A team comprised of promising players who will not attack when the opportunity is there, will not produce good results or exhilarating cricket, This is the story of the 1st XI, for although there were exciting matches and some fine individual and team efforts, the team lacked the punch to win matches that should have been won.

Hovelmeier has an outstanding record. He took 34 wickets for an average of 4.4 runs. This is a very fine achievement, but he must take more note of his field placing. Kerr captained well but has not yet grasped how to change the field when the opposition start hitting.

The 2nd XTI once again proved too strong for all opposition. There are some very promising players in this group.

The Under Eleven XI were unfortunate to have to abandon one of their games. However, they enjoyed themselves and a few good players have come to light.

The House matches were most interesting this year, as the Houses were very evenly matched. A feature of the Senior and Junior sections was the number of high individual scores. The standard of the Middle section was disappointing. The Seniors were won by Bousfield and Carter, the Middles by

PREPARATORY SCHOOL SWIMMING

Captain of Swimming 1960: D. J. Wilson.

Captain of Swimming 1961: G. A. Gibb.

At the end of 1960 swimming colours were awarded to D. J. Wilson (confirmed), G. K. P. Watkins (confirmed), W. H. Van Dongen (confirmed), P. D. Woodliffe (confirmed), M. J. Sutherland, C. R. Howson and R. W. Coe,

HE tremendous improvement in the general standard of the swimming was reflected in the Tabloid Sports and in the Inter-School matches. The Tabloid standards, unchanged since this event was introduced two years ago, were, at the end of last year, obviously too easy for the majority of swimmers. 108 swimmers scored 383 points in 1958, whereas 162 swimmers scored 640 points in 1960. Also, the Special Swimmers group, which two years ago numbered about 40 swimmers, had almost doubled by the end of 1960. Both the Tabloid standards and the Special Swimmers standards were thus made more difficult at the beginning of the new year.

For the third year in succession Darragh won the Babb Tabloid Cup with 175 points, Cullinan were second with 168 points, Carter were third with 158 points and Bousfield were fourth with 139 points. Running this event as a voluntary one still proves very successful as about five-sixths of the boys enter for it. An innovation was the cancelling of all cricket and the devoting of an entire afternoon to the Tabloid Sports.

Several factors were responsible for the improvement in the swimming. Mr, Ouzman, who coached the swimming for the 1959/1960 season, trained and selected the team swimmers so well that when he relinquished the swimming in April he left the task of choosing teams for matches later on in the year a comparatively easy task. In fact, at the end of the year, the team was the strongest that has ever represented St. John's. Much of the credit for our splendid win over King Edward's must undoubtedly go to him. Credit must also be given to Mrs. Watkins, who generously gave up so much of her time to helping with the coaching and who supplied useful advice on how to eliminate screw kicks; and also to Mrs, Lester, whose divers have been beaten only once in three years of competitive diving. With the expert assistance of these two ladies, more time was available for the coaching of the Special Swimmers who swim in school matches. The main job of a swimming coach in the Prep. should be to teach beginners to swim. In this we have succeeded, but only at the expense of neglecting the Special Swimmers. However, with the assistance mentioned above, and with the introduction of swimming during break instead of P T., the Special Swimmers are at last getting the attention they deserve,

Swimming lessons for Lower and Upper I's during school hours were continued and the introduction of a new, lightweight, plastic-foam flutter board which can be handled with ease by the smallest boy, meant that beginners were able to swim very much sooner than previously.

The highlight of our swimming season was our first victory over King Edward's. For the first time also, we swam a team in a match at the same time as an A team was competing. This meant not only that more than sixty boys were competing from each school, but also that fourth string swimmers were not competing against the best swimmers of the other school and could thus win events in the B team match.

The annual sports, held in brilliant sunshine after rain had almost washed out the College sports, involved more boys than ever before about 130 in all. Eighteen events out of thirty-three produced record times. Wilson gave a magnificent display of swimming and set up three new records. Watkins, Van Dongen and Sutherland were outstanding in breaking all but one of the records in the Under 12 group. It will surely be a long time before we see such an excellent display of swimming as produced by these boys and the others in their age groups. Woodliffe's diving was the best ever seen in the Prep. sports, while G. A. Gibb, Williams, Peters, Southey, Bensusan and Allen all swam very well in their various age groups.

Once again we are indebted to the mothers of the swimmers for providing transport, cakes and encouragement and to the Ladies' Entertainment Committee for serving teas.

#### SWIMMING MATCHES 1960/1961

vs. King Edward's and Yeoville (Home), 1st November, 1960.

We showed the strength of our first string swimmers by taking six first places out of the sixteen individual events. King Edward's also won six events and Yeoville four. Yeoville were very strong in the breaststroke events but were unable to hold their own in the freestyle and backstroke. Our second swimmers were not as good as those of King Edward's at taking second and third places and so, by the time the relay events came up, King Edward's were in the lead. However, our team swam well in the relays to win three out of five, coming second in two. Noteworthy performances were by the Under 12's, who took first three places in the backstroke. Wilson, Watkins and Van Dongen deserve special mention. Woodliffe's diving was outstanding.

Points: King Edward's 63%; St. John's 51%; Yeoville 26,  
vs. King Edward's (Away), 28th November, 1960.

