It is doubtful whether our South African roads will ever take kindly to milestones such as are commonly to be seen beside the high roads of England or the Continent. If they were to be in vogue, no doubt the new main road that laps the further side of the railway line would now be considered sufficiently stable to reckon 1+s 80 odd miles to Durban not far from our gates.

## S. MICHAEL'S CHRONICLE

3

The truth is that we travel too fast now-a-days for miles to count for very much, and so we are beginning to think more and more of other milestones, those along the high road of time. Almost every day marks the centenary celebration of this great man or that great cause. Clearly a year such as this is especially in point, since it marks His Majesty's Silver Jubilee and also that of the Union of South Africa.

Sovereigns have not very often celebrated their Silver Jubilees, because so personal a thing stands much under the hand of Fortune. An institution or nation, such as the Union of South Africa, can, in the very nature of things, only do so once in its long lifetime, and must always at such a time be a little self-conscious 011 account of its youth. However, it is perhaps true to say that never before has a nation at her twenty-fifth birthday stood so high in the opinion of the rest of the world, or rejoiced for so many real blessings, derived 110 less from her innate mettle and good sense than from inherent gold and good fortune.

But we have milestones of another sort. ]Not for us the stone by the high road or the stone of Jubilee: for us the stone of the hillside shaped and fashioned and laid for the foundations of new buildings-stones over which the full variety of school life has already in part begun, for the new West wing is now in occupation and the new Farfield is well above ground. Perhaps "variety" is the word to describe most aptly the new buildings, because there are symbols and signs there of more than a mere humdrum school existence-House Prefects' rooms, House Common Rooms, and communal wardrobes that speak of a more intelligent, social, and in fact civilized life than the past has made possible.

Before long, too, there will be further milestones we hope-the immediate one of "forty years old" which presumably will be marked in some way, and the more remote, though not invisible, one of the new Chapel.

So Volume VII of our Chronicle appears, not as a milestone only, but a signpost pointing us 011 to all that the future holds in store.

### SCHOOL NOTES.

We welcome to the School the following<sup>1</sup> who joined us at the beginning of the year:

The Rev. C. E. Birks, who has come out from England to share the duties of Chaplain. He is an enthusiast at Hockey and is said to be as fast on the road as on the field.

Mr. H. A. Brown, also out from England, who graces equally both the Rugby and Hockey fields. Already his "model centres" in the latter game have practically become the wonder of the Southern Hemisphere.

Mr. H. J. Gildenhuys, who comes to us from Stellenbosch, and is, as one would expect, an expert at Rugby.

Mr. W. Salter, out from England, who is very keen on shooting, and has revived interest in the long range which has been rather overlooked lately. He is also taking in hand the electrical re-equipment of the stage, and is most illuminating on the subject of phases.

Mr. R. H. S. South who has come out to take Mr. Lister Wood's place as Director of Music. Mr. South is a brilliant pianist and has already done much to demonstrate the beauty and value of good music, whether classical or modern.

Mr. D. J. M. Barton who has come to us from the JNF.U.C. as a temporary appointment.

Mr. Pridmore is enjoying six months' leave in Europe and is spending part of the time in touring on the Continent.

We were very sorry to say goodbye to Mr. and Mrs. Lister Wood when they left for England at the end of last year.

We congratulate the Rev. and Mrs. P. C. Cazalet on the birth of their son, born on 11 January 30th.

Congratulations to N. N. Franklin on being the first Old Boy to be awarded an Elsie Ballot Scholarship.

We congratulate Foundation West on their new home.

## S. MICHAEL'S CHRONICLE

We congratulate Farfield 011 their new foundations.

We congratulate Tatham House 011 their splendid start, being runners-up in the Swimming Sports and House Drill Competition.

We extend our sincere sympathy to Mrs. F. S. Tatham and her family 011 the death of our great benefactor, Colonel Tatham, of whom an obituary appears elsewhere.

The School has lost a very old friend by the death of Mr. Walter Jaffray. To his relatives, and especially Miss Jaffray who made it her glad duty to look after him, we offer our sincere sympathy.

On May 6th His Majesty's Silver Jubilee was duly celebrated by a Thanksgiving Service in Chapel and a whole holiday.

As will be seen elsewhere, the Chapel Building Fund is now definitely "011 the map," parents in several cases having made generous offerings towards it as their sons have left School to go out into the world.

The new water supply which has its origin from a dam in Alexandra Bush and thence passes to a circular reservoir 011 S. Michael's Mount, has now been in full working order for some months. The most obvious effect has been to enable the Swimming Bath to be emptied and filled more frequently and more quickly.

Concrete Mixer No. 1 (Public Enemy from the class room point of view) has now gone to "jar against Nature's chime and with harsh din" fever the Sanatorium cases. If their recovery is thus sufficiently delayed they may perhaps become inmates of the new wing that is so rapidly rising alongside the old building.

The old "Colts' Ground," between the old miniature range and the Oval is having its equanimity disturbed that it may seek new levels. When the process is completed it will be "another storey" to the terraces 011 which we play our games. At present it is more like a Mappin terrace with a gang of natives playing bears 011 it.

The Colts now play Cricket in-or is it 011?-the Punchbowl.

## S. MICHAEL'S CHRONICLE

The Bungalow is undergoing<sup>1</sup> serious surgical treatment involving amputations which are eventually expected to prove fatal. "But airy essence soon unites again" and it may be that, like Ephrata, some limbo will be found where it yet may raise its head. It will be remembered that the Bungalow underwent a course of extensive treatment a couple of years ago before it became a "home from home" for Farfield.

The fact that the New Wing is now occupied by Foundation West has made possible, and in fact necessary, this removal of one of our more primitive buildings, "unhouseled, disappointed, unaneled."

## IN MEMORIAM

### FREDERIC SPENCE TATHAM

(Foundation Governor and FeNow Associate of Michaelhouse)

Just as the last number of the Chronicle went to press, news was received of the death of Judge Tatham at Parkside, his old home in Pietermaritzburg. The School was represented at the funeral by the Rector, the Senior Master, House Masters and the School Prefects.

When one day the history of Michaelhouse and its first beginnings comes to be written, three names will be found inscribed *cere perennius*. The vision-so far in advance of his day-of James Cameron Todd; the faith and the wisdom of Frederick Baines, still happily with us; the ardent generous spirit of Frederic Tatham; these are the foundation stones on which Michaelhouse has been built.

Judge Tatham's active connection with the School dates from the troubled months preceding the outbreak of the War in 1899. The moment had come when Canon Todd's venture of faith in the three little cottages in

Loop Street had either to be placed on broader foundations, or to remain an interesting\* but unimportant departure in the educational development of South Africa. The burden which the Founder had for three years borne single-handed had now to be shared with others, and Frederic Tatham was the moving spirit amongst the generous little band who formed the Foundation Governors of Michaelhouse.

But the development that was now necessary and the move to Balgowan which this involved-a hazardous enterprise even under favourable conditions-was rendered all but impossible by the declaration of War in October. Within a few weeks of the start of hostilities Captain Tatham, as he then was, was with the beleagured troops shut up in Ladysmith; and the writer of this notice was privileged to hear recently from Bishop Hamilton Baynes himself, of how the arrangements for the new building were discussed by heliograph between the Bishop south of the Tugela and the Foundation Governor in the besieged town.

However Ladysmith, in rather more than due course, was relieved, and in the face of difficulties that would have daunted any but the stoutest hearts, the building was begun and the first stage of it completed. In 1901 the Migration became possible. From that day to the moment of his death Judge Tatham took an ever increasing interest in the School, and Michaelhouse filled an ever bigger place in his large affections. No school is without its moments of crisis, and of these Michaelhouse has had its share, and it was on these occasions that the clear-eyed courage and the burning faith of Frederic Tatham and of Bishop Baines shone out undimmed, and saved things. Whether in large questions of policy and finance, or in the details of garden planting and domestic economy, the same generous, eager, self-forgetting\* devotion was there, willing and anxious to spend itself in the service of the School he loved so well.

