10 FEBRUARY . PRESS STATEMENT: RELEASE OF DR MANDELA

In this statement of Joy that Dr. Mandela has been released, I .  
offer him my hand of friendship. I have campaigned for his release  
\_ in fact now for decades. I have lobbied Prime Ministers, State  
presidents and Cabinet Ministers for his release on every possible  
occasion. I have stood adamantly certain that I would never enter  
into the politics of negotiation about the constitutional future of  
South Africa unless he was released. I again today offer him. my  
hand of friendship and say let us walk into the future together.

17 FEBRUARY PRESS STATEMENT

That is why when the press reported Dr. Mandela making negative  
.statements about me of the kind which has heightened conflict  
between Inkatha .on the one side and ANC, UDF and COSATU on the  
other side, I reacted in measured tones. I said that Dr. Mandela  
and I had not yet had the opportunity to talk with each other and  
asked Dr. Mandela publicly for his hand of friendship.

Tambo before he was taken ill offering to meet him, and I even gave dates on which I could possibly do so, but to this day my letter has not even been acknowledged. The fact that he is now ill is irrelevant. I wrote to him as President of the ANC and whoever is deputising for him has not my letter on his desk.

#### MARCH POLICY SPEECH

I welcome anything Dr. Mandela can add to what we are doing. Whatever he can do will help. Whatever anybody can do can only help. But the levels of violence which there are now in so many of the areas in KwaZulu/Natal, and which is ready to break out in so many other areas and flare up in so many other areas, really do threaten not only Black unity but the whole politics of negotiation.... .

Mr. Speaker, Honourable Members, I now turn to the issue of proposing that I extend an invitation to Dr. Mandela to come (o this House and to address Members here, Mr. Speaker, on the question of violence and what we can do to avoid it You will remember, Mr. speaker, that we have on previ'ous occasions held out our hand of friendship to those who lead in the factions which have perpetrated violence against Inkatha. We invited Mr. Archie Gumede to come and address this House on the question of violence. He of course did not come. However, now that Dr. Mandela is not only released but has been given a formal role in the ANC heirarchy, we can appeal to him to stand in for his President, Mr. Oliver Tambo, as his Deputy, and do what Mr. Oliver Tambo can not now do because he is indisposed. ;

I issue the invitation because I have a high regard for Dr. Mandela and I know he is a man of integrity. I \*know that if he does not come it will be because he has been restricted by his organisation. I think, however, he will come and this invitation is not simply a pro forma invitation, it is a real, genuine request to Dr. Mandela to talk with us in this House about what we from our side can do to curb violence.

] write this into the record, Mr. Speaker, Honourable Members, so that future generations will know what was happening in 1990.:

1 Dr. Mandela telephoned me and asked me whether I would share a platform with him to address the people in Pietermaritzburg in an attempt to bring about an end to the violence that is escalating there. It was his initiative; he made the move.

1 immediately responded positively because I have been calling for - black national leaders to share platforms in areas where ~violence is at its height because there is where we should be doing most about violence - where violence is most hurting, maiming and killing people.

It was not only that Dr. Mandela called for the meeting, but he also called for a meeting to take place urgently either on Monday the 2nd or Tuesday the 3rd. I--told - "him. . that =1 preferred the meeting to take place on Monday the 2nd. He suggested the meeting. should take place in the afternoon. He

stated that he would refer the question of the venue to Mr. Harry Gwala in Pietermaritzburg.

Obviously a venue had to be agreed upon, and after I had put the telephone down and made some enquiries and then subsequently asked my Private Secretary, Mr. Amos Neeme, to speak to Mr. Mandela and suggested that the meeting be held At 1000 asmi: ats Taylorisillalbs Mr. HNgema reported back to me that Dr. Mandela was satisfied and had accepted the change time to 10.00 a.m. because that would ensure people were not wending their way home in darkness after the meeting.