We started this match in high hopes of doing well as we had been concentrating on our weakness, breaststroke, which was probably the deciding factor in our last encounter. We started off well by getting first three places in the Under 8 Freestyle and then went on to win most of the freestyle and backstroke events. By the end of the individual events we were in a very strong position, having won ten out of sixteen events. Moreover, our second and third swimmers frequently gained places. and on two occasions we made a clean sweep of first three places. We made sure of an excellent victory by winning four out of six relays.

## THE JOHANNIAN

Special mention must be made of the very good swimming of Wilson, Watkins, Van Dongen, Peters, Bensusan and Allen, The last mentioned gave a most plucky display in winning two races after an unfortunate mishap on the diving board.

A measure of the standard of swimming of both teams was the fact that two days later, in their sports, King Edward's broke sixteen records while St. John's swimmers broke eighteen records in their own sports. In the match seven of the individual events were bath records.

Points: St. John's 87; King Edward's 69.

vs. St. Stithian's and Marist Brothers (Away), 2nd March, 1961.

We competed in a triangular match against Marist Brothers for the first time. Although our individual swimmers did not do as well as usual, we managed to gain sufficient second and third places to keep us in the lead. In the relays we were very much stronger than the other two schools, winning three out of four. St. Stithian's swimmers gave us several indications that they are going to be very difficult to beat in the near future. Mrs. Cuthbert's divers, in particular, have improved tremendously and defeated our divers for the first time. The best of the St. John's team were Bensusan and Allen, but most of the swimmers seemed to be worried by the lack of painted lane lines.

Points: St. John's 102; Marist Brothers 83; St. Stithian's 82,

vs. King Edward's A and King Edward's B (Home),  
7th March, 1961.

About 130 boys took part in two separate matches at our bath. The events were swum alternately so that the matches could take place at the same time. The easy defeat of our A team tended to confuse the fact that the A teams were involved in a thrilling struggle that was only resolved in the penultimate relay King Edward's won eight to our six events but we managed to get several second and third places. By the end of the individual events we were only ten points behind, and we nearly snatched a victory by winning three out of five relays and almost winning a fourth which would have given us the match. As it happened, however, King Edward's won an exciting match by six points.

Although the B team match was more one-sided, it nevertheless produced several surprises, not the least of which was the effort of one of the King Edward's B relay teams, which led both the St. John's and King Edward's A teams for the first three legs of the relay, to the consternation of Mr. Ridgeway of King Edward's and the suspicious delight of the St. John's judges! The performances of swimmers such as Browne and Stewart in the B team was most encouraging for future matches, For the A team Allen was the best, with Gibb, Field, Southey, Walker, Paton and Bensusan swimming well.

Points: King Edward's A 60; St. John's A 54,

King Edward's B 80%; St. John's B 333%.

#### EDITORIAL

Much has already been written and said about the 21st Anniversary of the establishment of the Old Johannian Club at Linksfield. The Club generally, and in particular its Chairman, Mr. Peter Laxen, are to be congratulated on the splendid celebrations organised during 1960 and the equally splendid achievements of its many sporting sections.

In almost every branch of sport the teams have met with conspicuous success. The bowlers won the Ogilvie Cup competition for the first time in fourteen years; the senior hockey sides, both menâ\200\231s and womenâ\200\231s, topped their respective leagues, as also did the womenâ\200\231s 2nd XI; and the three squash teams gained first place in each of their competitions. More recently the senior cricket side has won both the Transvaal League and the Lionel Phillips League, while the 2nd XI has won one league and come second in the other. Old Johannians everywhere will feel proud of the clubâ\200\231s fine record in 1960-61.

It has been cheering to see that more members of the College and young Old Johannians are enrolling as members and taking part in its activities. Every encouragement is given them to do this, and to appreciate that the Old Johannian Club is in fact their club. The gradual strengthening of the bonds between the Association, the Club and the College during recent years has been a source of much pleasure and warm satisfaction to all who cherish their association with St. Johnâ\200\231s College.

## THE ANNUAL GENERAL MEETING

Proceedings of the Fifty-fourth Annual General Meeting of the Old Johannian Association held in the Club House, Club Street, Linksfield, Johannesburg, on Wednesday, the 29th day of March 1961, @i SOO i

## REPORT OF THE GOVERNING COMMITTEE AND CONSIDERATION OF THE AUDITED ACCOUNTS FOR THE YEAR ENDED 31st DECEMBER, 1960:

The Chairmah, Mr. E. W. Babb, presented the Report of the Governing Committee:

MEMBERSHIP: The total membership of the Association at December 31st, 1960, was 1,285, made up as follows:

Vice Presidents and Honorary Members ... .. 44  
LiferMembers =% %8 F SRE WA S8 V8. "o bl  
OrdinanyaMembersEs Sl Gt t 5wl e s e 530

1,285

New members during the year numbered 66. There were 4 resignations, 14 were struck off the roll for being more than 2 years in arrear with their subscriptions, and there were 10 deaths. In this connection I must particularly mention the tragic death of Mark Bell, a member of your Governing Committee. Will you all please stand for a few momentg in memory of those who have passed away in the year under review?

