ANC Projects Department  
P.O. Box 680  
Morogoro  
TANZANIA

Dear Mr Hollander

We are hugly gratefull to the offer your organisation extends to our people after Bing's short solidarity tour in Holland. In this letter we wish to give you a short social and material set up of our people in Mazimbu, so that you be in a better position to appreciate our objective and needs.

SOMFCO has now grown and encompasses the Nursery school, Primary school, Secondary school and Adult Education school. There are about 80 kids in the Nursery school, about 300 in the Primary school and about 300 in the Secondary school. The remaining section of the population is engaged either in Adult Education or 'on the job training' of skills.

To achieve its primary objective of self-reliance, the school building project has the following supportive structures;

#### COBBLERY

The cobblery supplies the community with all leather products e.g. bags, saddles and repairs all leather products. There are 8 ANC people in this section and none of them have undergone formal training in this field.

#### WELDING

The welding section supports the project with all welding products. There are 4 ANC people in this section and only one of them have undergone formal training.

#### GARMENT FACTORY

This section supplies the community in Mazimbu with all garment products. It also aims at generating funds for the community through selling their products at the local market.

There are 15 ANC people in this section of which 5 of them had undergone formal training.

#### ADULT EDUCATION

The Adult Education section is engaged in upgrading the standards of all South Africans who missed the opportunity of attending school in South Africa.

#### ANC HOSPITAL

A Hospital has been built with assistance of the Dutch Solidarity group.

At present we have 3 doctors who have registered with the Tanzanian government for their internship. Among the staff members, the hospital has two qualified medical assistants. The remaining members/personnel are merely assisting, whilst

they are awaiting proper training.  
The hospital has the following functions;

1) PHARMACY

This has 3 qualified persons.

2) LABORATORY

It has 2 qualified persons.

3) PHISSIONTHERAPY

1 person qualified.

4) DENTISTRY

 4 persons qualified.

## LIST OF REQUIREMENTS

### ADULT EDUCATION

- 1) Slides and Slide Projector, Screen.
- 2) Overhead projector and transparent sheets
- 3) Projector (small size) 16 mm.
- 4) Camera (any type)
- 5) Guillotines (different sizes).
- 6) Typewriters 12 in number.
- 7) Calculators 4 electrical  
10 electronic batteries.

### COBBLERY

- 1) Sticking inside machine.  
Upholstering machine.
- 2) Upholstering machine
- 3) Upper machine.
- 4) Heels and soles.
- 5) Glue for leather.
- 6) Scissors.
- 7) Punchers.
- 8) Cutters with blades.
- 9) Eye pins.
- 10) Wax.
- 11) Dye for leather.
- 12) Shoe blocks (different sizes).
- 13) Trimming upper machine.
- 14) Top stiffening machine.
- 15) Books for designing.

### GARMENT FACTORY

- 1) Scissors 2 Medium and small for trimming.
- 2) Expanding modelling bust (for both male and female).
- 3) Books -guidelinesand designing.

### WELDING DEPARTMENT

- 1) Drill bits- various sizes.
- 2) Drill chucks.
- 3) Reduction sleeve- set of various sizes.
- 4) Flat and triangular scrapers.
- 5) Hacksaw blades and frames.
- 6) Dividers.
- 7) Pin punchers, set and centre punches.
- 8) Cape chissel and scribes.
- 9) Vernier calipers.
- 10) Steel ruler.
- 11) Key files and needle file sets.
- 12) Hallow punch sets.
- 13) Hand vice.
- 14) Rivet- sizes 4&6 and rivet set.
- 15) Allen keys.
- 16) Bolt extractor.
- 17) Vice grip pliers.
- 18) circlip pliers (inside and outside).
- 19) Water pump pliers.
- 20) Pipe Wrench.
- 21) C clamp set.
- 22) Ring wrench, metric set.

