

REPORT ON PERSONNEL

Plans are on to transfer the non-workers to Dakawa. Some of the habitual non-workres like Cde David Seagoa and Nonkululeko Qabi have been re-instated by their departments. When I approach Cde Farida she said Nonkululeko should be given a last chance. The same idea came from the Treasury concerning Maharage David Seagoa.

Following are the names of the comrades to be transferred to Dakawa:

A suggestion came from the Youth Chairman that we should call an meeting with all the comrades who are suppose to go Daka and invite the Regional Commissar, Women Section, Youth Section. He said this will help us because these comrades wont be in the position of running to the Regional Commissar/RPC etc like they did last time. I'm also in favour of such a meeting to avoid problems. Those who want to leave the organisation should be allowed to do so. I'm sure they will know after that, that there is no life outside the ANC.
