Dear Comrade Mtutuzeli

You will by now know that the African National Congress has established inter-alia, a secondary school at Mazimbu, Morogoro, Tanzania.

The African National Congress decided that the school shall be manned by South Africans. The achievement of this goal has been escaping us. I am informed by the Principal of the Secondary Division that he has a vacancy for a teacher of History.

Your acceptance of this appointment will go a long way towards 'congressing' the teaching staff at our college and thus attaining the objectives that are enshrined in the FREEDOM CHARTER and our Education Policy.

The ANC, through its Department of Education, offers the following conditions of service

- * Free housing
- * Food supplies
- * Clothing
- * A monthly allowance
- * Free medical services
- * Free schooling for dependants

Comrade you are free to request for other conditions of service. Our minds are open on this question.

Compliments of the season.

In the Year of United Action for People's Power!