The following day, Friday, I was totally astounded to receive this note from the Honourable Minister of = Education and Culture, Dr, O.D. -Dhlomo:

MEMORANDUM (Very Urgent)

Tao:s HE President of Inkatha/Kgare

From: Secretary-General

Subject: Telephone Call from Mr. Archie Gumede,  
President of the UDF :

Today 30/3/90 at 12 noon:1 received a call from Mr. Archie Gumede who told me the following:

Mr. Mandela has spoken to him and asked him to ask me to convey a certain message to the President of Inkatha. I informed Mr. Gumede that it would be highly irregular for me to do this when both Mr. Mandela and the President are able to contact each other. : I informed Mr. Gumede further that Mr. Mandela should phone the president immediately or fax him a letter if there was any information he wanted to convey. Nevertheless he gave me the message which is as follows: |

10 Mr. Mandela suggests that the meeting scheduled at Taylor's Halt for Monday should be cancelled for the following reasons:

a) He (Mr. Mandela) had not agreed to the venue and date of the meeting because he first wanted to consult his

organisation. He maintains he-told Mr. Ngema this when he spoke to him. 4

Supporters of ANC-UDF maintain that fighting is still going on and there is need first to calm the situation on both sides, otherwise the meeting on Monday might turn into a blood bath.

Mr. Mandela will visit Durban on Monday to meet his supporters. He will talk to the police and the army and the police and the army will be in the area. He will also meet with the ANC and the UDF and the police and the army will be in the area.

contemplated,

It might perhaps be possible for Mr. Mandela and the President of Inkatha to meet in Durban on Monday for a private discussion to plan properly for a joint rally

v < -

I insisted to Mr. Gumede that I did not see how I featured in all this and that the correct approach would be for Mr. Mandela to contact the President of Inkatha directly and convey his suggestion.

O.O.D. DHLOMO  
3043790

Soon after I received this note I received a facsimile message from the Daily News asking for comment on the cancelled meeting which had received information that the meeting had been cancelled from a SAPA report.

In other words, the meeting was cancelled unilaterally without any reference to me at all and newspapers were advised and then Dr. Mandela sent a message to me through Mr. Archie Gumede to this effect. I of course immediately telephoned Dr. Mandela and it is quite clear from what he said to me that it was not he who cancelled the meeting. He told me when I spoke to him on Friday that it was Mr. Archie Gumede, Dr. D. Mji and Mr. Harry Gwala who advised against holding a meeting in Pietermaritzburg.

The reasons they gave were astounding, Mr. Speaker, Honourable Members. They said that there was still too much tension in the area for a meeting to be held and that if we went ahead with the meeting, there would be a blood bath.

When people are killing each other, that is the time that you go to stop the killing. You do not wait until after they have stopped the killing before you go to stop the killing. It was because tensions were running high and killings were taking place that it was so urgent for Dr. Mandela and I to address a public meeting in the area....

I really do appeal to Dr. Mandela to see how terribly damaging this now altogether unnecessary and totally unacceptable use of violence is to kill other Blacks 'in the name of killing apartheid which is already doomed. Stop, I ask Dr. Mandela, being quiet on this carnage and this terrible shame of Black South Africa which is so wasteful of political energy, as well as being a hideous squanderer of life and limb. %

28 MARCH - LETTER TO DR NELSON MANDELA ENCLOSING EXTRACT  
= - OF CHIEF MINISTER'S POLICY SPEECH

B MAY MEETING WITH DR K-U VON HASSEIL

As I have made public for some time, I would very much appreciate Dr - Nelson Mandela joining me on a dual venture to try and restore sanity and tolerance in the townships. But Dr Mandela has also gone public and has revealed that his colleagues in the ANC have

prevented him from joining with me on such a venture. And killing continues:

ANNUAT, PRAYFR MEETING UTUNDT

For many months now I have called for the cessation of Zike B talk. I have always offered to act with other black leaders to bring about peace between Black and Black so that Black and White

may at last sit down in historically important negotiations to establish a new South Africa...

I again today appeal to my brother Dr. Nelson Mandela to speak with his colleagues and take them by the hand and lead them away from confrontation between Black and Black.