This is not the place to speak of the sacrifice which another and greater War demanded of the Judge and Mrs. Tatham. To the father and mother of Errol and Inglis Tatham, Michaelhouse became henceforward the hallowed shrine where the memory of these brave young lives shines forth as brightly as the lamps at the gateway which bear their names. That Frederic Tatham, a

## S. MICHAEL'S CHRONICLE

Colonel now, himself took the field again, in his country's hour of need, goes without saying. His services were recognised in the award of the Distinguished Service Order and another arduous chapter was added to this life of many-sided activity.

When he retired from the Bench, and Natal ceased to be his permanent home, in the middle of 1931, the Judge almost to the dismay of his colleagues felt that it was his duty to retire from active membership of the Board of Governors. To mark this milestone in the School's history he and Mrs. Tatham were formally received *Ad Portas*, and two years later he was elected a Fellow Associate of Michaelhouse.

To Frederic Tatham much was given, both in his public career and in his private life. But whatever came to him, of fame or wealth or happiness, was always regarded as a solemn trust to be offered and used in the service of God and man, and he who had received so richly gave more richly yet. In his eyes Michaelhouse was always a home and training ground of Christian gentlemen; in him Michaelhouse and South Africa have been privileged to see, as men are not often privileged to see, a great Christian gentleman.

*Requiescat in Pace.*

### ENTERTAINMENTS.

October 27th.-Entertainment by the Physical

Culture Club. Sergt. Bultitude produced a very jolly and original form of evening's amusement by showing us his gymnasts in light vein. A great deal of skill was apparent behind the antics of the performers, several of the items being "straight" pieces of gymnastic display. Mr. R. F. innis gave two most popular tunes on the banjo. The evening concluded with a little comic sketch.

Programme:-

1. Chair Tricks. A sensational " after dinner" recreation.
2. Companion Grouping. A simple but most effective training for the mentally defective.
3. Musical Item by R. Finnis, Esq.
4. Human Tableaux. An ancient form of Gymnastics. Develops strength, agility, courage and steady nerves.
5. Parallel Bars. A very popular piece of apparatus.

## S. MICHAEL'S CHRONICLE

November 10th.-Recital by Mr. R. A. Marwick.

Mr. Marwick is a very old friend, and we are always delighted to see him. He was in exceptionally good form on the present occasion and told his stories and sang his songs with great gusto. His studies of native life, in particular, seemed to appeal, whether it was the native and the aeroplane, or the old woman embroiling the Crested Mamba.

November 24th.-Three one-act Plays by the Dramatic Society. Mr. D. Pennington enlisted the aid of the Lower Y Forms to produce an excellent evening's entertainment. The plays, in each case, were full of action, with more than a touch of melodrama in "Shivering Shocks." Some surprising evidences of individual talent were forthcoming. The honours of the evening undoubtedly went to Allanson, whose sketch of the dreary but imperturbable waiter was masterly. He showed a rare gift of comedy, which set the farcical pace for "The Crimson Coconut." The remainder of the cast played up well and the play went with great gusto.

The second play, "Shivering Shocks," appeared rather mixed. The audience had to work hard checking off the ingredients in the order of their appearance. Nicholls, as the crippled hero, was good. Orbell did very well as the inventor, though he spoke rather too fast. Chaplin put in a good piece of work as Inspector James Pollock in disguise.

In "Snobs" one could see at once the reason why our School plays tend to be of the blood and thunder order. The average boy at school finds it immensely difficult to appear as a convincing "grown-up," and to represent the manners and customs of society. In consequence, this play, which was easily the least melodramatic, seemed to hang fire somewhat in spite of the fact that individually the acting was as good as anything seen earlier in the evening. One felt that practically everyone in the cast was regretting that he had not been given more to do. Bond did very well as Mrs. Bradbury, and Pooke was good as the erring Lord Savile. Bennett had something of the rigidity of a butler, though he should have given (or been given) notice for the cuffs he was attempting to wear.

Altogether this was a very pleasant evening's entertainment, considerably above the average of Lower Y performance, and Mr. D. Pennington is to be congratulated, as usual, on his painstaking and detailed production.

"SHIVERING SHOCKS."

A Play for Boys by Clemence Dane.

Author's Note.-This playlet was written at the request of a dramatic society of schoolboys. They provided the plot, or rather the ingredients. They demanded: A hero crippled in the War, crooks, an inventor, at least two stage-fights, pistols if possible, a detective, 110 women or love-making, a drunken man who stammers. In endeavouring to satisfy these serious requirements the following "tremendous trifle" came into being.

Characters (in order of their appearance):

Captain Dallas, V.C., D.S.O. ... D. .H- Nicholls

Kysh (his servant) ..... A. M. Davidson

Granville Hughes, B.Sc. (an inventor)

Selley, C. -J. Skelton.

December 9th.-An interesting lecture was given by Mr. Hunt Holley on "Soil Erosion." As this is one of the most important subjects with which South African agriculture has to reckon, a clear exposition of the situation by such an expert was a welcome and valuable experience.

March 2nd, 19-35.-16 mm. Cinematograph Entertainment by Mr. Cazalet. The programme consisted of views of some Natal waterfalls-Ilowick, Karkloof, and the Albert Falls-followed by a topical film showing slow motion pictures of a Rugby match, of R. M. N. Tisdall hurdling, throwing the discus, putting the weight, etc., and of the drill display given on Speech Day, 1933. Prince George's quarter of an hour on Balgown Station was also illustrated. The second film shown included some shots of the Natal National Park and was followed by two short professional films, one on the life of the Ant and the other showing the Niagara Falls in Winter.

March 9th.-Dr. Edgar Brookes gave a most interesting lecture on "Some Aspects of the Native Problem." It was a very valuable experience to have such an expert as Dr. Brookes enlighten our minds with regard to Native problems. He dealt with such fallacies as that of regarding all natives alike and of considering segregation as a possible solution to diffi-

culties. There is no doubt that many of his hearers received a new insight into Native affairs as the result of his visit.

March 12th.-Mr. Lionel Curtis, who was travelling with the Imperial Press Conference, gave the School an inspiring address on "The British Commonwealth of Nations." Mr. Curtis, during the course of his speech, traced briefly man's history from the very beginning of his existence up till the present day. He showed how man had won control over the sea and the sky and the other forces. It only remained, went on Mr. Curtis, for man to take control of himself and his fellow-men. A balanced and peaceful world could not be obtained until all men agreed to work in unity for the common welfare; or, in other words, until a world commonwealth could be formed. When that day dawned, concluded Mr. Curtis, the world would be a pleasant and peaceful place.

March 30th.-The Victoria Players. These old friends, appearing under a new name, delighted us as much as they have ever done. They gave us, as usual, the cheeriest show we have seen for a long time-perhaps since they were last with us. It was all very foolish and very funny, and one hopes and suspects they themselves enjoyed it all almost as much as we did.

April 6th.-Lecture by Mr. Barnett Potter on "Soviet Russia." We were most interested to have the Editor of "The Natal Witness" address us on a subject of which he has so much first-hand information. He described conditions in Soviet Russia as he and his wife found them in a recent tour of the country. He emphasised the size, and variety of conditions, in Russia, describing the efforts made by the I.T.S.S.R. to industrialize itself, and the surprisingly large measure of its success. Though one sometimes wondered whether one was not listening to a modernized version of the building of the Tower of Babel, the impression Mr. Barnett Potter left was that Russia had lost nothing of importance since the Revolution and had gained immensely in many directions.

April 13th.-Concert arranged by Mr. R. H. S. South. This was a most enjoyable concert, each of the four performers contributing greatly to the success of the whole. It would therefore be invidious to select indi-

automatically became a Committee member 011 resigning  
his post as Honorary Secretary and Treasurer; Ushers,  
N. M. Phillips, M. C. El. Bennett; Reporter, L. D.  
Pickles.