- 23) Open and wrech set.
- 24) Adjustable wrenchset.
- 25) Socket wrench set.
- 26) Hand tap set and dye set
- 27) Rose bit set.
- 28) Counter sink set.
- 29) Wheel pencil set.
- 30) Outside and inside micrometer.
- 31) Steel ruler.
- 32) Satey goggles and face shields.
- 33) All types of files (round, halfround, square).
- 34) Sharpenig stones (oil stones)
- 35) Steel hammers and soft hammers.
- 36) screw drivers set.
- 37) Oxygen-acetylene welding and cutting setwith pressure gauges for acetylene and oxygene.
- 38) C Coolant consntrate for hacksaw machine.
- 39) Panel beating instruments.
- 40) Working clothes (boots and overalls).
- 41) Grinding stones, grinding discs, and cutting discs.
- 42) Soldering flux, bronze and allumflux.
- 43) Type writter machine.
- 44) Books on; instructions, saftey, welding etc.
- 45) Technical drawing instruments.

#### ELECTRONIC DEPARTMENT

- 1) BBC micro model B.
- 2) Microvitec (moniter) model 1451.
- 3) Epson R Rx80 printer.
- 4) Printer inter face care.
- 5) CS 400 mitsubishi disc drive.
- 6) Joystic.
- 7) Blank diskettes. (5 $\frac{1}{4}$ ").
- 8) Sheets of paper (for printer).
- 9) Cassette Recorder for DDC micro.
- 10) Lightpen kit for DDCmicro.
- 11) Oscilloscope (dual trace).
- 12) Radio trainer (AAM& AM and FM).
- 13) T.V. trainer.
- 14) Computer trainer.
- 15) Literature on Radio T.V. repairs.
- 16) Technical magezines.
- 17)

#### ANC-DUTCH SOLIDARITY HOSPITAL

- 1) Type writter 6
- 2) Photo Slide machine.
- 3) Duplicating machine.
- 4) Chemicals for developing films.
- 5) Dental feeding materials.
- 6) Bro j  
Projector for slides and slides for primary health care.

- 7) Doctors text books.
- 8) Dental text books.
- 9) Nursing text books - Medicine and Surgery.
- 10) Dictionaries - medical (in English).
- 11) Surgical text books.
- 12) nutrition text books
- 13) Medical journal of different fields.
- 14) Syringes 5mm and needles.
- 15) Clinical thermometers.
- 16) Writing papers, carbon papers, stensils
- 17) Hospitals uniforms white for both male and female.
- 18) diagnostic sets.
- 19) Electric B/P machines.
- 20) Small ventilator fans.
- 21) Wheel chairs.
- 22) Crutches.
- 23) Pressing irons.
- 25) Mops and trolleys.
- 26) Brooms for sweeping.
- 27) Sterilizer (autogloves)
- 28) Dental stool (for the dentist)
- 29) Hospital trays with lids.

#### PHYSIOTHERAPY SECTION

- 10 Medical balls (all tupe) 10
- 2) Small balls and sponges 6.
- 3) Wall mirrors long 4.
- 4) Back mirrors 2.
- 5) Anatomical Posters (various).
- 6) Exercising mat 8.
- 7) Skipping ropes 8.
- 8) Weighing scale 1.
- 9) Goniometers 3
- 10) Dynanometers. 3
- 11) Neck muscle relaxing table 1.
- 12) Atlases of human anatomy.
- 13) Equipment for exercising hand muscles and fingers (puti).
- 14) Equipment for exercising foot, ankles and toes.
- 15) Knee caps.
- 16) Thigh grips
- 17) Backache belts.
- 18) Wall wheel for hand exercise
- 19) Physiotherapy cabinet .
- 20) Radar- machine electro.
- 21) eE Electro-stimulator
- 22) Electro lamps (quartz and sollux)
- 23) Immobile bicycle 1
- 24) Physiotherapy clocks.
- 25) Light and heavy electrodes machines.
- 26) Iron weights.

NB. All books should be in english.

#### REQUISITION FOR A VIDEO SYSTEM

We will be gratefully thankful if you can afford two (2) video systems for entertainment for mazimbu community.

## MAZIMBU COBBLERY REQUIREMENTS

1. Upholstering Machine
2. Fitting blocks
3. Inside stitching machine
4. Upper machine
5. Heels and soles
6. Glue for leather
7. Scissors
8. Punchers
9. Cutter with blades
10. Eye pins
11. Wax
12. Dye (different colours) for leather
13. Shoe blocks (different sizes)
14. Trimming upper machine
15. Top stiffing machine
16. Book about designing & catalogues of cobblery machinery.
