

To 2 Ina gural eeting of the Kansai Nelson Mandela Huucption Committee
The ANC Tokyo Office learned today of the official launching of the
Mandela Reception Committee in Osaka for the Kansai region. We further
understand that these are the same forces and organisations that organised the
eventful 78 anniveersary of ANC Rally in Osaka on January 20th, that was
addressed by the veteran anti-apartheid campaigners, Archbishop Trevor
Huddleston and myself.

In two days time, various National Reception Committee(NRC) including
delegation from NRC in South Africa will converge in London to hear
preparations from S.A. for the imminent release of Cde Nelson Mandela and plan
activities and campaigns to further advance the anti-apartheid struggle till
true democracy come to South Africa.

There is a unanimous agreement that de Klerk statement on Friday, 02,
this month was very significant and welcomed. But that he did not go far
enough to remove the abstacles that can create and improve atmosphere for
genuine negotiation as reflected in the basic ANC positions, endorsed by OAU
on August 21, by Non-Aligned Movement on September 2 and by British Common
Wealth on 23-25 October summit in Kuala Lumpul and the 16th Special U.N.
Session on South Africa 12-14 December 1989.

We share our people common demand that all security legislation be
abolished, all executions be stopped immediatly and death Raw prosoners be
released.

The reasons advance by de Klerk and his security chiefs about
Mandelais safety and therfor his delayed release are nuinisancical.. They even
alleges that some ANC cadres threatns to kill their leader. All these are
lies. Mandela Security is the problem of the ANC and the oppressed people.
We will not accept white police "protection" or "guarding" Mandela after his
release. Let pressurise for more sanction till aparhtied in its entirety is
bolished.

Our People's demand is to turn South Africa into a united, non-racial,
non sexist democratic state for all its citizens irrespective fo colure, sex,
religion or creed!

Please accept our waumest regards.

AMANDLA.

Jerry Matsila-ANC-Chief Representative to Japan