21 MAY STATEMENT TO KLA

I say - to Dr. Mandela and all his Executive colleagues in the African National Congress that there shall be a new South Africa. There shall be a multi-Party democracy in that new South Africa. We will be there together. I invite Dr. Mandela now again to meet with me in order to discuss the problem of bringing our respective organisations together in peace for the sake of South Africa...

I invite Dr. Mandela to stand up with me in the most prominent possible place in South Africa, under the most glaring of national and international media spotlights, to declare our joint commitment to peace...

My call on Dr. Mandela is a call to stand up with me to shame violence for the sake of peace, and to move to bring Inkatha and the ANC into a situation in which the two organisations are on speaking terms and differences of opinion can be talked about rather than fought about.

My invitation to Dr. Mandela to join with me in calling for peace and my invitation to him to act as mediator to establish political dialogue between the ANC and Inkatha is a call to respect ordinary people who are trampled on by states of conflict between Black and Black. My call is a call to Dr. Mandela to recognise that it is the ordinary man and the ordinary woman and the ordinary child who suffer most when there is internecine Black-on-Black violence.

MR I IARKER: LASSISIEANT - a\200\234ERTTOR IR RV O LG  
HEWSPAPER TLONDON

And let us see SRR Lo e, e P itiodn D6 Mandela to meet with me

to talk about ending any possible cause of violence between the ANC and Inkatha. =

## 26 MAY CENTRAL COMMITTEE MEETING

I really do invite Dr. Mandela to sit down with me to talk about how best to produce sanity in this strife-torn and violence-filled Black South African political situation.

## 26 MAY CENTRAL COMMITTEE RESOLUTION

We particularly call on the ANC's Acting President, Dr. Nelson Mandela, to have discussions with President Buthelezi in order to ensure the maximum degree of peace and stability within which all political groups have free and open access to all black communities in order to advocate their political views or seek mandates for what they intend doing.

## 29 MAY AMBASSADOR JOAN KIRKPATRICK

As President: of Inkatha, I have repeatedly held out my hand of friendship and I again repeat today my invitation to Dr. Mandela to sit down with me not only to talk about how to eliminate the hideous Black-on-Black confrontations. occurring in South Africa, but also how to ensure the best and the most responsible representation of Black South African opinion at the negotiating table.

## .30 MAY - SIR CHARLES AND LADY COURT

.. I repeatedly say that Dr. Nelson Mandela should be prepared to sit

down with me and talk about the cessation of black-on-black confrontation and the abandoning of violence for political purposes... e

My appeal to Dr. Mandela to sit down and ensure that the violent hostility between the ANC - SACP - UDF - COSATU and Inkatha runs against the whole historic process in which the forces: . of .change are now embedded in change which is becoming institutionalised.

I invite Dr. Mandela to talk about the future of that South Africa and harness the future of that South Africa which will be far more potent than any party political forces he or I could - harness -~separately. : :

## â\200\234\*4" JUNE 20 LETTER TO MR ARCHIE GUMEDE

I have however in recent weeks made a number of public statements offering to meet Dr Mandela specifically to talk about how to bring an end to the hideous killings that are taking place in KwaZulu/Natal and more generally to bring about peace so that the politics of negotiation can actually get off the ground...

If there are problems then Dr Mandela must define them. I have no problems. I hold my hand of friendship out. Inkatha's hand of friendship is held out to all organisations including the ANC...

My position as I am outlining: it is very straightforward, very clear, and I would suggest that you can best serve South Africa and all its people by publicly accepting the bona fides of my call on Dr Mandela to meet me. You and your organisation have problems with warr-memblers on this matter. Why do you not declare your support for a meeting between Bra Maikiti Andimised L Lbcset fles Pl

JUNE KLLA: APPROPRIATION BILL y

As Minister of Police, I call on Dr. Mandela to sit down with me and to talk about the promotion of peace in the Kwazulu/Natal region.