Owing to the sudden departure of F. R. D. Struben

the post of Vice-Chairman was left vacant. I. R. R. Pryde was subsequently elected in his place. B. B. Burnett was then elected a member of the Committee.

Owing to the departure of Mr. Osier at the end of this quarter it has been decided to hold a farewell dinner to him. He will be an irreparable loss to the Society, for which he has done a great deal.

The debates this quarter have all been very interesting and the fixture card promises us a very successful session.

## S. MICHAEL'S CIIRONICIE

## NATURAL SCIENCE SOCIETY.

The year has started well. With the increase in numbers of members of the School, and consequent large influx of new boys, the Society also has gained in membership very markedly.

Several keen naturalists of some experience have joined us, and many others with incipient enthusiasm are in evidence, giving promise of valuable work being accomplished in the near future.

So great indeed are our numbers now that the Society has had to be divided into two main grades, those who already know their interests and are carrying out active organised work thereon, and those who are mildly interested in general but are not yet concentrating on any one or two subjects. These latter nibble round the baits offered by our many branches of activities and some of them will, it is hoped, gradually concentrate on some definite interest. The intention is that they should then get to work seriously, and so become Full Members of the Society.

The notable achievement of the last quarter was the discovery of a site on Mr. Webster's farm, only some four miles from the School, which is giving large numbers of artefacts made by prehistoric man. Their age, and the "Culture" to which they belong, have not yet been established definitely, but each week brings more and more to light, so we should have a very representative collection by the end of the year. Organised excavation work 011 the site is in full swing. We take this opportunity of extending to Mr. Webster our very sincere thanks for his permission to "dig" the site, and our appreciation of his own interest therein and many kindnesses extended to us.

The interest awakened by the concrete results obtained 011 "Webster's" has also resulted in other finds elsewhere around us, some of which are proving very baffling and intriguing. A "factory-site" of an early Smithfield industry exists about a mile to the west of the School, and we are trying to locate it exactly. From it we have many tools and much "factory-debris," but subsequent road and railway operations have complicated matters, and the problem is by no means an easy one.

Isolated artefacts have also been found on "Hurst's" and "Rouillard's," but as yet 110 industry sites. These

various finds may quite possibly prove to be of the highest archaeological importance. We again tender our thanks to those landowners around us who permit us to roam so freely over their farms. If our efforts bear fruit as we hope, they may well also be conferring a signal service to Science by enabling us to advance the knowledge of the past in this country. As, until the be ginning of this year, nothing had been found here, and Archaeology was merely "one of those ghastly Latin (sic) names," the wave of interest in it is worthy of record, and we hope may lay the foundation, at any rate in a few, of permanent interest throughout their lives in a subject singularly neglected in Natal, where evidently so much material of interest lies awaiting discovery.

The importance of this work scientifically makes all the more regrettable the past closing to us of one or two farms in our neighbourhood, on the grounds, we believe, of past sins of which we feel no present members of our Society would be guilty. We continually impress 011 all our members the constant care they must exercise in good camping and respect for property, and believe they make every effort to live up to that.

Bird observations are being carried out more accurately and scientifically. The Museum is compiling a record of all species definitely identified within a ten-mile radius of the School. A reference collection is also being formed, this is essential for the working out correctly of observations made in the field.

The School has provided a small new cabinet for birds' eggs. Although we do not permit any private collections to be made locally, we realise the necessity for the Museum having a good collection for study purposes. Of course, only clutches with full data are now accepted, as there is 110 scientific value in exhibits about which nothing is known.

Our entomologists work along quietly 011 their own. Unfortunately our appeal for cabinets for display purposes has fallen apparently on deaf ears, as not one has yet been offered us. Collections of insects for the Museum have therefore had to be suspended, withli a consequent impossibility of educational exhibits. This is deplorable in a country like the Union, where agriculturally the "Insect Menace" is ever with us. And

## S. MICHAEL'S CHRONICLE

it is noticeable that hardly a boy coming here has even the faintest knowledge of insects and the parts they play economically. Without cabinets in which to display study-collections we can do little to remedy this. (A twenty-drawer cabinet costs roughly <£30. Will not one or two benefactors come to our aid? \ e can do all

the ordering.)

The Museum has been set on its feet by the construction of wall-showcases for general exhibits. The School has also provided a grant for the inevitable small necessities of working material. As we can now display them satisfactorily, gifts of various specimens are coming in, but owing to our limited accommodation and resources we must at present confine ourselves to "Africana," except in very special cases.

## LITERARY SOCIETY.

At the election of officers, A. H. Cross was elected Chairman and B. B. Burnett Honorary Secretary and Treasurer.

The Society was limited to fifteen members.

Three plays were read during the course of the quarter: Galsworthy's "Strife," Barrie's "Shall We Join the Ladies," and "Barbara's Wedding."

On the 17th of March, Cross read a paper on Edgar Allan Poe, which was followed by the reading of one of his best short stories.

On the 24th March the Society was entertained by Mr. Hugh Bryan, who gave an interesting and amusing talk.

A combined paper on Hilaire Belloc was read on the 14th April, Young i, Pickles i, Webber i and Theunissen taking various parts of his works. Mr. Cazalet and Mr. Osier then read examples of his poetry and prose.

There was a decided tendency to falling off, and in some cases resigning, of those who had joined what they thought would be a weekly source of food and drink.

### PHOTOGRAPHIC SOCIETY.

The Society so far this year has been busy, and there has been a general re-awakening\* of photographic interest.

At a meeting held on the 11th February the following office-bearers were elected: Secretary, L. D. Pickles; Treasurer, G. B. Leeds; Committee, C. J. Peycke, E. R. Dixon, L. D. Pickles, J. Warner.

At a meeting held on 16th February, Mr. Cazalet gave a talk on "Printing," and on the 23rd February J. Warner and E. R. Dixon gave a talk and demonstration on "Enlarging."

G. B. Leeds and L. D. Pickles gave a talk on "How to Take Photographs" at a meeting held on 9th March, while on 23rd March L. D. Pickles talked on "Some Aspects of Commercial Photography."

It was decided by the Society to hold an exhibition of photographs towards the middle of June, and again on Speech Day.

### SQUASH RACKETS.

The House championships this year produced some of the best Squash ever seen at Michaelhouse. East and Farfield had the best balanced sides, and met in the semi-final. After a very hard fought match Farfield won on the last game 5-4, and went on to beat AVest in the final rather easily by 6 matches to 1.

The full results were as follows:-

#### First Round.

East beat Founders by 6 matches to 2, one match not played.

Burnett (Fo.) beat Briggs (E.) 9-2, 9-1, 9-2; beat Storm (E.) 10-8, 9-6, 9-6.

## SWIMMING NOTES.

The annual Swimming Sports were held on AVednesday, 20th March. A large number of parents

and friends were present, and in spite of a very heavy downpour during the afternoon, everyone seemed to enjoy the outing. Mrs. Tyrone Tatham was kind enough to present the medals won, at the end of the meeting. Once again a number of records were broken, and the times set up this year may be regarded as very satisfactory indeed, and should stand for some little-

Previously there was no special competition fired, the holders of the House Cup being the House which scored the best average in the Imperial Challenge Shield Competition. It was felt desirable to change the system, and introduce a separate competition, fired under Imperial Challenge Shield rules, with a team of 12 from each House, the

The first round for the Frank Stevens Shield Competition for 1935 was fired on March 28th. The light was very variable, and probably accounts for the rather mediocre scores. On total scores we achieved third position with a score of T55 out of a possible 800, but the age handicap made us drop to the fourth place. The following are the detailed scores:-

slower than  
of drill. It

Progress this year has been somewhat usual owing to the adoption of a new form has taken a considerable time to change the old order for the new, but its advantages are already becoming apparent in the smartness and efficienc\^ of the Corps.