You will notice a pleasing increase in total membership which is due entirely to the co-operation we are receiving from the College. The boys are approached to join the Association before leaving, and the talks given to them, through the courtesy of the Headmaster, by the Chairmen of your Association, the Club, and the Foundation are obviously bearing fruit. The ties between the College, the Association and the Club are today stronger than they have ever been, and the sincere hope and wish of our Committee is that they will continue to grow closer.

FINANCE: The audited accounts for the year ended 31st December, 1960 are before you.

Mr. Hoar points out that for the first time, these accounts show a deficit, which amounts to Â£93 2s. 11d. This can largely be accounted for by the increase under the heading â\200\234Donations and Presentationsâ\200\235 which amounted to Â£225 compared with Â£67 the previous year. A large proportion of this sum was taken up by the Colour and Pike presented to the College Cadet Detachment at the Club on September 24th, which amounted to Â£147 5s. 11d. The new subscription rates which came into force at the beginning of 1961 should help the financial position during the current year.

## THE JOHANNIAN

GOVERNING COMMITTEE: There were seven Governing Committee meetings held, and attendances by members were as follows:

E. W. Babb, M. W. Carter, R. Macfarlane 7 meetings;  
A. M. Lawther, E. M. Brayshaw, E. F. Tobler 6 meetings;  
P. A. Laxen, J. W. Cullen, R. H. Mitchell, B. C. Mitchell, B. A. Silcock, D. H. Matthews 5 meetings; W. W. Macfarlane 4 meetings; H. R. V. Hoar, R. Gettliffe 3 meetings; M. A. Q. Bell 2 meetings.

At this stage, I would like to mention that Mr. Hoar, who has served the Association so well and willingly for 22-odd years as Hon. Treasurer, has indicated that he wishes to resign from this position; but being the man he is, he has offered to train an assistant to take over from him, and I am sure you will all give serious thought to this matter when later in tonight's proceedings you elect your Governing Committee for the ensuing year. We cannot express too deeply and sincerely our thanks to Mr. Hoar for what he has done for the Association over these many years. No task has been too much for him; the interest of the Association has been carefully and wilfully guarded by him, and his advice on all matters has been solid, sound and appreciated at all times. We are most sorry to lose him and are most grateful to him for serving the Association so well for so long.

BURSARY COMMITTEE: No new applications were received and the one bursary still in force was extended to the student for a further year on receipt of a good report from the Headmaster.

FUNCTIONS: The most important event of the year was the second Gaudy Weekend which was patterned on the experimental weekend held in 1959. Generally this was a success, but our big disappointment was the meagre support from Old Johannians who live outside the Reef.

Gaudy Day followed the usual pattern. The Second Master, our old friend Uncle Doug Jeffrey, deputised for the Headmaster who was away on long leave. There was a large attendance at the Ascension Day Mass and the singing of the Old Johannian Choir was very much appreciated. There are a large number of Old Johannians who give up a great deal of their time to, and derive much pleasure from, singing in this choir. Judging from the comments heard, Mr. Iverson undoubtedly does a wonderful job with the choir, and one wonders whether he finds Old Boys easier to deal with than School Boys!

When the membership generally is reviewed it is not surprising to find that there are now more Old Boys who want to take part in the hockey, tennis, squash and shooting matches against the school than can be accommodated on Gaudy Day, because all our new members are of the younger generation.

Will you, therefore, when you receive your circulars for Gaudy Weekend, which this year will follow much the same pattern as the past two years, please fill in the reply forms and return them as soon as possible after receipt. Experience has taught us that Old Johannians take a great deal for granted and expect the organizers to know they are going to take part, whereas it would be so much easier for the voluntary helpers if reply forms were filled in and returned.

After the Rugby matches and tea break, a portrait of the Rev. S. H. Clarke, Headmaster for 19 years, was unveiled by Mr. Entwistle, Chairman of the College Council, in Darragh Hall. Mr. Entwistle, in his witty and interesting speech, paid a warm tribute to the Rev. Clarke. This portrait by Neville Lewis, commissioned by the College Council, is outstanding and should be seen by any Old Boys visiting the College.

The Solemn Evensong Service was well attended and it was a pleasure to be in the school chapel with the boys themselves.

The sporting facilities of the Club were available on the Friday to those wishing to utilise them and a happy, though small, party enjoyed the braai in the evening.

The experiment of holding the annual golf tournament on the Saturday morning was a success. We enjoyed the courtesy of Glendower Golf Club for the tournament, and the Morrison Abel trophy was won by B. Buckley after a tie with O. C. Hills. There was also a tie for the better-ball stableford competition, eventually won by Hill and partner.

It was something of a rush to return to the Old Johannian Club for the tournament prize-giving, but the magnificent seafood lunch put up by the Club caterers made it well worth while, and there were many nodding heads at the College in the afternoon watching the match against Michaelhouse, which was extremely well attended, in spite of the counter attraction of the opening match of the All Black tour in Potchefstroom.

The Association's Annual Ball was held that night and again it was a most enjoyable and successful function.

Foundation members were invited to a special Mass on the Sunday morning at which the school choir sang. The Chapel was filled to capacity and the service was followed by the Annual General Meeting of the Foundation in big school.

Once again the committee is most grateful to the Ladies' Entertainment Committee for their excellent catering at the school functions over Gaudy Weekend. Mrs. Bate was the Chairman of the committee, and Mrs. Jooste acted for her while she was away. Incidentally, Mrs. Jooste's son is the Head of School this year, the first day boy to hold this position for many years.

