4th March 1982

Dear Comrade Ismail,

Thanks for your little note. The golf ball I received months after you had sent it. Ta. However, this golf ball seems to have the letters in unconventional positions. For instance, 'A' is not in the position it usually is. I think that when I press the 'A' key, I get an 'S'. Do I make myself clear? I hope so. I am therefore returning this funny golf ball and hopefully you will be able to replace it. I don't want a 12 as I have that.

Thanks for all the notes you sent. It make matters so much easier for following up. As a matter of fact we have already dealt with all matters arising.

I had better sign off as the ribbon in this machine is twisted.

Give my regards to Suraya and Charlie.

Regards

DULCIE
