Dear Dear Riet,

Happy New Year and lots of good wishes for 1990 and the new decade.
For sure this decade will bring apartheid down but definitely a lot will remain to
be struggled around.

I am sending you the article Ian wrote on HIVOS behalf on the Community Based
Development Programme. I hope you will find it useful for the aim, though I am aware
that the first issue might not focus on education yet.

Please send me your comments or indications for change, if necessary, so that we'll
be able to revise it.

rn greetings,

Irene Dubel, /7
