At our Kenya University we are anticipating close to 1000 presidents and spouses who will be coming to gain a greater insight into the issues of Africa;

It is my understanding that you are scheduled to be in New York in January. I am tentatively scheduled to be there at that time and would very much appreciate the opportunity to meet with you to discuss in more detail the opportunities of this University.  
I have some thoughts that we have about the impact that you could have on our organization, and through it, have your message communicated to some very strategic centers of influence.

At that meeting I would like to share with

Dear Oliver,

On behalf of the BDAF Council I am writing to invite you to deliver the Canon Collins Memorial Lecture at an agreed date in 1987, preferably in the first half of the year.

In extending this invitation I have to report that Council members were very conscious of the heavy pressures on your time. They all hope very much that you may be able to fit it in and would be honoured were you able to do so.

we plan to hold it at the Royal Institute of International Affairs to an invited audience and, subject to your agreement, subsequently would wish to print the text of your lecture. enclosed a copy of the text of Basil Davidson's lecture which has been widely distributed and remains much in demand.)

I look forward to hearing from you about this and hope you might be able to propose a date. we would obviously need to know about six weeks to two months in advance to allow US time to print and distribute invitations. Hall bookings need a little longer so it would be good if we could have a date as far in advance as possible. However, if you felt that time and other pressures would make it impossible for you to respond to this invitation, Council members thought that you may wish to delegate the task and either Thabo Mbeki or Pallo Jordan were suggested.

We all hope that you may find it possible to accept.

I am taking the opportunity to enclose a few samples of the