7 JUNE RBESS' STATEMENT: LIFTING OF STATE OF EMERGENCY

Now that it has been possible to lift emergency regulations in other Provinces, I believe that the total weight of all political forces should now be directed at restoring peace in the Natal/KwaZulu region. I again say that if Dr. Mandela and I met and went forth as two Black leaders, ..committed to bring an end to

the mindless killing of black by black, we would produce an impact; &

that no other two, or indeed other ten or more, leaders could equal.

The State of Emergency in Natal must be lifted and I yet again . invite Dr. Mandela to sit down with me and to talk about peace. I ask him yet again to stand up with me and shame violence. I ask him to reason with people in his own organisation like Mr. Terror Lekota who, as recently as June this month, is reported to have threatened to use Umkonto we Sizwe in the political struggle.

Again I say Dr. Mandela, stand up with me and be counted amongst those who are willing to work with each other for peace. Let us put peace above all-. Let us put the good of South Africa above the good of any party including our own parties. Let us put an end to the carnage of the people because unless we do what we can do in this regard we have no right to be doing much else.

12 JUNE AMBASSADOR TO THE NETHERLANDS

Mr. Ambassador, I have now for some time been calling on- Dr.

Mandela to . meet . with me about the hideous violence .in

Kwazulu/Natal. I have done so almost weekly and I take this opportunity of again saying to Dr. Mandela that if he and I sat down to talk and then got up together and went to speak to the people together, we as two people would do more than all the other

...;â\200\230-â\200\230,nx }â\200\230-' :i' [,.â\200\234'n:}-â\200\230;ti ""iz"l P hE L

B R al T e B ) Mandola to sit down and talk peace with me. I again say to:him let us put the good of the State before the good of any Party: I again say to Dr. Mandela that there will be no real democracy in South Africa unless it is a multi-Party

democracy. Inkatha is going to be there in that democracy. I invite Dr. Mandela now to sit down with me and to determine how the

ANC and Inkatha can behave towards each other now at this point in time in the way in which they will behave towards each other when they are : two-of the 'Parties in a multi-Party democracy. Black politics must practice now what it will then do.

#### 15 JUNE STATEMENT TO THE UN MISSTON

Dr. Buthelezi has repeatedly asked Dr. Mandela to talk with him about the Natal/Kwazulu situation and then to go forth with him to the people to calm them and to restore normal political relations between all black political Parties concerned. He has recently again said that if he and Dr. Mandela went forth together to restore peace in the KwaZulu/Natal region, they would do more than the rest of South Africa's combined black leadership could do together. '

#### 15 JUNE STATEMENT RE VIOLENCE IN UMZUMBE AREA

I have in recent weeks been calling on Dr. Nelson Mandela to meet with me and then to go forth with me to put an end to the hideous violence that is so marring the political reputation of the KwaZulu/Natal region. Situations of urgency are now arising as we approach June 16th and all that it means to so many...

Dr. Mandela is not here so I cannot appeal to him to directly intervene but I do appeal to him wherever he is in the world to urgently instruct the ANC leadership in South Africa to go to these two areas and to ensure that there is no ANC attack on innocent .. people and Inkatha members. ..

It is time that wanton killing for political purposes is exposed and shamed out of existence. I invite Dr. Mandela to urge Mr. Sisulu and Mr. Lekota to shame violence with me and to ensure that the lives of the innocent are not lost during this week-end in which we should commemorate the memory of Hector Petersen and other martyrs in non-violent ways which befit the honour of the Black struggle for liberation.

I have proposed that Inkatha, the ANC, the UDF and COSATU. each elect five delegates to form a Peace Committee to spearhead action against violence in the KwaZulu/Natal region. - So far I have had no response but while we wait for this development to mature, let us

do what we can as individual members of these organisations with humanitarian concerns. about people.

#### 15 JUNE STATEMENT - CALL ON DR MANDELA

last. week when I made my appeal for the ANC to intervene and stop the killing in the Umzumbe area, I yet again held out my hand of friendship to Dr. Nelson Mandela. I do so again today. I say to him: "My brother, while you jet around the globe, while you stomp Europe and North America calling for harsh punitive measures against South Africa, and while you and your organisation refuse to declare an end to the armed struggle, people are dying here on the ground in this country because you do not lead amongst them."