## THE JOHANNIAN

The Annual Dinner was held on September 9th. The main speaker was Mr. H. S. Mabin, M.A., General Manager of the Association of Chambers of Commerce. Mr. J. J. Brossy proposed the toast of kindred Associations in an excellent speech, and the reply to this toast was given by Percy Levick, an Old Andrean, Mr. Jeffrey gave a full and interesting report on school activities. There were only approximately 60 present at the dinner, and for this reason it could not be regarded as a great success. Perhaps the fact that it coincided with the opening night of the school play accounted for the poor attendance, but your Committee will go into ways and means of making this year's dinner a more successful one. The Board's Head ceremony was as usual very well received and those taking part in it deserve our thanks.

During the year, Old Johannians played cricket, hockey and squash matches against the College, and a team played cricket against the Prep., presenting a bat to the boy putting up the best performance. Old Johannians Colin Mills, Kendal Jarvis and Nick Garwood have again given up their time to coach squash at school.

To digress for a moment, you will all be interested to know that Bruce Mitchell is now Assistant Secretary to the College Council and is coaching the boys who take cricket. These boys are surely most fortunate as there could not be a more happy choice. We will all want to wish Bruce every success in his new career at the college. Eric Thompson, who has done so much for this Association, retired as Administrative Secretary of the college during the year, and we wish him all the enjoyment he deserves in his retirement.

A successful dinner was held in London during the year. Anthony Beart, our new correspondent in London, has already arranged an informal gathering there at which eleven Old Johannians were present.

A cricket team visited Louis Trichardt, and a dinner with Old Johannians from the district was held while they were there.

THE JOHANNIAN: The magazine seems to get bigger and better with every issue. Mr. M. W. Carter, the Editor of the Old Johannian section, has done a great job in collecting and publishing information about the activities of Old Johannians. However, his task would be made much easier if you would all remember to pass on to him any information you may gather about Old Johannians and your own activities. He has been ably assisted by Mr. D. H. Matthews and now has Walter Macfarlane back to help, too. We are glad to have Walter back with us,

## THE JOHANNIAN

ACHIEVEMENTS: A number of Old Johannians were awarded scholarships during the year, among them being:

D. S. Wright (1947 - 1954):  
Anglo American Vocational Scholarship.

M. Rademeyer (1953 - 1958):  
Chamber of Mines Scholarship.  
J. N. Ridley (1953 - 1958):  
African Explosives Scholarship.

J. H. McDowell (1952 - 1959) :  
Vacuum Kariba Scholarship.

G. dl, lREeEs (1953 - 1959) :  
Anglo American Vocational Scholarship.

J. R. Tyrrell (1953 - 1959) :  
Federal Government Scholarship,

Also: A. J. Murray (1949 - 1960) ; P. L. Dickson (1949 - 1960) and R. H. Tarlton won American Field Service Scholarships. Among academic distinctions of some Old Johannians were those of S. H. Stewart (1949 - 1953), first place in the Commonwealth (outside Great Britain) in the final Chartered Institute of Secretaries examinations; M. A. Q. Bell (1947 - 1957) Gold Medal, first in Essay Competition, University of the Witwatersrand; B. McK. Torrance (1944 - 1951) Ph.D. (Physics), Pembroke College, Cambridge; Dr. J. V. O. Reid (1937 - 1943) B.A. (Oxon.), M.B.B.Ch. (Oxon.), M.R.C.P. (London), appointed Professor of Physiology, Faculty of Medicine, Natal University.

Malcolm Spence was selected to represent South Africa at the Olympic Games and his achievements and the example he sets are a source of great pride to Old Johannians.

OLD JOHANNIAN CLUB: The new lower field is not yet completed, but the Club Committee is going into ways and means of having this job done. The feeling is that, if the Club could have a Rugby ground and Old Jeds could play alternate matches at the Old Johannian and Old Edwardian Clubs, the Old Johannian interest in Old Jeds would become much stronger.

Half the top field has been grassed and this work will be completed during the year.

The Club arranged a number of functions during the year to celebrate the 21st anniversary of the move to Linksfield. The most important of these was the Cadet Display and Presentation of Colour Ceremony on September 24th, at which there was a large gathering. This was a significant occasion because for the first time Club members, Association members, members of the Foundation, and the College boys were brought together, It was a great success, and the boys really excelled themselves in the display they gave. We are grateful to the O.C, Witwatersrand Command for giving permission for the parade to be held

at the Club, and for his attendance at the function; to the Headmaster and Mr. Huggett for arranging it; to Mrs. Watkins Ball for designing the Colour, and to Eric Thompson for obtaining it; to the Club staff and all the voluntary helpers on that day, including the Ladies's Entertainment Committee for the excellent tea they provided and, last but not least, the Club Committee for their full support.

After tea Mr. Dekker, Mr. Grieveson and Mr. Laxon made short speeches at a ceremony to unveil the magnificent Honours Board erected in the Club entrance hall. You will notice this is as much an Old Johannian as a Club Honour Board.

Part of the Club's celebrations was a banquet held in November, and Association members were invited to this. The speakers were Professor Guy Butler and Mr. Deane Yates, whom we were happy to have back with us after his long leave. This was a most enjoyable function and the speeches were certainly thought-provoking.

