Dear Comrade Girlie

\$3101: Qlamini.

Comrade Ayob Dlemini has been granted permission to persue journalism studies in Zimbabwe. We hope that when he finally gets a place 1:11r study the Committe will find it possible to fund him.

At the present moment his position is as follows:

He is visiting relatives in Zimbabwe at the instance of the office of the Secretary General.

Whilst in Zimbabwe he will be taken care of by relatives instead of by our office as this would have entailed advance anengements.

He will exploit his presence in Zimbabwe to look for a place of study and will keep the education office posted on developments regarding his application so suitable arrangements can be made on time regarding his ftmding.

Upon getting a piece of study the Education Committee will be expected to assume responsibility over him in the normal way.

It hes been deemed expedient to include commie Ayob in the funeral entourage for the late comrade Jackie Mabuza. This means he will be free of problems related to long visa applications and study permits when he would have to leave Zambia by a different arrangement.

It is hoped that your Committee will find this arrangement suitable as every mempt has been made to avoid surprise visits and perpetual emergencies.
