Dear Cde Steve,

The Tanzanian Embassy in Stockholm have returned your Certificate of Identity informing that they are unable to renew it for a second time and it must be sent to Dar es Salaam for such purpose.

I have contacted the Foreigner's Office here in Helsinki and they advise that you go to your local Police Station to explain the matter. Through them you will be able to obtain some form of documentation which could act as identification while awaiting renewal of your Tanzanian document.

In the meantime I will send your Certificate of Identity to Dar es Salaam and enclose a copy for you to take to the Police. Explain to them that past experience indicates the renewal process in Tanzania could take at least six months.

Please contact me if further clarification is required. Also take this letter with you when going to the Police.

Regards,

Mohamed Hussein
Representative of the ANC to Finland.
