CLOSURE

The meeting had carefully examined the existing structure of the MC. It believes that structure should be a much more representative and inclusive body with more powers. The committee should be empowered to set up smaller technical committees to deal with technical matters and disputes. The body must be a fully representative structure. It should have more and not lesser powers. It should deal with all issues and should have the power to establish committees without referring to plenary. It must also have the right to make decisions.

The Management Committee shall comprise of a Chairperson and a Secretariat which will constitute the Executive. The Executive will be semi-permanent.

DiIMn i :DM

The Chairperson of the Management Committee and the existing Secretariat will constitute a Daily Management Committee to facilitate meetings and to deal with disputes, etc.

small.

The strategy to be adopted in regard to negotiations and the preparation for elections would be to unite the people on the ground; to encourage the establishment of negotiation forums at grassroots levels.

The PF needs a unifying perspective and promote its position. The PF must implement the process of discussing Elections, Organising Strategy and Manifesto's. etc.

The Patriotic Front must have an effective administration, eg. PF administration Offices.
