RE : COSPE Scholarship Programme.

1. The Scholarship Department has recently concluded a proposal to the EEC for assistance in educational programmes through the Italian NGO - COSPE.
2. COSPE has been requested to allocate a part of the financial resources of the project to give exiles training opportunities (short term scholarships in planning, management, administration, organisation of income generating activities and small scale production) necessary both for the present needs of the settlements and for those repatriating to SA.
3. The scholarships in different subjects will be utilised at Tanzanian Institutions, such as ESAMI, IDM and others to be identified, especially in the Educational and Vocational Field. Funding does not cover transport from outside Tanzania.
4. Total proposed budget is \$117,000 with \$40,900 of this only available at beginning of 1992.
5. Women will be preferred in the assignment of the scholarships.

6. May I propose that preference be given to those who have already secured placement at these or other institutions.
7. Pending approval of the project proposal Ms. Elisabetta Cirrilo of COSPE will be in Dakawa/Mazimbu from Monday 09/09/1991. Please discuss above matters and arrange to meet with her a.s.a.p.