I say: to Dr. Mandela yet again that if he and I got together to shame the killing, the killing would be shamed. I say: Let us, Mandela that his call on the people of this region to take their weapons and throw them into the sea, was unheeded and will remain

unheeded because he did not RARE SRR OTE e G = D e i

â\200\230e

that nothing that one leader, ;, ' or nothing that: one organisation can do, ~ can now stop the killing. Let us, I again say, act. because: out of a humanitarian concern, if for no other reason.

18 JUNE STATE PRESIDENT CAPE TOWN

I have called on Dr. Mandela repeatedly and publicly to meet with me and to work with me to eliminate violence in the KwaZulu/Natal area. Let us put the blame question aside and let â\200\231 and -let â\200\234 Inkatha' . as Inkatha and let the ANC as the ANC and let the National Party as â\200\231 the National Party come together as the three major Parties of the country and together gather the support that can be " â\200\230 gathered â\200\234 to eliminate political violence on the ground in KwaZulu/Natal.

22 JUNE REV FRANK CHIKANE SACC

I have in recent times been making the clear statement that if Dr. Nelson Mandela and myself undertook a joint initiative and publicly and boldly went out together to bring peace to the KwaZulu/Natal region, our two-man impact would exceed anything the rest of the region â\200\231s Black leadership could do together. I have invited Dr. Mandela to sit down with me and to talk about how to do just this. Let the two of us, I have said, sit down together and then go forth together to bring peace to our strife-torn areas. I say we must add the impact that we can make as two leaders to whatever else churches, church leaders alone, together or in association with civic leaders, could do to bring about peace.

23 JUNE " CENTRAL COMMITTEE MEETING

The time for the holding out of hands is always there. I hold out my hand of friendship to the ANC, as I holds out to every organisation.

and went forth together to be among the people to call for peace and reconciliation between Inkatha and the ANC, nothing any combination of any black leaders - no matter how many were involved, - would have the same impact...

I again call on Dr. Mandela here in your presence to meet with me. I call on him to go forth with me so that we can call \_ forth: peace together. i REV SIPO MZIMELA AND MRS MZIMELA FROM THE UNITED STATES -+ :

It is against this kind of background that I believe the violence that has taken place in the KwaZulu/Natal region of South Africa should be looked at. 13 AUGUST STATEMENT TO DAILY MAIL ON DR MANDELA'S TV

INTERVIEW

My position remains, as I have stated repeatedly, that I am  
propagated to meet Dr Nelson Mandela at any time for talks if it

will help to resolve the conflict in KwaZulu/Natal.

I have actually given Dr. Mandela dates on which I was available to  
meet him. I have repeatedly called for him to meet with me and  
then for us to go forth together to act against violence. He has  
not responded.

15.AUGUST PRESS STATEMENT RE VIOLENCE ON THE EAST RAND

The time has come, finally, to call a halt to violence. If I read  
the public mood correctly, then they will at this time be demanding  
to know from the ANC why they have been so tardy and have not  
responded to my repeated invitations to ANC Vice-President Dr.  
Nelson Mandela to meet me for talks in a bid to find solutions to  
the conflict. I repeated that invitation on national television  
only yesterday. Yet still there has been no response.

15 AUGUST RESPONSE TO ARTICLE IN SUNDAY TIMES ENTITLED  
"THE ETHNIC CURSE"

I have always abhorred violence for political purposes and I have

- always pursued non-violent tactics and strategies.

2. I. have particularly abhorred Black-on-Black confrontation and the

throwing away of young Black lives by using the modern generation  
as cannon fodder. ? :

I have warned against the intensification of violence in Black-on-

Black confrontation and I have warned against its spreading.

I call on Dr. Mandela now to finally respond to my invitation for  
us to sit down and talk and to go forth to bring peace to our  
strife-torn Black political conflict.