An inter-Platoon competition is due to take place shortly for the Shield which the Poyal Durban Light Infantry, to whom the Corps is affiliated, presented for this purpose last year.

TO NORTHERN RHODESIA.

Have you a pair of mosquito boots?" " Have

you a good rifle?-should test it before you leave, y'know." "Hope you have one of those Fitzsimons' snakebite outfits--and permanganate." "You'd better take plenty of quinine up with you-and what about a mosquito net?" " You should take a gramophone with

you."

This was the sort of thing\* I had hurled at me from all sides when my friends heard that I was leaving Natal for Northern Rhodesia to join the prospecting\* organisation of the B.S.A. Company, and though I by 110 means scorned these benevolent suggestions and enquiries, I could not help smiling when I tried to imagine myself with a mosquito net, and "one of those Fitzsimons' outfits" dangling from a rifle slung over one shoulder, bottles of quinine crammed into all my pockets, a pair of mosquito boots in one hand, and a gramophone in the other. Thus armed, surely one could conquer the world. What a wonderful subject for Heath Robinson, or even John D. Wilson. Nevertheless, I can say that a rifle at least was ordered before I left Natal, though incidentally, thanks amongst other things to the endless red tape wound around transfer permits, licences, Customs requirements, and a certificate declaring me to be a "fit and proper person to have in my possession 1 (one) sporting rifle," four months have not been long enough to see the weapon delivered.

A seemingly interminable five days' train journey from Natal to Broken Hill was rather uninteresting, the sight of a large swarm of locusts 011 the wing in the dusty Kalahari being not too inspiring after the sight of bare sugar-cane tops along the North Coast of Natal.

The day after arriving in Broken Hill, where I met my local chief, I travelled south again to Lusaka (which I believe is to become the administrative headquarters of the Colony), and from there motor-lorried some 400 miles eastwards to Fort Jameson. This trip lasted nine days, of which one was fine. The road was good over the steel and concrete bridges, but otherwise would not compare very favourably with London's arterial highways, though it boasts the name of the "Great East Road"; people hereabout often call it the "G.E. Rut." I enjoyed the experience, though would not care to do the trip regularly, as is the lot of the mail transport drivers.

The white population of Northern Rhodesia is only about 2,000. The few whom I've met more than live up to the reputation for hospitality associated with Rhodesians. I may even go so far as to say that one dare not walk past a homestead without asking for trouble! One "drops in" as a matter of privileged habit.

## S. MICHAEL'S CHRONICLE

It is a pity that the struggling\* Natal tea producers do not popularise their brands here. My experience has invariably been that Rhodesians drink tea at any time, at any place, in great quantity-but, of course, not only tea.

Life under canvas in the Bush, or "Bundu" as it is less commonly called, is far more comfortable than one would anticipate. Most things about camp are of the collapsible sort-such as tables, wash basin, bath and chairs, but each serves its purpose well. About 1L\* natives are necessary to move one's tent and belongings in toto, though in Zululand fewer should be enough. I have not yet in this area seen any Bantu of good physique; possibly the prevalence of malaria is the reason, or, more probably, the apparent inborn dislike of work. The annual tax is 8/- per man, and it seems that the average man does just enough each year to rake up that amount! The native villages are larger than any I have seen in the Union, some of them being two or three hundred yards across. The native chiefs are paid £5 a month by the Government, and settle minor disputes. The methods that some of the chiefs employ near the Portuguese East Africa border are still very primitive, bordering on witchcraft principles, but this appears to satisfy the parties concerned.

Climatically, this part of the Colony has been like the Natal North Coast up till May, though I hear the sun becomes hotter till about November when the first seasonal rains are due. Nevertheless, in spite of Great East Ruts and rain, in spite of snakes and heat, in spite of lions, leopards, and things that go "bump" in the night, I hope that those Michaelhousians who ever have the opportunity of seeing a bit of Northern Rhodesian life will seize it.

## CRICKET.

Looking at the results of the 19\*34-35 season we soon notice how well the teams performed in 1934, and how poor in comparison were the results of 1935. This was due to the fact that we lost no less than nine of the 1st XI, together with several from the 2nd, 3rd and 4th teams. Those who took their places were rather young and inexperienced, and lacked confidence. However^ with such great keenness as was shown, it will not be

long before the high standard at the beginning of the season is regained.

To cope with the increased numbers (there are now nine Cricket games) several new fields were played on for the first time in February. The new field, which is over the old 2nd Game, is now called the Punch Bowl and has a turf wicket, as also has the Meadows. A third terrace, 011 which there are four hard wickets, has been added to the nets, while a wicket has been placed on the try line of Aitken's rugger field. The old Colts Field has at last disappeared and a new field is being constructed on the old site.

The new screens, presented by 1). M. Cumming, Esq., arrived in January, and are a wonderful improvement on the old wooden screens.

The 1st XI had a fine record up to and including the tour, only one match (v. H. L. Crockett's XI) being lost. The team was strong in all departments, particularly in bowling which was backed by sound rather than brilliant fielding, while the batting was for the most part spectacular. The great number of drawn games was due in almost every case to bad weather. The Schools Week, which took place in Maritzburg for the first time, was completely spoilt by rain. B. Cumming, who captained the Schools Team, R. Howden,

F. L. Moon and G. Cumming (12th man), are to be congratulated 011 their selection.

With the exit of so many colours, we were hard put to win any matches during the second half of the season, but the team developed and will do well next season.

B. Cumming captained the team with sound judgment before Xmas. His batting improved tremendously and he played really brilliantly on several occasions. Howden was in grand batting form as well, and these two made a formidable combination. Unfortunately, Howden completely lost confidence in his bowling. Although he took a fair number of wickets, he could not be depended upon to bowl consistently, and consequently had many more runs scored off him than he should have. Burdell had a most successful half season and was most dependable. Crowe and G. Cumming struck really bad patches and seldom got going. During the latter half of the season Turner and Dawson devel-

## S. MICHAEL'S CHRONICLE

oped well and were our only dependable scorers. Moon, who batted attractively on occasion, was a much improved bowler, and bowled really well many times. Moultrie ii did not come up to expectations, losing\* his pace off the the pitch and his accuracy. Haig\* bowled most consistently, being\* the only bowler who could change his pace and flight with any certainty. After Xmas his place was ably filled by T. Henderson, who came out with really excellent figures, due to steady bowling coupled with an occasional change of pace. Brown did fairly well as captain, but was just a little prone to lose his head at critical stages, but his batting fell away considerably. Macnab was most disappointing as a bat. Drysdale shows promise as a wicket keeper. Moultrie i batted fairly well on occasion but got too excited. Of the others, Nicholls batted and bowled well on matting wickets but could do nothing on turf.

During the season colours were awarded to the following:-

1st XI Colours: F. L. Moon, E. M. Burchell, E. W. Haig, G. C. M. Brown, Å«J. C. G. Macnab, J. A. Moultrie,

MICHAELHOUSE v. C. WOODS' XI.

Played on the Oval on October 13th. Won by 7 wickets.

On an easy wicket we did well to get our opponents out so cheaply. Moultrie and Cumming bowled very steadily. Burcliell batted extremely well and was well supported by Cumming and Howden.

MICHAELHOUSE v. ESTCOURT.

Played on the Oval on October 20th. Won by 4 wickets.

Some good bowling by Moon, backed by splendid catching, enabled us to dismiss Estcourt very cheaply. Everything in our innings was dwarfed by Cumming's century, which was the first one made in a 1st XI match on the Oval since it was turfed. His powerful driving and pulling were the main features of his knock.

MICHAELHOUSE v. ST. JOHN'S.

Played on the Oval on October 31st. Won by 3 wickets.

St. John's found Haig and Howden in good form

and were unable to get going 011 the turf. Smith, who was 011 the field for the whole match, was the only batsman to accommodate himself to the strange conditions, and he batted with great determination. Burchell, Cumming and Howden were again in fine batting form.