The Club finances are reasonably satisfactory, although they show a loss for the year. Every effort is being made to improve the amenities and service it can provide.

On the sporting side, the Club has really had a remarkably successful and outstanding year. The 1st hockey team won the Transvaal League, and eight of the team were invited to the Transvaal trials. William Patrick, Paul Noake, Geoff. Morshead, John Oehly and Ken Solomon played for Transvaal. Jackie James was also selected, but could not play because of an injury. Copper Purdy was elected to the Executive of the Transvaal Hockey Association.

The women's hockey teams both won their leagues and the 1st team has been promoted to the Reserve League. The bowlers won the Hector Ogilvy Trophy for the first time. The squash teams did exceptionally well as the 1st, 2nd and 3rd teams all won their leagues. Brian Lefson played squash for Transvaal.

The 1st cricket team are to be congratulated on winning both the Lionel Phillips and Transvaal League competitions. The 2nd XI have won one league and were second in the other. The 3rd team won both leagues. Russell Endean was a natural selection for the Transvaal A team and Bill Wallers was, nearly as naturally, selected as 12th man. Mike Huddy and Owen Emslie both played for Transvaal B.

The Club was the main host to the visiting Romany Cricket Club from England. Brian Mitchell did a wonderful job in arranging this happy and successful tour.

This is a most impressive list of achievements, and the Club are to be heartily congratulated. Old Boys will see from this record that they have the opportunity of playing in the highest brackets of most forms of sport. Not only that, but they will find at the Club the true team spirit and the right approach to the games.

## THE JOHANNIAN

The Club has been smoothly run and managed, and I am sure you would all like to pay a tribute to the Club Chairman, Peter Laxen, for the success he has brought to all the Club's activities during the years.

In its many efforts to bring the Club, the Association, and the School as close together as possible, the Club Committee has decided to reduce the entrance fee for those Old Johannians who have been tardy in joining the Club (for seven years after leaving school they can join without payment of any entrance fee), and for Foundation members. In view of the reduced subscription rates for full-time students introduced last year, there is now surely no reason for any Old Johannian old or young, who wants to join a club, not becoming a member of the club at Linksfield.

ST. JOHN'S COLLEGE FOUNDATION : During the year, speaking in round figures, a further R8,000 has been pledged and the collections during the year amounted to R57,000, bringing the total collected to £235,000. Work is going on apace on the new science block and the southern portion of the new wing, which work is being financed from these funds. Mr. Cuckow is of course still active in collecting new pledges and chasing up payments on the old ones. Anyone wanting to contact him can do so at the College.

GENERAL: Once more we are most grateful to the Headmaster for his full support and encouragement to all Old Johannian affairs. During his absence we had the same support from the Second Master, Mr. Jeffrey, and would like to thank him.

Our thanks are particularly due to Mr. Flea Hoar, to whom I have already paid a tribute, and to Bob MacFarlane for the very able and efficient manner in which he has handled the Secretarial side of our Association.

Before closing, may I remind you of the very successful experiment started some months ago. Other than on occasions like this meeting, there are very few occasions when Old Johannians get together. Now they are invited to the Club on the first Friday of every month for the sole purpose of having a drink with other Old Johannians and meeting their old school friends. It is an expensive business to send out reminders, so please just come to the Club (and spread the word to other Old Johannians) on the first Friday of every month.

The Chairman then formally moved that the Report of the Governing Committee together with the audited Balance Sheet and Accounts, and the Accounts of the Bursary Fund, be approved and adopted. Mr. H. R. Hoar seconded the motion which was put to the Meeting and carried unanimously,

HEADMASTERâ\200\231S ADDRESS: In addressing the meeting the Headmaster referred to the 1961 Gaudy Day on May 11th, and said that he hoped as many Old Boys as possible would visit the new section of the Preparatory School. Considerable changes had taken place, particularly during the past few years, and he felt sure that these would be of interest to visitors to the school.

Development in the College was proceeding satisfactorily and it was hoped that portions of the new buildings would be on view on Ascension Thursday. Work on the new quadrangle would commence in the second half of this year. It had been agreed that a plaque, rather than a foundation stone, be placed in the new wing, commemorating members of the Foundation, and it was hoped that this plaque would be unveiled during 1962 Gaudy Weekend.

Plans were going ahead for the partial introduction of the four stream system at the school in 1962, and the Remove and Upper Fourth forms would be planned along these lines from next year.

The school had been giving a lot of attention to the requirements of the new matriculation examination which had been quite substantially altered. As a result of the increased pass mark it had become necessary to consider the introduction of changes in the curriculum, and the introduction of the School Leaving Certificate as an alternative to the matriculation examination. The School was also considering the introduction of Art and Greek as two optional subjects. These changes also necessitated the function of the Sixth Form being reviewed.

## THE JOHANNIAN

Mr. Deane Yates referred to the effect of recent political events, and indicated that the School would almost certainly now have to recruit all new staff in the Union, and that they were considering the prospects of recruiting from the school itself.

Work had commenced on the turfing of the wicket on the main cricket field, and it was hoped that the planting of turf on the entire field would be completed by the end of the third term.

The proceedings then terminated with a vote of thanks to the Chairman.

