Dear comrades and friends

On the 27th of December I am leaving with my wife, Jansie, for a year long scholarship to the Netherlands.

It is difficult to leave at this exciting time in our country's history when the ideals that we have been fighting for are now closer to achievement than ever before. We will follow every development here with great interest and participate there in Europe as best as we can.

For all your friendship and support since my release in March I am very grateful. Especially for the wonderful opportunity to work here at head office and to be part of our continuing liberation struggle.

May you have a happy Christmas, and all of the very best for 1992.

AMANDLA!

Yours in the struggle
