

20th September 1985.

The Regional Medical Officer
Regional Hospital
P.O. Box 110
Morogoro

Dear Sir,

Ref: Gastor Chonde

The above mentioned comrade has been working in our Catering Department as a cook. Due to ill health we decided that he should be transferred to one of our departments here in Mazimbu. Of course he was given light duties to perform since he requested us to do so.

On the 5th September 1985 he brought a note from the Hospital and the Doctor who signed it had confirmed that he should be excepted from the kitchen duties. On the 18th September 1985 he came back with the same note from the Hospital saying he can resume his duties but not stating whether in the kitchen or the light work he is presently doing. Now I am sending you this letter asking you to kindly have Gastor checked by the Hospital and finally send us a full medical report.

I trust you will give this matter the urgency it deserves.

Yours sincerely

Enos Ngutshana
Personnel Officer