## NEWS OF OLD JOHANNIANS

### OBITUARIES

Norman Clive Beresford (1946-1954), younger son of Mr. and Mrs. N. R. St. John Beresford of Salisbury, died on the 13th July, 1960, in Johannesburg. He had suffered head injuries in a road accident near Messina three months earlier when he was returning home for his Easter vacation. Norman left St. John's when his parents settled in Salisbury and completed his schooling at Prince Edward School. Thereafter he joined the staff of the Rhodesia Herald as a news reporter.

At the time of his death he was studying science at Natal University, preparatory to enrolling as a medical student. As soon as he recovered sufficiently from his accident, he returned to his studies in Natal. :

Norman, who always retained a great affection for St. John's, will be missed greatly by his friends in the Federation and the Union. His high ideals, strong social conscience and desire to serve were shown abundantly in his short lifetime. While in Salisbury he assisted in the Operation Noah, which was responsible for rescuing stranded animals at Kariba, and he had been a prime mover among the young people of Salisbury in raising funds for the World Refugee Organisation.

To his parents and brothers, Garth (1945-1953), and David, we extend our heartfelt sympathy in their tragic loss.

Charles Harry Colin Robertson Stewart (1929-1936) died in the Royal Air Force Hospital, Nocton Hall, London, on the 11th October, 1960, after a short illness, and was buried at Hatfield Cemetery with full service honours.

Stewart left St. John's before reaching matriculation in order to pursue his lifelong enthusiasm for aeronautics.

He joined the Royal Air Force in March, 1943, and volunteered for aircrew duties as a flight engineer. He was awarded his flying badge in January, 1944, and flew on bomber operations as a member of No. 15 Squadron, R.A.F. On

## THE JOHANNIAN

completion of his war engagement he left the Royal Air Force in December, 1946, rejoined it in January, 1949, and was employed as a flight engineer with squadrons in the United Kingdom and the Middle East.

During the war he qualified for the following campaign medals as a result of his operational aircrew service â\200\224 the

Funeral of Colin Stewart.

1939-45 Star, the France and Germany Star, and the War Medal. During his post-war gservice in the Middle East, he gained the General Service Medal for his services in Palestine.

His Commander Officer, Group Captain L. D. Mavor, A.F.C.,, has written the following tribute to his memory. â\200\234I got to know Colin Stewart very well during the last two years of his service, when he served on the aircrew duties as a flight engineer under my command at this unit, the Bomber Command Bombing School. He flew with me on many occasions and I gained a very high regard for his steadiness, professional skill and whole-hearted devotion to duty. He impressed me as being in the finest tradition of non-commissioned aircrew officers in the Royal Air Force, and his loss was felt very keenly throughout this station. St. Johnâ\200\231s College may well be proud of him.â\200\235

To his young daughter, Jane â\200\224 his wife died a few years ago â\200\224 and to his parents, Mr. and Mrs. H. Stewart of Doncaster, we offer our deep sympathy in their bereavement,

## THE JOHANNIAN

Dr. Andrew Campbell Waitt (1923-1928) was killed in a motor accident in Johannesburg on the 17th October, 1960. Leaving St. John's in his early College days, he completed his schooling in Scotland. Thereafter he studied medicine at the University of Edinburgh, and, having qualified there, worked in various English hospitals for some years. During World War II he took part in the Normandy landings as neurologist to the neuro-surgical team.

After the war he returned to South Africa in 1948, was appointed a lecturer at the Witwatersrand University and held the position of neurologist in the Johannesburg General Hospital. His contribution towards his own branch of medicine has been so outstanding that a fund for postgraduate study in neurology or neuro-surgery is being established in his memory.

We extend our sincere sympathy to Mrs. Watt and her family in their sudden tragic loss. Their son Andrew is in the College at present,

Mark Ardington Quinton Bell (1946-1957). The death of Mark Bell on Sunday, 15th January, in a mountaineering accident, came as a most dreadful shock to us all, His interest and love of the mountains started when he was at school and developed so rapidly that early in his University life he formed the University Mountain

Chairman.  
nature that his life should  
be bold and adventurous  
he never knew anything  
but the exhilaration of  
being young and of looking  
forward to greater  
achievement,

His personal integrity .  
and his gifts of leadership |  
and intellectual competence  
enabled him to contribute  
greatly to the life of his  
school and his university.  
In 1956 he gained a first-class  
matriculation with distinction  
in Mathematics, Physical  
Science Latin and English.  
The following year he spent  
in the sixth form. As head-  
boy he was liked and Mark Bell.  
respected by both the staff  
and boys. He was captain of  
cricket and rugby, senior  
student officer in the cadets  
and on the committees of the  
debating, Scientific,  
pioneering and music societies.

## THE JOHANNIAN

On leaving St. John's, he was awarded a Vacuum Oil Company Open Scholarship to the Witwatersrand University and had just graduated, with a first-class science degree in geology, before his death. Apart from his chairmanship of the Mountain Club, he was on the Students' Representative Council and Chairman of the Non-European Students' Welfare Facilities Committee.

He had a great love for St. John's and was always interested in the growth and affairs of the College. He served on the Governing Committee of the Old Johannian Association and was a member of the Old Johannian Choir.