## MICHAELHOUSE v. ST. CHARLES COLLEGE.

Played at St. Charles on November 3rd. Drawn.

After a good start, our batting went to pieces against some fastish off break bowling by .Hourquebie, who was able to make the ball rise and turn sharply. St. Charles had plenty of time in which to get the runs, but were glad that rain stopped play before they could get them.

### MICHAELHOUSE v. II. L. CROCKETT'S XI.

Played on the Oval on November Tth. Lost by an

inning's and 61 runs.

On a wicket where the ball was apt to keep low,  
our batsmen failed badly twice. B. Cumimng in the  
first innings and G. Cumming and ^Howden showing  
any form at all. However, our bowlers made full use  
of the wicket, and did exceptionally well to dismiss such  
a powerful side for just over 200 runs. Moon, Moultrie  
and Haig all bowled with great determination and were  
very accurate. The School fielding was particularly  
good. For our visitors, Dalton and Trotter batted well  
and scored all round the wicket.

MICHAELHOUSE v. MARITZBURG COLLEGE.

Havel 011 the Oval on November 24th. Won by 10 runs.

On a wicket which remained decidedly tricky until late in the afternoon, we had a great struggle to win. The College batsmen were unable to master the wicket and were soon dismissed. We appeared to have the game well in hand when Simson performed the "hat trick," but G. Cumming and Haig saw us safely past their score. Simson bowled really well. Freakes and McKenzie batted well in their second innings.

MICHAELHOUSE v. GLENWOOD HIGH SCHOOL.  
Played at Glenwood on December 8th. Won by 69 runs.

A good innings by McLean, followed by a forceful knock by Wakefield and a good last wicket stand, gave our opponents a useful score. We started badly, but Howden and G. Cumming batted really well against a steady attack. An excellent last wicket stand gave us a handsome victory. Moon and Howden bowled accurately for us, while Mundy looked like getting us out very cheaply with his fast high bumping ball.

## MICHAELHOUSE v. MARITZBURG COLLEGE.

Played at Hilton College 011 December 12th.

Won by 6 wickets.

We won our first match of the Schools Week com-  
 fortably. The College batting lacked enterprise and  
 was painfully slow. Howden and Ilaig bowled well 011  
 an easy wicket. Our batting was most consistent, Crowe  
 and Burchell being very sound, while B. Cumming  
 scored very quickly.

## MICHAELHOUSE v. MARI ST BROTHERS, JOHANNESBURG.

Played on Maritzburg Oval 011 December 13th. Drawn.

Our opponents batted on a wicket which suited them, in that it was slow owing to rain and the ball came up very much as it would do 011 a mat. Craze played excellent cricket, pulling with great vigour. Our bowlers did not pitch the ball up enough. Rain stopped play early.

MICHAELHOUSE v. D.H.S.

Played on Maritzburg Oval on December 15th. Drawn.

Once again we spent the morning watching the wicket dry. D.H.S. lost the toss and had to bat on a very sticky wicket. Douglas and Theunissen batted with great determination and saved them from a bad collapse. After two hours, play had to be abandoned owing to rain. Dawson bowled really well, while Moon was always dangerous.

MICHAELHOUSE v. HILTON.

Played on Kingsmead on December 19th and 20th.

Won by 8 wickets.

On the first morning played was delayed an hour to let the wicket dry out. Hilton lost the toss and were soon in trouble on a wicket which was certainly very tricky but which would soon have played true. They made the fatal mistake of trying to make runs instead of holding their wickets intact until lunch time, by which time the wicket would have dried out. Moon and Moultrie seized their opportunity and made the Hilton batsmen play ever' ball. We started the fever, which lasted throughout the match, of dropping catches. Seldom in a two-day match have so many catches been dropped by both teams as were dropped in this game. The wicket rolled out true, and our batsmen were able to dig themselves in. .Howden and B. Cumming (both of whom were out in trying to force runs) batted most attractively and were ably supported by Brown, Crowe, G. Cumming and Robertson. Hilton made a determined and spirited effort in their second innings. Pope-Ellis and Routledge gave them a great start, and it was only sane, steady bowling by Howden and Haig which enabled us to get the remaining batsmen out, as our catching was again deplorable. We had no difficulty in getting the required number of runs.

MICHAEL!LOUSE v. GLENWOOD HIGH SCHOOL,  
 Played on the Oval on February 9th. Won by 26 runs,  
 With almost an entirely new team, and with only  
 one day's practice, we did well to win this match. Dawson  
 and Turner batted really well, but after they had got  
 themselves out foolishly, we collapsed badly. Glenwood  
 were not quite at home on the turf and were unable to  
 withstand the good length bowling of Moultrie ii and  
 Henderson.

MICHAELHOUSE v. ST. CHARLES.

Played on the Oval on February 16th. Won by 6 runs.

On a wicket affected by rain we were soon in serious trouble, and only some daring batting by Moultrie enabled us to get a fighting score. Once again St. Charles played into our hands by not going for the bowling and our bowlers were allowed to plug away, and despite a heroic effort by Harcourt, we just managed to scramble home.

MICHAELHOUSE v. ESTCOURT.

Played at Estcourt on February 23rd. Drawn.

On the matting wicket our bowlers were most unimpressive, while the catching was not up to standard. Jones played a forceful innings and he was well supported by Drummond and Bowley. Our batsmen did very well until Griffin came on with his slows. We nearly lost the match because no one was able to use his feet and jump into the slow bowling. Moultrie batted well until he lost his head, while Brown defended stoutly to save the match.

MICHAELHOUSE v. K. M. PENNINGTON'S XI.  
Played on the Oval 011 March 2nd. Lost by 20 runs.

Henderson bowled really well, getting pace off' the pitch and turning from the off. Woods hit vigorously. Dawson and Turner played well but were out to foolish shots. Macnab scored freely, but the rest did not have the patience to withstand Melville's good length bowling.

MICHAELHOUSE v. HILTON COLLEGE.

Played at Hilton College on March 9th. Lost by 13 runs.

This was a very fine match in which fortunes fluctuated considerably. On an easy wicket, the Hilton opening pair played safe but rather slow cricket. Throughout our bowling was good, but did not have just that luck which gets wickets. Henderson and Dawson soon polished the tail off. Ellis played a great knock. With only 2\ hours to bat, we did not expect to get the runs, but Collins and Moultrie batted so freely that they added 103 runs in 65 minutes and we were

ahead of the clock. It was a grand partnership. Then for some unknown reason, after Collins had been foolishly run out and Moultrie had lost his head, Dawson and then Brown proceeded to "sit on the splice" and allowed the Hilton bowlers eventually to get on top. At the critical moment Turner simply threw his wicket away. Macnab tried to stem the tide. Towards the end the light was very poor and in the last over Henderson was bowled by a ball which never left the ground (the only one of the match) and McClure wTas bowled with the fifth ball of the over. An opening partnership of 100 runs by each side is a record for the series.

MICHAELHOUSE v. MARITZBURG COLLEGE.

Played at Maritzburg College on March 23rd.

Lost by 4 wickets.

We lost the toss and had to bat when the ground was wet and heavy from the rain overnight. It had completely dried out by the time the College went to bat. Just as it appeared that we were set for a big score, Turner, who was batting really well, was run out by the bowler while he was backing up. Although allowed by the rules it is hardly considered cricket, and the incident completely spoilt the enjoyment of the game. Nicholls and Henderson hit out valiantly and enabled us to get a reasonable score. After getting two quick wickets, several catches were missed (Drysdale and Macnab being the chief offenders) and Moultrie ii forgot to appeal to two occasions, while the placing of the field by Brown showed incredible lack of judgment. Gillespie and Hosking batted well but should never have been allowed to stay as long as they did.

