Dear Mr Tildy,

I thank you very much on the letter (September 30th) with all informations in it. I am very sorry being so late in my reply. It is because I returned from Kurdistan of Iraq only on the October 18th.

Furthermore I mus tell that it was only yesterday we finally received a decicion made by FINNIDA on the aid to the project we have jointly prepared for some time already.

Returning to your letter I would like to make some comments. No any funds has been transferred so far. We werre obliged to wait the final decicion of FINNIDA. Now I will act most urgently and by the end of this week you will have the amount of R 34.000.00 at your disposal.

IN order to make our communication easier and much quicke I Would like to propose on having it directly between the Batlagae Trust and Intersolid with knowledge that you on your behalf make all necessary negotiations with the ANC'S Repatriation Committee.

It is important for us that we jointly agree the timetable for the secont part of aid being R 33.500.

For your knowledge I am informing that for the forthcoming year we made an application for a project of similar type and same size. This we had to do because we did not get any new proposals form the MOS Repatriation Committee and the deadline for the applications was already at the begin-ning of September. I sincerely how: that we are able to receave that aid in order to continue this program with you.
