

THE BETRAYAL OF RHODESIA AND S.W.A.

Today, every South African must be aware of the plight of the people of Rhodesia and most are concerned about the future of that gallant country, for if Rhodesia falls to a communist terrorist government, (the same applies to S.W.A.) South Africa is doomed to the same fate.

The people of South Africa should take note that the blacks in Rhodesia after being offered black majority government have stated, they are not interested in sharing power, but demand complete power and the trial of all Rhodesians. Let this be a lesson to those who would make concessions to black communist terrorists.

* Brian Crozier, director of the Institute for the Study of Conflict noted that "....nothing would deter the terrorist because they do not think like ordinary people, but are fanatics who will stop at nothing. There are two kinds - those who see terrorism as a means of destroying a particular state and those who enjoy being terrorists and practise it for its own sake".

The brutality of it makes the blood boil. Terrorism gives the impression of cowardliness because it is the terrorist who hides and runs, never coming out into the open, but instead, striking at 'soft' targets such as woman and children. They do not win military battles - but political victories by goading those in opposition into making costly errors of judgment.

One calls to mind here the many science-fiction stories which have been written and in which monsters have been created only to turn against their creators and destroy them. That terrorism today is the creature of power politics, cannot be doubted, but whether it will ever be brought under control again by those who conceived it, is very unlikely, and in the end, it will only be possible to destroy it by a society bent on freeing itself from the tentacles of the world-control monopoly.

*(The Covenant Message-January 1977)

The terrorists must be smashed from the air and the ground, wherever they may be - be they in Rhodesia, S.W.A. or in the neighbouring Marxist states - so that they will not recover for the next 100 years, and the Whites of Southern Africa can enjoy the fruits of their labours.

The A.A.B. demands a government that will give immediate military and financial aid to the people of Rhodesia, as Mr. Vorster promised in Durban in 1967 when he said: "South Africa is determined to keep its security forces in Rhodesia so long as the bloody war against terrorists makes this necessary."

In a BBC interview in 1969, and repeated in the South African Parliament in September 1970 and also at a symposium at Potchefstroom on Aug. 27, 1967, our Prime Minister Mr. Vorster made it clear that he regarded terrorism as a curse not only in Southern Africa but in the whole world, and said that: "we shall fight terrorism in any country in Southern Africa if asked for help by any other government."

Then on August 16, 1973, in Pretoria, he said that the security forces in Southern Africa must at all times be prepared to fight terrorism, bearing in mind that "the ultimate objective of the subversives was not only Rhodesia or Angola or Mozambique - but South Africa itself."

Then, just before the general election in 1974, the Minister of Justice, Mr. J.T. Kruger, echoing the sentiments of Mr. Vorster and his government, said: "We are going to root out the terrorists one by one. We are going to clean up Rhodesia, even though it means the shedding of the blood of our own people. If necessary we shall put into effect

plans which will call for great sacrifices from our own people. We will not hesitate to do so".

Moreover, at the time of the 1974 genral election Mr. Vorster stated bluntly: "In fact, the attempt to overwhelm Rhodesia, Angola and Mozambique is but a prelude to an attempt on South Africa's sovereignty with the intention of subjugating it."

WHAT WAS THE REASON OF THE COMPLETE CHANGE ON THE PART OF MR. VORSTER? "DETENTE" was the sudden solution to all our problems. DETENTE became a slogan but since it failed, nobody does mention this once magical word anymore.

* What must be rememberd is that Mr. Vorster's chief security officer; General H.J. van den Bergh, made it quite clear in a secret Broederbond circular, in January 1975, that South Africa must abandon its traditional attitude towards Rhodesia and accept the inevitability of black rule there - and the General, who has played a leading part in the whole detente operation, went on to warn that South Africans would "incur the eternal hatred" of Black Africa if it did not accept black majority rule in Rhodesia!

*(SA OBSERVER, APRIL 1976)

That there are people of different civilised standing in this world, must be accepted as a fact, but the lowest form of humanity are those who betray their own kind. The White people of Rhodesia are of our own flesh and blood, they are direct relations of both English and Afrikaans speaking South Africans, and they are being betrayed in the name of International Communism, not only by the press of South Africa but by people who are afraid to assist them. Whilst our government was prepared to let South African Soldiers die in Angola for the cause of black communist terrorists, they withdrew our men from Rhodesia who were fighting for the cause of all Whites in Southern Africa.

In order that a White civilization can be maintained in Southern Africa, South Africa cannot afford the luxury of a wishy-washy government - we need men with guts who can stand up to the two-faced governments of the world.

Do not be misled by the leftist english and afrikaans press, do not be misled by the S.A.B.C. and television, do not be misled by the leftist political parties of South Africa or their stooges, from whose mouth flows a stream of LIBERAL-LEFTIST-SURRENDER-PROPAGANDA. They are frightened people, having aped the liberals for so long, that they are now more dangerous than the INTERNATIONAL LIBERAL.

YOU are the voter, YOU elect the government, therefore YOU can be held equally responsible for the betrayal of the White people of Rhodesia and Southern Africa.

DO YOUR DUTY TO YOUR COUNTRY, TO YOUR WHITE RACE, TO YOUR FAMILY!!

Join this organisation today and help us to maintain a White civilisation in SOUTHERN AFRICA.