We are greatly indebted to Mr. Susskind for persuading "The Vultures" to leave Johannesburg a day earlier and so play us before going to their real destination, Hilton College. Played in perfect weather, this was a most enjoyable game in which the tricky wicket played an important part. Susskind played a marvellous knock, a feature of which was his cover driving. McClure bowled exceptionally well, swinging the ball considerably. He was ably supported by Moultrie ii, while the fielding was good. Except for Turner, who batted with great confidence, our batting was poor. After the game, Mr. Ileeley, captain of "The Vultures," made a humorous speech in which he introduced Mr. Neustetei, a non-playing member of the team, who very kindly presented

Turner and McClure with a cricket bat each for their meritorious performances. The Rector replied most suitably, thanking our visitors very much for coming', and hoped they would make the visit an annual one.

MICHAELHOUSE v. OLD BOYS.

Played t/ on the Oval on March 30th. Won by 1 run.

Once again the wicket was rather treacherous, the ball unaccountably keeping low very often, particularly at the Railway end. Strangely enough Moultrie, who kept a consistent length, got his wickets at the School end. Swales hit with fine judgment and saved the Old Boys. As in the previous match, Turner alone batted confidently. It was left to Moultrie ii and McClure to pull us through by some lucky but bold hitting. John Wilson, on holiday from Kenya, was most impressive

and showed us he has lost none of his flight, accuracy and change of pace. It was the sporting action of the Old Boys' captain, Mr. Hugh Brown, in not bringing on his best bowlers, Wilson and M. Pennington, at the end which enabled us to win. We should have liked to see Mr. Brown make a run or two, but he was bowled by his son, Craig (who, as Captain of the School, was making his first and only appearance as a bowler), in attempting to hit the ball out of the ground.

## THE TOUR - JANUARY 1935

As last year the tour took place in January. Crowe, Moultrie ii, Haig and Henderson were unable to make the trip. A very happy and good humoured team assembled at Dundee in the late afternoon of January 7th. After a very cordial welcome we were taken away by our respective hosts. In the evening we were taken to see an amusing talkie. Next day we opened the tour with a very creditable win over a strong Dundee side. That evening the team were entertained to a cheery dance at Mr. and Mrs. Laughton's house. Unfortunately our friend Tom Worthington considered the Manager too old to dance so he was not allowed to go and look after his team, with the result that one of the twins (or should I say both!!) had a most alarming experience!!

As Vryheid were unable to raise a team against us, Dr. Geddes, who put in a tremendous amount of work on our behalf and for which we are most grateful, asked us to stay on with them and play an afternoon match on the Wednesday. Thus another enjoyable day was spent in Dundee. WTe left at 8 p.m. that evening for Ladysmith, where we arrived at 11.30 p.m. and proceeded to the Royal. Ladysmith were unable to raise a side so we spent the day, which was terrifically hot, in exploring the town, drinking tea and watching a junior tennis tournament. To add to our sorrows there was no talkie to go to see, so we had perforce to retire to bed early.

Next day we proceeded to Bethlehem, where we were all housed in one boarding house. We had two good matches in this centre and saw two good talkies

and met many charming friends!

We left Bethlehem (after several farewells!) at

7 p.m. on Sunday and arriving at Ficksburg late that

evening, proceeded straight to the Ficksburg Hotel. On Monday evening we were entertained to a most enjoyable dance at the Hotel. At this dance some members of the team became somewhat bold as to try and prevent the manager from dancing! We were very pleased to see two older Old Boys in Eric Kimber and Jack Elliott. The latter took three of the team back to Leribi with him and had them out riding at 6 a.m. next morning. Needless to say, they were somewhat stiff and sore next day. Mrs. Eric Kimber kindly arranged tennis for us on the Tuesday morning.

We left Ficksburg at midday on Tuesday and proceeded to Kroonstad, where we arrived late that evening. We found ourselves once again housed in one boarding house. After a long, hot day's cricket on the Wednesday we were entertained to a talkie in the evening. Thursday morning was an "off day" and was spent by most on the river.

Our next port of call was Bloemfontein where we stayed in style at the Bloemfontein Hotel. We arrived

t/

here in time for a late dinner on Thursday evening, and those of us who had any cash left went to a talkie. Next day we were entertained lavishly by the Ramblers Club. We left at 10 p.m. that evening for Harrismitli, where we arrived next morning, and went straight on to the field. After a hasty dinner the team said farewell to the twins, who went back to Johannesburg by car, and came back to Natal, where we dispersed after a most successful and at the same time really enjoyable tour.

The success of the team was due to the really fine batting of 13. Cumming, Howden and Burchell, all of whom were at the top of their form. The bowling was most accurate, but once again the catching, particularly in slips, was deplorable.

Again we thank our several hosts and hostesses for their kind hospitality, and also the secretaries and members of the various clubs and teams which we played, for the time and trouble they took to make the tour the real success that it undoubtedly was.

The team was as follows: B. L. Cumming, R. Ilow-

den G. W. Cumming, F. L. Moon, E. M. Burchell,

3rd MATCH, v. BETHLEHEM.

Played on January 12th. Won by 2 wickets.

Some good bowling by Howden, who was able make his straight-through ball fizz off the wicket faster than usual, followed by really sound, attractive batting by Burchell and Dawson, gave us a good victory.

4th MATCH, v. BETHLEHEM (Return).

Played on January 13th. Won by 3 wickets.

Although we were never in danger of being beaten in this match, we had a great race against the clock. The winning hit was made in the last over of the day. A grand partnership by Osterlop and Kahts, who both attacked the ball fearlessly, saved Bethlehem from collapse. Brown and Burchell gave us a good start, the latter cutting and leg gliding well. Moon weighed in with some spirited hitting to win the match for us.

## S. MICHAEL'S CHRONICLE

### 5th MATCH, V. FICKSBURG.

Played on January 14th. Won by 94 runs.

A really fine innings by Burchell on a slow outfield, ably assisted by Collins, Moultrie and Nicholls, gave us a good total, after the stars had failed. We had another great race, this time against a storm, and again we won with little time to spare as the storm broke over us just as the last man was out. B. Cumming, deputising behind the stumps, had a field day. M. Vels hit superbly.

7th MATCH, v. RAMBLERS CLUB (Bloemfontein)

Played on January 18th. Won by 163 runs.

The Ramblers Captain underestimated our strength when, on winning the toss, he elected to put us in. We made a poor start, but Burchell, B. Cumming and Howden soon changed the game round in our favour. B. Cumming, in scoring his second century on the Ramblers ground, played splendidly, scoring freely all round the wicket. Howden and Burchell also batted really well. When the bowlers were tired out, Woods and Moon hit to great effect. Against a steady attack, backed up by keen fielding, Ivaplan played a polished innings but

## S. MICHAEL'S CHRONICLE

could find no one to stay with him. As the Ramblers XI consisted almost entirely of Currie Cup and not very old ex-Currie Cup players, we had reason to feel really bucked over our splendid victory.

8th MATCH, v. HARRISMITH.

Played on January 19th. Won by 170 runs.

Once again we made an indifferent start, but B. Cumming and, Howden soon took charge and played brilliantly. B. Cumming, by making two centuries on successive days, set up a record which will be hard to beat. He hit with tremendous power, while Howden scored freely all round the wicket. Harrismith found Woods and Howden too steady for them.

## 2nd XI AND "A" XI MATCHES

These teams played consistently well throughout the season. The great number of drawn games was due to bad weather conditions.

### Results:-

Robertson and Phillips played sound innings, while Nicholls weighed in with some grand hitting, and he and Selby bowled very steadily.

Michaelhouse, 173 (Phillips 22, Robertson 54, Nicholls 54; Robinson 3 for 24, Rouse 4 for 44).

N.U.C. 2nd XI, 84 (Attwood 20, Rouse 30; Selby 3 for 32, Nicholls 5 for 13).

Played at Michaelhouse on October 20th.

Lost by 115 runs.

Our batting failed against good length bowling. With no hope of getting the runs, the captain threw the game away by giving the batsmen orders to hit out.

