Dear Madam President

This is to place on record the sincere gratitude and congratulations of the oppressed but fighting people of South Africa and in particular the gratitude of their vanguard liberation movement the ANC., for the successful initiative which was organised by your Centre which culminated in the just ended visit to Italy of eighteen students plus two teachers from our school in Morogoro, Tanzania.

On behalf of the ANC Mission in Italy, we hurry to assure you that our delegation from SOMAFICO immensely enjoyed their short stay in this country and have benefited much in terms of education and that of establishing new relationships and in cementing friendships cultivated over the years since contact was established between CIES.. the Italian institutions of learning, local civic authorities and public bodies.

Madam President, notwithstanding all problems encountered by you and your team during the planning and execution of this undertaking, the success achieved is an important milestone and will be proudly recorded in annals of the history of SOMAFICO. In this way CIES has indeed contributed towards the fulfillment of our objective of educating per un Sud Africa non razzista. Congratulations a th nks once more Madam President.

Assurin you of our highest consideration at all times.

You rate naly.
