Dear Prof. Keto,

In response to your letter of 23rd February, 1984 we wish to commend you on your initiative and dedicated efforts in ensuring the successful realisation of the exhibit on South Africa, in close cooperation with our Mission in New York.

We think your choice of the title as well as the photo of Nelson Mandela for the theme poster is quite appropriate in symbolising the struggle of the South African people. We also highly appreciate the objective to give wider publicity to the ANC and other progressive forces inside the country - notably the United Democratic Front.

We are ready to accede to your request with regard to a letter of support to Dr Teri Y. Doke.

Concerning your research into the general history of South Africa, we have no doubt that "Welani Imilambo" will fill a yawning gap in the annals of our people's history. In this respect we would like to bring to your attention the existence of the ANC Research Department which can be contacted through the same address. We have no doubt that you will strike a meaningful relationship of close cooperation with them.

We shall also bring to the attention of our Education Department your offer to render assistance as an educator. We are confident that they will contact you for further details in this area.

Wishing you success in your activities.

Yours fraternally,

SINDISO MPENYANA
Secretary
