Dear Professor,

Godollo, 12 Febr. 1990

Let me to express my regard for your letter connected with Africa Conference. You are without bias in judging the organization side of the conference made by University of Agricultural Sciences at Godblllo and Ebtvbs University of Science at Budapest.

On the basis of your letter organizers of the Conference

held a meeting recently. At the meeting an "Africa Research Team" was formed at our University which task will be to coordinate the further operation and to get in touch with organizers and prospective participants of the 4th Africa Conference which is to be organized in Dakar (Senegal) in 1993 or 1994. Hereby I would like to ask your opinion and proposals in connection with

the next Conference.

At our meeting we agreed that the University Association of

Senegal could be the main organizer of the Conference. In 1991 a preliminary mixed commission could be set up for this work in Dakar. One of the main tasks of the commission, besides executive organization would be to look for sponsors and donors. In our days an international meeting cannot be realized without them (if it coincides with their interests).

I hope we can count on your participation in the preparatory

work of the conference. Thank you in advance for your help and look forward very much to your earliest reply.

Yours very.

uly,

Dear comrade Oliver Tambo.

When we reflect on the latest developements in South Africa, we find it difficult to find words to express our feelings.

We can register that the people of South Africa have fought against the apartheidâ\200\224system with more and more determination and success.

We can register that this struggle has led to wider and better organised participation of all sectors of the oppressed masses of South Africa.

We can register that in all important aspects of the struggle, we can trace the guidelines of the FREEDOM CHARTER.

We can not properly express our appreciation of the leaders of ANC (SA), who organised the historical conference in Kliptown and whom since then have led the struggle for a democratic and non-racial South Africa.

We can only say that few people of our time deserve the title:

EXAMPLES FOR THE HUMANITY

but we honour the leadership of ANC (SA) with this title.

Comrade Oliver Tambo.

We wish you recovery from your physical illness and we hope that we soon will see you returning to South Africa to continue your struggle to crush the evil system of apartheid from "inside".

Comrade Oliver Tambo,

The struggle continues, and Emmaus Björka Association will continue to assist: f: 2%; ; 3, t

southâ\200\224african people as long as it is required.
