Cde. Julius Madiba

Zambia.

Dear Cde.

I have recently had a discussion with your son Michael, who is a Form 111 student here in SOMAFCO. He has expressed a deep longing to hear from you, especially about the state of his mother's health. He told me that the last he heard anything from about her was when he was informed that she had undergone an operation in a hospital in Zimbabwe. He asked me to help in contacting you to find out more about her.

I think a letter from you would go a long way in calming him and, needless to say, would also act as a morale booster, especially at this time of the year when the minds of our students are geared towards the examinations.

Please Cde. do try to write to him as soon as possible.

I remain,

yours in the Struggle