Notwithstanding his successes at St. John's and at university, he retained that simplicity which made him the man he was. He had the gift of unusual in the young of being genuinely interested in a great variety of people and of sympathising with and understanding them. He was liked by people because he liked them. His life of character and leadership, short though it was, made a tremendous impact on his own generation, and indeed on all who knew him.

To his mother, whose only child he was, and to his relations it is impossible to express what we feel for them; but with all our hearts, we hope they know that no such life could have been lived in vain.

Being perfected in a short time, he fulfilled long years; for his soul was pleasing to the LORD.

(Book of Wisdom, Chap. 4)

The death occurred on 10th February, 1961, of William Keppoch MacDonald (1912). He was returning to his home at Cowie's Hill from Maritzburg, when he collapsed and died at the wheel of his car. He was 58 years of age.

After leaving St. John's, Mr. MacDonald was educated at the Natal Technical College, Durban, where he was awarded a three-year scholarship in the engineering section and was a prize-winner in the College School of Commerce. On Christmas Day, 1939, he was married to Miss Thelma Whitcutt, to whom we offer our heartfelt sympathy in her grievous loss.

Mr. MacDonald contributed richly to musical, civic and Caledonian spheres in Natal. He was a retired professor of music, and added a formidable row of initials to his name IESRNARN ISR HIN IR CGATERS AN NV TS AR OSSR S VAW o 6 S TR AL, The first singer in Natal to be made a Fellow of the Trinity College of Music, an adjudicator at Eisteddfodau, and the Chairman and Treasurer of the South African Society of Music Teachers, he was also a member of the advisory committee of the Durban centre of the S.A.B.C.

He had been a Town Councillor of Pinetown and its Mayor in 1955-1956. For many years he took the lead in the Caledonian movement and was at one time Chieftain of the Natal Province of the Federated Caledonian Society of Southern Africa.

## UNION OF SOUTH AFRICA

TRANSVAAL: H. C. Kuiper (1937-1941) who is the managing director of South African Associated Newspapers, was recently elected chairman of the South African Press Association.

B. M. Torrance (1944-1951) recently obtained a Doctorate of Philosophy at Cambridge University and is now working in Johannesburg. His brother, J. D. Torrance (1945-1954), who holds a B.Sc. (Hons.) Mechanical Engineering was awarded the Total Oil post-graduate scholarship for 1961 and is at present in Paris.

P. H. Stafford (1946-1954), who qualified B.A., Ll.B. last December, works for Bowen, Sessel and Goudvis, a firm of solicitors in Johannesburg.

D. B. Gettliffe (1919-1929) was recently elected to the board of Luipaards Vlei and Sub Nigel, while RB. 4. Hope (1935-1941) has been appointed a director of Apex Mines and has been elected to the board at F.S. Saaiplaas Gold Mine.

W. R. Lawrie (1933-1941) is underground manager at Vaal Reefs, while P. S. Turner (1928-1938) is Mining Engineer at Daggafontein Mine.

J. W. Miller (1913-1923) works for Hayne and Gibson, and has a grandson who is coming to St. John's in the near future.

M. W. King (1948-1954) is the Department Manager of Union Acceptances.

R. J. Hyslop (1937-1944), who is married and has three sons, recently left for London for six months where he will write his final F.R.C.S.

J. L. Goedhals (1941-1942) is at present the manager, Statistics Department, of International Business Machines, Johannesburg branch.

P. K. Jarvis (1942-1953) represented the Transvaal at squash against Natal during 1960.

## THE JOHANNIAN

D. B. Wilkinson (1942-1951) and H. J. Bennett (1946-1956) last year completed a Teaching Diploma course at the Johannesburg College of Education. The former is now teaching at Mr. Dodson's School, St. Peters, which was recently taken over by the diocese of Johannesburg, and the latter is working at Bryanston Government School.

C. R. Harrison (1937-1947) has been studying medicine for several years in England where he specialised in Gynaecology. He is now working in the Jane Furze Memorial Hospital in the Eastern Transvaal. He is married and has two children.

NORTHERN TRANSVAAL: J. D. Skinner (1939-1949), who for several years has been the Old Johannian representative in the Northern Transvaal, has had unfortunately to relinquish his post. What the Association owes to John is impossible to calculate, but a glance at back numbers of the Johannian will show how many and how varied were the activities he organised for Old Johannians in his area. There is as yet no replacement for this area but it is hoped that by the time the next Foundation Newsletter goes out, the name of our new representative will be announced.

CAPE: R. V. Gillies-Baker (1934-1942) is farming in Jonkershoek, near Stellenbosch.

J. A. Lawther (1934-1943) visited Johannesburg recently and was able to attend the Annual Athletic Sports at the College.

NATAL: Mr. Justice A. F. Williamson (1908-1916), after a distinguished career on the Bench of the Transvaal Provincial Division of the Supreme Court, was recently appointed Judge-President of the Supreme Court in Natal.

Dr. B. R. Munro (1941-1951) qualified at U.C.T. in 1959 and is now houseman at Edendale Hospital in Pietermaritzburg. He is married and has one daughter.

Archdeacon W. L. Wellington (1928-1933) is now Archdeacon for Northern Natal and lives at Estcourt. His church is a prominent landmark in the town and he will be glad to see any Old Boys who happen to be passing through.