J. Pridmore's XI, 196 (Theron 41, Turner 38, K.

Pennington 34; Selby 3 for 45, Baker 3 for 49).

Michaelhouse, 81 (Brown 25, Dawson 26; Briggs

## S. MICHAEL'S CHRONICLE 67

### MICHAELHOUSE "A" v. TINTERN.

Played at Tintern on October 2Tth.

Won by an innings and 57 runs.

Nicholls and Briggs bowled with great determination and soon had Tintern out. Our batting was more consistent. Pridmore's slows proved too much for our opponents in their second innings.

Tintern, 1st innings, 40 (Nicholls 6 for 16, Briggs

4 for 13); 2nd innings, 105 (Oates 30; Pridmore 6 for 21).

Michaelhouse, 202 (Phillips 26, Brown 38, B. Cumming 45, Dawson 35 not. out; Oates 4 for 30).

### MICHAELHOUSE v. ST. CHARLES.

Played at St. Charles on November 3rd. Drawn.

Rain spoilt this match. Macnab played an outstanding knock and saved us from complete collapse. St. Charles could have won had they decided to attack the bowling.

Michaelhouse, 105 (Macnab 48; Micklewright 4 for 17, Greipel 4 for 9).

St. Charles, 51 for 3 wickets (Stirton 21; Dawson 2 for 5).

### MICHAELHOUSE v. HILTON COLLEGE.

Played at Hilton College on November 10th.

Won by 4 wickets.

On an easy wicket we did well to dismiss Hilton so cheaply. Our fielding was good, while the Hilton running was poor. The Hilton attack was only moderate and our batsmen scored freely.

Hilton College, 141 (Henderson 34, Routledge 43, Masson 33; Briggs 3 for 25, Baker 3 for 28).

Michaelhouse, 181 for 6 wickets (Phillips 25, Collins 27, Henwood 32, Dawson 22, Macnab 45; Masson 2 for 44).

## 08 S. MICHAEL'S CHRONICLE

MICHAELHOUSE 2nd XI v. MICHAELHOUSE 3rd XT  
Played at Michaelhouse on November 17th. Drawn.

Michaelhouse 2nd XI, 172 for 4 wickets (Turner 07, Dawson 30, Phillips 29; Henderson 3 for 45).

Michaelhouse 3rd, 92 for 5 wickets (Pryde 20, Boyd 20, Bennett 19 not out; Nicholls 3 for 21).

MICHAELHOUSE v. MARITZBURG COLLEGE.

Played at Maritzburg\* College on November 24th.

Won by 151 runs.

Our batting was really good. Collins scored very fast while Brown batted steadily. Briggs and Nicholls bowled fast.

Michaelhouse, 2G0 for 9 wickets (Collins 63, Brown 59, Turner 37, Baker 34, Moultrie i 27; Parr 4 for 72, Barnes 3 for 79).

Maritzburg College, 109 (Anley 25, Barnes 24, Byas 19 not out Briggs 4 for 31, Nicholls 4 for 42).

MICHAELHOUSE v. K. EDMONDS' XI.

Played at Michaelhouse on December 1st. Drawn.

Moultrie ii, who was unable to travel with the first team, did not shine as was expected, and our opponents scored freely. Turner again batted well.

K. Edmonds' XI, 125 (Longwood 42, Melville 27, Shaw 20; Moultrie i 4 for 28, Phillips 2 for 14).

Michaelhouse, 88 for 6 wickets (Turner 32, Henwood 27; Edmonds 2 for 13, Hume 2 for 22).

MICHAELHOUSE "A" v. TURNER PARK.

Played at Michaelhouse on December 8th.

Won by 68 runs.

Theron and Macnab batted well and scored freely. Turner Park were unable to withstand the bowling of Briggs and Nicholls on the turf wicket.

## S. MICHAEL'S CHRONICLE

Michaelhouse, 144 for 5 wickets (Theron 54, Macnab 34 not out); Turner Park 78 (Davies 23; Briggs 5 for 15, Nicholls 3 for 23).

### MICHAELHOUSE "A" XI v. TURNER PARK.

Played at Weston on February 9th. Lost by .1 wicket.

As the Turner Park field was under water the game was played on the Weston ground. Our batting was sound, but our bowling and catching were not up to standard.

Michaelhouse, 160 (Bennett 35, Collins 33, Theron 24; Leadward 5 for 56, Gibson 3 for 36).

Turner Park, 186 for 8 (G. Mackay 67, McIntosh 25, K. Mackay 23; Selby 4 for 36).

### MICHAELHOUSE v. ST. CHARLES.

Played at Michaelhouse on February 16th. Drawn.

Owing to car trouble St. Charles arrived late and had to leave early. Bennett and Henwood batted well, while our bowlers were well on top at the close of play.

Michaelhouse, 106 (Bennett 28, Henwood 22; Baxter for 15, Kelly 3 for 22).

St. Charles, 32 for 6 wickets (Banche 11; Moultrie 3 for 8, Morphew 3 for 7).

### MICHAELHOUSE "A" XI v. TINTERN.

Played at Michaelhouse on February 23rd.

Lost by 12 runs.

The wicket was very sticky when we batted and had dried out considerably by the time Tintern went in to bat. Lee bowled exceptionally well.

Michaelhouse, 95 (Theron 30, Young 15 not out, Jones 20; Y. Carter 4 for 25, D. Oates 5 for 41).

Tintern, 107 (Y. Carter 20, I). Oates 41, A. Comins 24; Lee 7 for 19).

## 70 S. MICHAEL'S CHRONICLE

### MICHAELHOUSE v. ESTCOURT SCHOOL 1st XI.

Played at Michaelhouse on February 23rd. Drawn.

Owing to a breakdown, the Estcourt team arrived very late and consequently play was curtailed. Briggs saved us from complete collapse. Our bowlers came to the rescue and almost succeeded in getting Estcourt out.

Michaelhouse, 82 (Briggs 40, Henwood 12; Dibben 6 for 28, Brokensha 3 for 20).

Estcourt School, 44 for 8 wickets (Dibben 25, Steade 7; Selby 4 for 10, Morphew 2 for 6).

### MICHAELHOUSE 2nd XI v. MICHAELHOUSE 3rd XI

Played at Michaelhouse on March 2nd.

Won by 40 runs.

Michaelhouse 2nd XI, 106 (Bennett 35, Selby 19; Lee iii 3 for 16, Lee i 3 for 25).

Michaelhouse 3rd XI, 66 (Young 17, Jones 18; Briggs 5 for 17, Bennett 4 for 12).

### MICHAELHOUSE v. MR. K. M. PENNINGTON S XI.

Played at Michaelhouse on March 9th.

Lost by 1 wicket.

Henwood played a dogged innings, but the rest could not cope with Melville's bowling. The latter batted well, while Jones hit with great vigour.

Michaelhouse, 114 (Henwood 56, Bennett 21; Melville 4 for 34, Lee 3 for 20).

Mr. Pennington's XI, 150 for 9 wickets (Melville 62 retired, Jones 30 not out, Johnston 19; Briggs 3 for 48, Moultrie 2 for 33, Morphew 2 for 20).

### MICHAELHOUSE v. IV. EDMONDS' XI.

Played at Michaelhouse on March 16th. Drawn.

This match was played in the rain. Theron and Pennington hit almost every other ball out of the ground. Morphew bowled well under trying conditions.

## OLD BOYS' NOTES.

## OBITUARY

Robert Peter Palmer.

Born in November, 1916, the second son of the Rev. Lt. and Mrs. Palmer, of Mid Illovo, he entered Michaelhouse in February, 1930, as a boy in Farfield. It was quickly apparent that he was a scholar of unusual ability. In October of the same year he was still young enough to enter for the School Scholarship examinations, as a result of which he won the Major Scholarship. He followed this success up by gaining a very good First Class Pass in the Junior Certificate examination. Two years later, in December, 1932, he was placed in the First Class of the Cape Matriculation successes, with Distinctions in Mathematics and Science. After a year in the Sixth Form, he entered the Natal University College, and passed all his first year examinations brilliantly, averaging over 90%. During the long summer vacation, he was taken suddenly ill and died within a few days.

