TCRS recommends that the ANC should pack the documents and museum items. If not, they will contract AMI or Interfreight.

The container should be fumigated. A1 proforma invoice for US\$7,500 was handed to us for submission to the Finnish Library Assistant.

TAS 7 million to be account for. Zwelakhe has the breakdown.

DANIDAZDanchwchaid

Previously Danida funds were spent mainly in Denmark. Up to 90% of local costs were for clearing/forwarding. Now, there should be a similar system as NOD, ie., TCRS will advance to the ANC supplier against a local purchase order.

TCRS recommends we should proceed with the erection of the Steel Machine Yard because only a slab is required for the frame, trusses and roofing sheets which are already at Dakawa. Check Danida budget for 1992. NOD might provide assistance.