## OVERSEAS

GREAT BRITAIN: There have been a number of changes of representatives in Britain. P. L. de la Harpe (1944-1948) relinquished the post of Old Johannian representative in the middle of 1960. R. J. Harris (1942-1952) took over the post, after C. R. Formby (1940-1951) had acted as representative for a few months in order to organise a most successful dinner. Scarcely had Harris taken over his duties, however, when he was sent by his firm, Dunlop Ltd., to Eire where he is still working. Fortunately A. C. S. Beart (1947-1957) offered to take on the job and is at present our new London representative.

Already he has done a considerable amount of work to bring Old Johannians together in informal gatherings. This is often a disheartening task; for although there are frequently as many as 130 Old Boys in or near London, very few reply to circulars or manage to attend the functions. At the moment Beart is trying to arrange informal get togethers once a month. The first meeting was supported by eleven Old Johannians and the second by only five. It is to be hoped that Old Johannians will make an effort to make these functions more successful in the future.

There was a slightly more gratifying response to the request for news as a number of letters were received giving news of Old Johannians of whom little has been heard for some years.

T. de T. MacDonald (1933-1938) writes as follows: I joined the R.A.F. through a cadetship at the R.A.F. College, Granwell in 1939. Following serious injury in Bomber Command during the war, my active flying career was curtailed, but I nevertheless remained in the R.A.F. as an armament specialist of the Technical branch. Since 1945 my duties have taken me to most parts of the UK. and to India, Ceylon, Malta and Malaya. At present I am a Technical Staff Officer at H.Q. Bomber Command but in October I expect to take up another staff post in the Middle East.

P. A. Lindley (1940-1946) writes: I have been resident in England since 1949. Until 1952 I was at Imperial College, London, taking an engineering degree. I went to the U.S.A. for a year's post-graduate training with Allis-Chalmers and joined the General Electric Company at Erith, Kent, on my return to England. Since 1955 I have been in their Atomic Energy Division. I was married in 1953 and have three children, two girls and a boy.

R. W. Hendry (1952-1956) writes to say that he is in his third year civil engineering at Heriot Watt College, Edinburgh. Last summer he undertook a canoeing trip down the Caledonian Canal from Inverness to Fort William, a distance of about sixty miles. His brother D. R. Hendry (1950-1956) accompanied him on this trip. J. D. Cairns (1946-1954) is also at Heriot Watt College doing mining engineering, and recently worked in Canada during his vacation.

A. P. Alexander (1941-1944) settled in England about eighteen months ago and is living in Leamington Spa with his wife and three children. He is on the executive staff of a group of companies which is engaged in the manufacture and distribution of machine tools.

E. T. Brady (1924-1929) has lived in Ulster since 1933. He writes: I founded my own weekly newspaper in 1939 in the market town of Rathfriland, and it has prospered reasonably well, though the war years were tough. During them I served as Adjutant in the Ulster Home Guard. I married an Irish

girl and have a family of five. I take an interest in local public affairs and have been a member of the Rural District Council for eighteen years and vice-chairman for seven years. I am also a member of the Mid-Regional Waterworks Board and a member of the Northern Ireland Committee of the British Waterworks Association. I am also on the governing committee of Newry Grammar School. I have broadcast a few times over the N.I. service of the B.B.C., and in my spare time I write plays, one of which was recently performed by our local Amateur Company.

R. G. Shinn (1944-1956) gives news of several Old Johannians: D. C. Lindsay (1944-1954) has been with Volkswagen in Germany; N. Walker (1947-1953) is at a mining college in the West Country and R. Hartley (1944-1955) is working for Carburol in London, Shinn, who is a Chemical Engineer, is doing a part-time B.Sc. Economics course with London University and hopes to go to America when he has completed the course.

W. R. Kwaan (1943-1951) is now working as development engineer with Standard Telephones and Cables Ltd. at the Transmission Division in North Woolwich. At the moment he is engaged on a project in the microwave department for the Swedish Postal Authority.

H. A. Benson (1915-1920) writes that he is a senior partner in Cooper Brothers and Co., chartered accountants in the United Kingdom and overseas. He is a member of the Council of the Institute of Chartered Accountants in England and Wales, deputy-governor of the Hudson's Bay Company and a member of the board of The Finance Corporation for Industry Limited.

Dr. M. P. Nightingale (1922-1926) has a practice in Lynton, North Devon, which includes a sparsely populated part of Exmore. He has occasional visits from Father XKenneth Maclachlan of the Community of the Resurrection, who was his Housemaster when he first went to St. John's.

M. R. Kenward (1954-1960) left St. John's at the end of 1960 to return to England with his family, He writes: "The school I attend is very different from St. John's. It is a tutorial college and the idea is that I cram for my General Certificate of Education which I am taking in June. Naturally there is no sport at school and so I have joined a squash club and have also tried for a rugby club as well." Kenward is now living at Putney Hill, London.

J. L. Bradney (1951-1956), D. J. Thwaite (1945-1956) and N. V. Madsen (1947-1956) recently undertook an extensive tour of the continent and are now working in London. Thwaite is working as a salesman in a Knightsbridge store while Bradney is working for a firm of accountants and is doing a part-time course in agriculture. Madsen is going up to Lincoln College, Oxford in October.
