Thank you for your reply of 15/1/86 to my

letter of 5/12/85 on the Above subject. However, I do not think you have answered the issue I raised.

My query was concerned with a matter of

policy. As you know, each year this event is held to give the adult working population of Hazinbu the one opportunity in twelve months to socialise and enjoy themselves. At the same time, it serves as a political rally; point for the Works Committee to appraise the year's efforts and to mobilise for more productivity. It renews commitment and better attitudes to work for the following year. It has also been a noble aim and campaign: task of the production units to make the event successful and to remind the workforce that they have a contribution to make towards this as well as their contribution in hard work.

The workers have always provided at least

half the costs of the function. And the other half has been subsidised by the Treasury. But the last occasion was cancelled because Cd. Kay; maintained that it was not ANC policy to pay towards alcohol. I should point out that these parties have always been very orderly and well-controlled.

It was understood that there was a crisis

at the time but my question is: does this mean that financial crisis

again resulted by subsidising the E92 Year's

the ?ranchise, will never

Eve Workers Party?

33? " I help us to plan to:

ultimately arrange. If necessary, but we do feel that with so little social or recreational facilities here, it would be a great pity to deprive the workers of this. Looked forward to your answer.