It is hard to believe he is gone, and harder still to understand why. All his life he never injured man or beast. Quiet, reserved, modest, a staunch friend, a great lover of nature, a tremendous reader, a good Christian, he bore all the marks and character of a good scholar and gentleman. Those of us who taught him feel he would have gone far in the realms of study. He was intensely fond of the school, and in his last letter to me gave all the credit for his university successes to the encouragement he had received here. His interests were not confined to the classroom. He had an extensive collection of insects, made in England and Natal. A keen sportsman, he had more than one success to his credit on the athletic track, and played Tennis and Squash with great enthusiasm.

By his unhappy death the school has lost one of her most promising sons. To his sorrowing parents in their hour of grief we extend our deep sympathy.

R.I.P.

GENERAL.

There was added interest in the Currie Cup Cricket matches last season in view of the Springbok tour now in progress in England. As far as Michaelhouse was concerned, with the knowledge that Herby Taylor had retired from international games after being a dominating figure for nearly a quarter of a century, our hopes centred round Lawrence Trotter. He showed consistently good form, but he was one of several good batsmen who had to be omitted, when the South African Selection Committee carried out its unenviable task. Still he and we have the satisfaction of knowing that many Press and other critics were so loud in his praises that a special meeting was called to consider the advisability of adding one or two to the touring side, and it was a secret that he was one of those most carefully considered. However, the Committee decided to make no change. H. W. Taylor and A. P. Woods also played for Natal, the former seeming as complete a master as ever on more than one occasion.

We were represented in intertown matches: Maritzburg,

G. W. Boyes (captain), A. P. Woods (who also captained "The Rest" v. Natal); Durban, R. L. Harvey (captain), L. W. Payn (who also played for the Rest of Natal), W. J. Parry (captain of Northern Districts).

The following were noticed playing for various clubs during the past season:-Durban: Berea, A. F. Borland, R. Collins, R. L. Harvey, L. W. Payn, H. A. C. Swales, L. Trotter [this club won both the Saturday and Sunday leagues in the Senior Division]; Greyville: C. St. Leger (captain), X. Crowe, W. G. Crockett, D. Dawson, A. Durose,

B. Oscroft; Durban Central: H. W. Taylor. Maritzburg-Zingari: M. E. Pennington (captain), R. W. Anderson, E. M. Burchell, G. W. Boyes, L. Greene, R. Howden, G. Pennington; Casuals: G. A. V. Boyes, A. P. Woods; Estcourt: 1). B. Koe (captain), D. Brewitt, M. H. Forder, R. Drummond, I. W. Turner.; Tintern: J. Price Moor, D. Heath, N. Robinson, G. Robinson, R. Carr; Kokstad: N. van der Riet; Eastwolds: M. Campbell, I. Campbell, N. Harris; Creighton: V. Houston, I. T. Butcher; Umzinto: L. W. Payn; Ladysmith: W. Parry; Melmoth: L. B. Jenkinson; Richmond:

A. R. Stewart, S. J. Nicholson.

## S. MICHAEL S ("I KON I 'IJE

Although matches were also arranged with the Old Hiltonians and Old Collegians, the O.M.'s only played against their old rivals, the D.H.S. Old Boys. It was a splendid game, though we suffered our first defeat in this fixture. Our opponents batted first and quickly lost four good wickets, but Jack Siedle and Fellows-Smith put on over a hundred for the 5th wicket, and the innings closed for 242, Siedle 137. Bob Harvey bowled very well indeed and took eight wickets for 80. He and Swales were the only two who resisted the bowling at all successfully when we went in, but wickets fell too regularly for us to have any chance of winning. We were eventually out for 183, Harvey 82 and Swales 45. It was a well deserved victory for our opponents.

All generations of O.M.'s will have noticed with legitimate pride our remarkable success in the major open scholarships this year. Owing to 1933 being a blank year, Natal had two Rhodes Scholarships available. Both were won by O.M.'s, and we heartily congratulate B. J. J. Sluings and E. E. W. M. Hindson on their selections. A few months later, the Elsie Ballot Scholarships were awarded for the second time since their inception. They are also £400 a year for three years, but send the holders to Cambridge. N. X. Franklin was one of the two scholars chosen. To him, too, we offer our congratulations. We hope that those now in the school and O.M.'s at the Universities will try to maintain this splendid record, at least in part.

CRICKET SEASON,  
OCTOBER, 1934-APRIL, 1935.

P. 15 W. 5 L. i; l). 4.

The XI before Christmas was a very well balanced one, but almost a clean sweep at the new year left it the youngest and weakest side we have had for many years. There is, however, promising material in it, and with a season or two's experience it should develop into a useful team.

Summary of matches:-

v. College, on October 27th. Away. Won by 50 runs. Cordwalles, 100; College, 50 (Gray 7 for 11).

v. Michaelhouse on November 3rd. Home. Draw. Cordwalles. 115 for 3 (Gray 33 not out, Doming 46 not out).

v. Kings on November 10th. Away. Won by innings and 87 runs. Cordwalles, 145 (Gray 58); Kings, 35 (Gray

4 for 5, Cooper 3 for 2); Kings, 2nd innings, 25 (Doming 0 for 7).

v. Hilton, on November 17th. Home. Won by 86 runs. Cordwalles, 140 (Gray 51, Oscroft 44); Hilton, 54 (Gray

5 for 17, Gathorne 3 for 5).

v. Highbury on November 24th. Home. Lost by 70 runs. Highbury, 187; Cordwalles, 111 (Gathorne 38).

v. Mr. O. Pearse's XI on November 28th. Home. Lost by

3 wickets and 0 runs. Cordwalles, 130 for 5 declared (Gathorne 58, Doming 39); Pearse's XI, 136 for 7 (Doming 5 for 47).

## S. MICHAEL'S CHRONICLE

v. Fathers. Draw. Cordwalles, 201 for 8 declared (Dom-  
ing 95).

v. College on February 16th. Home. Lost by 87. College,  
147 (Fawcett 4 for 22); Cordwalles, 60.

v. Michaelhouse on February 23rd. Away. Lost by 34.  
Michaelhouse, 56 (Gillbanks 4 for 10); Cordwalles, 22.

v. St. Charles on March 2nd. Away. Draw. Cordwalles,  
125 for 7 declared (Cooke 43, Gillbanks 38); St. Charles,  
55 for 9 wickets (Gillbanks 7 for 15).

v. Kings on March 9th. Home. Won by 170. Cordwalles,  
211 for 5 declared (Barnes 125 not out); Kings, 41  
(Gillbanks 7 for 16).

v. Havelock Road on March 16th. Home. Won by 16 runs.  
Cordwalles, 79; Havelock, 63 (Barnes 6 for 26).

v. Highbury on March 23rd. Away. Lost by an innings  
and 63 runs. Cordwalles, 33 and 55; Highbury, 151  
for 4.

v. Merchiston on April 6th. Away. Lost by 3 wickets and  
4 runs. Cordwalles, 158 for 6 declared; Merchiston,  
162 for 7 wickets.

The House Swimming Sports, held in December, re-  
sulted in a win for Butchers, for whom Kelly scored most  
points. He also gained our only success in the recent Inter-  
School Gala, equalling the record for the under 14 years 25

yards back stroke,  
t-

The shooting in the first round of the Hebron Cup and  
Frank Stevens Shield was disappointing, the team averag-  
ing just over 80 points. Several of the "younger fry" are,  
however, coming on well, and should show a marked  
improvement by the end of the year.

Squash is proving as popular as ever, both amongst  
the staff and the boys. The annual knock-out competition  
resulted in a win for McFie, Pennington i being the  
runner-up.
